- 94 Forest Street, Quincy Line.
- 95 Randolph Avenue, Quincy Line.
- 96 Randolph Avenue and Highland Street.

Special
Signals
for Fires
in the
Blue Hills
Reservation.

Running Card.

Engine No. 1 and Hose No. 1 will respond to all alarms and signals.

Ladder Truck No. 1 will respond to all alarms and signals except signal 451.

Combination No. 1 will respond to all alarms but not to signals calling for apparatus to go out of town.

Hose No. 2 will respond to first alarms from Boxes 31, 32, 34, 36, 39, 341, 41, 42, 412, 6, 62, 63, 64, 65, 67, 68, 69, 652, 671, 71, 73.

Hose No. 3 will respond to first alarms from Boxes 35, 312, 315.

Hose No. 4 will respond to first alarms from Boxes 12, 13, 14, 15, 17, 142, 151, 21, 23, 24, 25, 27, 35, 37, 38, 312, 315, 371, 5, 51, 52, 53, 54, 56, 57, 512, 521, 542.

When, after an alarm has been sounded, and before the all-out signal for the same has been given, an alarm is given from another box, the alarm from the second box is to be responded to the same as a General Alarm.

Directions in Case of Fire.

Get the key to the nearest box, open and pull the lever all the way down once, then let go and close the door.

Remain at the station, if possible, after giving an alarm, to direct the firemen to the fire.

Second alarms will be given only by one of the Engineers.

Citizens are earnestly requested to keep themselves informed as to the location of the keys. Signs over each box will give the desired information.

Caution to Persons Holding Station Keys.

Never open or touch the apparatus except in case of fire.

Never sound the alarm for a fire seen at a distance, unless assistance is called for.

Be reasonably sure there is a fire before sounding the alarm.

Never let the key go out of your possession, except to some responsible person to give an alarm of fire, and be sure the key is returned.

If you remove from your house or place of business, return the key to the Engineers at once.

77th ANNUAL TOWN REPORT

OF

MILTON

MASS.

FOR THE YEAR ENDING

DECEMBER 31, 1913

COMPILED BY

THE AUDITORS

POOLE PRINTING Co., Inc.
251 CAUSEWAY STREET
BOSTON

STATEMENT OF THE AUDITORS

To the Citizens of Milton:

In accordance with the Revised Laws and the By-Laws of the town, we have examined the books and accounts of all officers and committees intrusted with the expenditure of money, and all original bills and vouchers on which moneys have been paid from the treasury for the year ending Dec. 31, 1913, and have found the same correct.

Respectfully submitted,

ERNEST P. LIBBY
WILLIAM A. WILL { *Auditors*

MILTON, MASS., Dec. 31, 1913.

REVISED BY-LAWS.

TOWN OF MILTON, MARCH 2, 1902.

*Adopted by the Town and approved by the Superior Court
May 20, 1902.*

CHAPTER 1.

GENERAL PROVISIONS.

SECTION 1. These By-Laws, contained in this and the succeeding chapters, being ten chapters in all, may be designated as the Revised By-Laws, adding the number of the chapter and section when necessary.

SECT. 2. So far as the provisions of these By-Laws are the same in effect as those of previously existing By-Laws, they shall be construed as a continuation of such By-Laws, but, subject to said limitations and the provisions of the next section, all By-Laws of the town heretofore in force are hereby repealed; provided that this repeal shall not apply to or affect any By-Law, order, or article heretofore adopted, accepting or adopting the provisions of any statute of the Commonwealth.

SECT. 3. These By-Laws and the repeal of all By-Laws heretofore in force shall not affect any act done, any right accrued, any penalty or liability incurred, or any suit, prosecution, or proceeding, pending at the time when they take effect; nor shall the repeal of any By-Law thereby have the effect of reviving any By-Law theretofore repealed or suspended.

SECT. 4. When in a By-Law anything is prohibited from being done without the license or permission of a certain officer, officers, or board, such officer, officers, or board, shall have the power to license or permit such thing to be done.

SECT. 5. In all the By-Laws of the town the following words and expressions shall, unless inconsistent with the manifest intent, be severally construed as follows:—

The words *public way* shall include any highway, townway, road, bridge, street, avenue, boulevard, roadway, parkway, lane, sidewalk or square; *the owner or occupant* of a building or land shall include any sole owner or occupant, and any joint tenant and tenant in common of the whole or of any part of a building or lot of land; words purporting to give a joint authority to three or more officers or other persons shall give such authority to a majority of such officers or persons; the word *person* may include corporations; words importing the singular number may apply to the plural number, and words importing the masculine gender may apply to the feminine gender.

SECT. 6. All fines and penalties for the violation of any By-Law shall, when received, inure to the use of the town, and be paid into the town treasury, unless it be otherwise directed by the laws of the Commonwealth or the By-Laws of the town.

SECT. 7. Whoever violates any of the provisions of the By-Laws of the town, whether included in these By-Laws or any hereafter enacted, whereby any act or thing is enjoined or prohibited, shall, unless other provision is expressly made, forfeit and pay a fine not exceeding twenty dollars for each offence.

SECT. 8. Whoever shall refuse or neglect to obey any order of any town officer or board of town officers, issued under any of the By-Laws of the town, directed to him and properly served upon him, shall, in cases not otherwise provided for, forfeit and pay for such offence a fine not exceeding twenty dollars.

SECT. 9. Prosecutions for the breach of any of the provisions of the By-Laws of the town shall be commenced within six months from such breach.

SECT. 10. Any or all of the By-Laws of the town may be repealed or amended, or other By-Laws may be adopted, at any town meeting, annual or special, an article containing the subject-matter of the proposed change having been inserted in the warrant for such meeting.

CHAPTER 2.

TOWN MEETINGS.

SECTION 1. The warrants for all town meetings shall be directed to the constables of the town, and the meetings shall be notified by posting attested copies of the warrant in each of the post-offices of the town at least fourteen days, and by leaving printed copies thereof at the dwelling-houses in the town at least four days, before the day of such meeting.

SECT. 2. The annual meeting for the election of town officers shall be held upon the first Monday of March, the polls to be open at seven o'clock in the forenoon, and after the election of a Moderator, they shall remain open until two o'clock in the afternoon for the election of such other town officers as are required by law to be elected by ballot, all said officers to be voted for on one ballot. At any time after 2 P.M. a vote may be passed to close the polls in not less than ten minutes.

SECT. 3. After the closing of the polls and the election of other town officers, the remaining articles in the warrant shall be considered.

SECT. 4. All motions shall, if required by the Moderator, be reduced to writing before being submitted to the meeting.

SECT. 5. Upon taking the question, if the decision of the Moderator is doubted, or a division of the house called for, the Moderator shall request the voters to be seated, and shall appoint tellers; the question shall then be distinctly stated, and those in the affirmative and negative, respectively, shall

be requested to rise and stand in their places until they are counted by the tellers, who shall carefully count each side and make a report thereof to the Moderator.

SECT. 6. No vote shall be reconsidered at the same meeting, except upon a motion made within one hour of the adoption of such vote, unless ordered by two-thirds of the voters present and voting thereon.

SECT. 7. When a question is before the meeting, the following motions, viz.:—

- to adjourn,
- to lay on the table,
- for the previous question,
- to postpone to a time certain,
- to commit (or recommit) or refer,
- to amend or substitute,
- to indefinitely postpone,

shall have precedence in the order in which they are placed in this section.

In proposed amendments involving amounts or dates, the smallest amount and the shortest time shall be put first.

SECT. 8. After the declaration of the vote for town officers, fifteen legal voters shall be appointed by the Moderator, who shall constitute a committee to be known as the Warrant Committee. The persons so appointed shall continue as members of said committee until the town meeting of the ensuing year.

CHAPTER 3.

THE WARRANT COMMITTEE.

SECTION 1. The Warrant Committee shall, within two weeks after their appointment, meet, at the call of the member thereof first named, for organization by the choice of a chairman and secretary. And they shall meet thereafter from time to time as they may deem advisable.

They shall have power to fill vacancies in their number by vote, attested copy of which shall be sent by the secretary to the Town Clerk.

SECT. 2. It shall be the duty of the Warrant Committee to inform themselves concerning those affairs and interests of the town, the subject-matter of which is generally included in the warrants for its town meetings; and the officers of the town shall, upon their request, furnish them with facts, figures, and any other information pertaining to their several departments; provided, however, that any such information may be withheld when, in the opinion of the officer or board of officers so requested, the communication thereof might injuriously affect the interests of the town or its citizens.

SECT. 3. The Warrant Committee shall consider the various articles in the warrants for all the town meetings held during the period for which they were appointed, including the various articles in the warrant for the annual town meeting next after their appointment; and they shall report in print before all such town meetings their estimates and recommendations for the action of the town.

CHAPTER 4.

THE TOWN'S FINANCES AND PROPERTY.

SECTION 1. The financial year shall begin with the first day of March.

SECT. 2. The Selectmen shall annually, not less than seven days before the annual meeting, cause to be printed and distributed among the tax-payers of the town, a detailed report of all moneys received into and paid out of the town treasury during the preceding calendar year, with such information and recommendations as they may deem proper, and with detailed estimates of the amounts of money that will be required for the ensuing financial year. With this report

shall be printed the records of all meetings of the town held since the last annual report was printed, the reports of the Auditors, of the Surveyors of Highways, and of the Engineers of the Fire Department, the Collector's account of receipts, payments, and abatements, a list of all taxes assessed, an abstract of the births, marriages, and deaths to be furnished by the Town Clerk, a statement concerning the condition and funds of the public library and the cemetery to be furnished by the trustees respectively, and a statement of all other funds belonging to the town or held for the benefit of its inhabitants; also statements of the liabilities of the town on bonds, notes, certificates of indebtedness, or otherwise, and of the total money paid the town, the income of which is to be applied to the care of lots in the cemetery. The annual report shall also contain such other matters as may be required by the By-Laws of the town.

SECT. 3. The assessment of taxes shall be completed and the tax list and warrant shall be delivered to the collector on or before the first day of August in each year.

SECT. 4. Poll taxes shall be payable on demand, and all other taxes assessed in each year shall be payable on or before the first day of November in the same year; and on all such taxes as are not paid on or before the said first day of November, interest shall be charged at a rate to be fixed annually by the Town, pursuant to Section 71 of Chapter 490 of the Acts of the year 1909, Part 1, and the Collector shall use all the means and processes provided by law for the collection of all taxes remaining unpaid after the first day of November in the same year.

SECT. 5. No person being an officer of the town shall in his official capacity make or pass upon, or participate in making or passing upon, any sale, contract or agreement, or the terms or amount of any payment, in which the Town is interested and in which such officer has any personal interest at variance with that of the town.

SECT. 6. The Selectmen, being duly authorized by vote of the town under the limitations imposed by statute, may authorize the Treasurer to borrow money temporarily in anticipation of the collection of taxes, or upon loans authorized by vote of the town, and to give promissory notes therefor in behalf of the town, the same to be signed by the Treasurer and countersigned by a majority of the Selectmen.

SECT. 7. No money granted for special purposes shall be applied to any other use unless by a vote of the town, and all unexpended balances of such grants shall be stated in the annual report.

SECT. 8. No order shall be drawn by any officer or committee on the Town Treasurer for any purpose not authorized by a vote of the Town, or by the laws of the Commonwealth, nor shall any such draft be made for any amount which overdraws the appropriation against which it is made, whether general or special; and the Town Treasurer shall keep full accounts in respect to the several separate appropriations and the drafts made against each, and shall not honor any draft which does not state specifically the appropriation against which it is drawn, or which overdraws such appropriation, whether general or special.

SECT. 9. To provide for extraordinary expenditures of departments, should any become necessary in excess of appropriations made, the town shall annually appropriate a certain sum of money to be known as the Contingent Fund. No direct drafts against this fund shall be made, but transfers from the fund may be made by vote of the Warrant Committee to the account of any other appropriation. A certified copy of such vote shall be sent to the Town Treasurer, and the Treasurer shall transfer accordingly, and honor drafts against the funds so transferred as if originally appropriated.

SECT. 10. No board, committee, or officer of the town shall commit the town to any expenditure or liability which

would, in the ordinary course of business, be chargeable to the appropriation of which such board, committee or officer is or has been in charge, after such appropriation has been exhausted, or after the satisfaction of all liabilities against it would exhaust it, until either the Warrant Committee shall have transferred additional sums to such appropriation, or until the town, at a meeting of the voters, shall have acted in the matter.

SECT. 11. No grant of a sum of money exceeding five hundred dollars shall be made until the subject-matter thereof has been considered and the estimates reported to the town, either by the Selectmen or other town officers, or by the Warrant Committee or some committee chosen for that purpose in pursuance of a vote of the town.

SECT. 12. The Selectmen shall have full authority as agents of the town to institute and prosecute suits in the name of the town, and to appear and defend suits brought against it, unless it is otherwise specially ordered by a vote of the town.

SECT. 13. Whenever it shall be necessary to execute any deed conveying land or other instrument required to carry into effect any vote of the town, the same shall be executed by the Selectmen, or a majority thereof, in behalf of the town, unless the town shall otherwise vote in any special case.

SECT. 14. Two Auditors shall be chosen by ballot at the annual meeting, who shall have the power and perform the duties prescribed by statute.

CHAPTER 5.

THE CEMETERY.

SECTION 1. The sole care, superintendence, management, and control of the Cemetery shall be intrusted to a Board of five Trustees to serve for the period of five years; one of said Board shall retire and a new member be elected at each annual meeting of the town.

In case of vacancies in the Board of Trustees the remaining members may fill the same, but any member so chosen shall hold office only until the next annual town meeting, when a Trustee shall be elected for the unexpired term.

SECT. 2. Citizens of Milton who are heads of families and have been residents of the town not less than five years shall be entitled to lots in the Cemetery, allowing one lot to a family, subject to the regulations adopted by the town, upon payment of the charges for putting the lot in order; but by unanimous consent of the Trustees the five years' residence requirement may be waived.

SECT. 3. The Trustees, when in their judgment it shall be deemed advisable, may sell lots at the rate of fifty cents a square foot, but only to those who are in some way connected with Milton people.

SECT. 4. The proprietor of each lot shall cause to be erected, at his own expense, corner-stones, and a step with his name and the number of the lot inscribed on the same, and shall cause his lot to be kept in proper order; and if the proprietor shall omit for thirty days after notice to erect such landmarks and to keep the lot in order, the Trustees shall have authority to have the same done at the expense of said proprietor.

SECT. 5. No lot shall be used for any other purpose than as a place of burial for the dead, and no proprietor shall suffer the remains of any person to be deposited within the bounds of his lot for hire; nor shall any proprietor sell or transfer the whole or any part of his lot without the consent of the Trustees.

SECT. 6. If in the judgment of the Trustees any trees or shrubs in any lot shall become detrimental to the adjacent lots or avenues, or dangerous or inconvenient, it shall be the duty of the Trustees to enter upon said lot and to remove said trees and shrubs, or such parts thereof as are thus detrimental, dangerous or inconvenient.

SECT. 7. There shall be no structure or inscription placed in, upon or around any lot which the Trustees shall deem offensive or improper; and it shall be the duty of the Trustees to remove all offensive or improper objects.

SECT. 8. The Trustees shall have authority to purchase any tomb in the Cemetery offered for sale, paying for the same such sums as, in their judgment, may be fair and reasonable. They shall also have authority to give for any tomb a lot to be constructed on the land occupied by the tomb, or to be selected at some other point in the Cemetery grounds, as they may agree with the proprietor of the tomb. Should there be no living proprietors, or legal representatives of deceased proprietors, the Trustees may take possession of such tomb, carefully remove its contents to a lot prepared for the purpose, and erect over the remains a suitable memorial stone.

SECT. 9. The following regulations shall be posted within the Cemetery:—

1. All persons are prohibited from driving on the borders.
2. No horse shall be left upon the grounds without a keeper, unless fastened to posts provided for the purpose.
3. All persons are prohibited from discharging firearms within the grounds of the Cemetery, except in connection with military memorial services.
4. All persons are prohibited from writing upon or otherwise defacing any sign, monument, fence, or other structure.
5. All persons are prohibited from gathering flowers, or breaking any tree, plant or shrub.
6. Dogs are not allowed within the Cemetery grounds.

CHAPTER 6.

POLICE REGULATIONS.

SECTION 1. No person shall move or assist in moving any building, over any way which the town is obliged to keep in repair, without the written permit of the Selectmen

being first obtained; nor, having obtained such permit, without complying with the restrictions and provisions thereof.

SECT. 2. Whoever, without a written license from the Selectmen, shall cause or suffer any cart or wagon to remain within the limits of any public way so as in any manner to obstruct travel thereon, or for more than twenty-four hours, shall forfeit and pay a sum not less than one dollar and not more than ten dollars for each offence; and he shall be subject to a like penalty if he neglects to remove the same within the time ordered by such officers, who may revoke such license at any time.

SECT. 3. No person shall place or cause to be placed, upon any public way or sidewalk, any lumber, iron, wood, coal, trunk, bale, box, crate, cask, barrel, package or other thing, and allow the same to remain for more than one hour, or more than ten minutes after being notified by a constable, police officer or the Selectmen.

SECT. 4. Any person who intends to erect, repair or take down any building on land abutting on any way which this town is obliged to keep in repair, and desires to make use of any portion of said way for the purpose of placing thereon building materials or rubbish, shall give notice thereof to the Selectmen. And thereupon the Selectmen may grant a permit in writing to occupy such a portion of said way to be used for such purpose as in their judgment the necessity of the case demands and the security of the public allows; such permit in no case to be in force longer than ninety days, and to be on such conditions as the Selectmen may require; and especially in every case, upon condition that during the whole of every night, from twilight in the evening until sunrise in the morning, lighted lanterns shall be so placed as effectually to secure all travellers from liability to come in contact with such building materials or rubbish.

SECT. 5. No person shall throw or place, or cause to be thrown or placed, any ice or snow into or upon any public

way unless the same be broken into small pieces and spread evenly.

SECT. 6. Whoever, without the written permission of the Selectmen, shall place or cause to be placed in or upon any public way, or sidewalk, any ashes, dirt, rubbish or filth of any kind, or any animal or vegetable substance, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 7. Whoever shall suffer any horse or grazing beast, or swine, to run at large in the town, or to feed in any public way either with or without a keeper, and whoever shall drive any such animal upon any sidewalk, or suffer any horse to remain hitched across any sidewalk, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 8. Three or more persons shall not continue to stand or remain in a group, or near to each other, on any sidewalk or in any public place in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on. Any person who shall violate the provisions of this section shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 9. No person shall dig up or obstruct any portion of any way which the town is obliged to keep in repair without the permit, in writing, of the Selectmen, nor, having obtained such permit, shall fail to comply with the conditions thereof; and in addition to any penalty to which he may be subjected under these By-Laws for such failure, he shall reimburse the town for all expenses and damages which, or for which, the town may be compelled to pay by reason of such unauthorized use, or any failure to comply with said conditions.

SECT. 10. No person shall ride or drive any beast of burden, carriage or draught, or shall propel or cause to be

propelled any bicycle, tricycle, automobile or any vehicle whatsoever, at a rate of speed exceeding ten miles an hour, in or over any crossing in any public way.

SECT. 11. No person shall permit any team under his care or control to stand across any public way in such a manner as to obstruct the travel over the same for an unnecessary length of time; no person shall stop with any team in any public way so near to another team as to obstruct public travel; and no person shall stop with any team or carriage upon or across any crossing in any public way.

SECT. 12. No person shall drive or take charge of at the same time in any public way two or more vehicles drawn by horses or other beasts; or shall allow any vehicle belonging to him to be driven in any public way without some competent person in charge thereof.

SECT. 13. Whoever shall coast upon ice or snow on Adams Street, between Churchill's Lane and the line of the City of Boston, or upon any public way on which the Selectmen or Superintendent of Police shall by public notice have forbidden such coasting, and whoever shall drive, wheel or draw any coach, cart, wheelbarrow, handcart, velocipede, bicycle or any carriage of burden or pleasure, except children's carriages, or coast upon any sidewalk in the town, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 14. Whoever shall behave in an indecent or disorderly manner, or use profane, indecent, or insulting language in or upon any sidewalk, public way, or other public place, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

SECT. 15. Any person or persons who shall play or perform on any musical instruments, or sing, parade, march, or congregate in any public way or public place, except in

connection with a funeral, without the written permit of the Selectmen, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

SECT. 16. Whoever shall be or remain on any doorstep, portico, or other projection from any house or building, or upon any wall or fence on or near any public way or public place, after being requested by the occupant of the premises or by any constable or police officer to remove therefrom, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 17. No person shall throw stones, snowballs, sticks, or other missiles, or kick a football or play at any game in which a ball is used, or fly any kites or balloons, in any public way.

SECT. 18. Whoever shall affix, by paste or otherwise, any handbill, placard, notice, or advertisement, or paint, draw or stamp the same, or any marks or figures, to or upon any signboard of the town, or to or upon any building, fence, wall, tree or structure, without the permission of the owner of such building, fence, wall, tree or structure, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence; and if such handbill, placard, notice, advertisement, mark, or figure be obscene or indecent, the penalty shall not be less than twenty dollars for each offence.

SECT. 19. Whoever shall undertake to enter a particular drain into a common sewer without a permit in writing from the Sewer Commissioners or without complying with the conditions and directions of such permit, shall forfeit and pay a sum not exceeding ten dollars.

SECT. 20. Whoever shall lead or cause to be led into any public way, or running stream, any drain or pipe from any house or other building whereby filthy water or other unclean matter may be emptied into or upon any such public way or running stream; and whoever shall throw, lead or discharge

or cause to be thrown, led or discharged, into any public way, or running stream, any noxious or poisonous matter or substance, or any matter or substance which shall cause an offensive smell or odor, or which shall be destructive of, or injurious to, animal life, shall forfeit and pay a sum not less than five dollars nor more than twenty dollars.

SECT. 21. The Selectmen may grant licenses to use a certain portion of any public way as a carriage-stand, under such terms and conditions as they may prescribe; and no person shall use any portion of any public way as a carriage-stand for the solicitation of passengers for hire without a license from the Selectmen. But licenses shall not be confined to one person to the exclusion of other applicants, and shall be granted so as to allow competition and promote public convenience.

SECT. 22. No person shall distribute papers, circulars, or advertisements through the town or any portion thereof in such a manner as to make a litter or otherwise cause public annoyance.

SECT. 23. No person shall fire, discharge, explode or set off any gun, fire-arm, torpedo, fire-cracker or fire-works in such manner as to frighten any horse, or to disturb the peace or quiet of any neighborhood.

SECT. 24. No person shall wilfully deface or injure any public playground, planting space, flower bed, tree, shrub or grass border.

SECT. 25. No person shall own or keep a dog which by barking, biting, howling or in any other manner is disturbing the peace or quiet of any neighborhood.

SECT. 26. No person shall hawk or peddle any of the articles enumerated in Section 15 of Chapter 65 of the Revised Laws, until he has recorded his name and residence with the Superintendent of Police, and been assigned a number by him, nor unless any vehicle or receptacle in which he shall carry or convey such articles shall have

painted on it in letters and figures at least two inches in height the name of the person selling, and the number given him by the Superintendent of Police, and be approved on the first Monday in every month by the Superintendent of Police; provided, however, that the foregoing provisions shall not apply to minors licensed by the Selectmen; and, further, provided that the Selectmen may restrain the sale by minors of any or all such articles.

No person hawking, peddling or selling, or exposing for sale, any articles enumerated in Section 15 of Chapter 65 of the Revised Laws, shall cry his wares to the disturbance of the peace and comfort of the inhabitants of the town.

No hawker or peddler shall carry or convey any articles enumerated in Section 15 of Chapter 65 of the Revised Laws in any manner that will tend to injure or disturb the public health or comfort, nor otherwise than in vehicles or receptacles which are neat and clean and do not leak.

SECT. 27. The Selectmen may license suitable persons to be dealers in and keepers of shops for the purchase, sale, or barter of junk, old metals, or second-hand articles, in the town. They may also license suitable persons as junk collectors, to collect, by purchase or otherwise, junk, old metals, and second-hand articles from place to place in the town; and they may provide that such collectors shall display badges upon their persons, or upon their vehicles, or upon both, when engaged in collecting, transporting, or dealing in junk, old metals, or second-hand articles; and may prescribe the design thereof. They may also provide that such shops and all articles of merchandise therein, and any place, vehicle or receptacle used for the collection or keeping of the articles aforesaid, may be examined at all times by the Selectmen or by any person by them authorized thereto. The aforesaid licenses may be revoked at pleasure, and shall be subjected to the provisions of Sections 186 to 189 inclusive of Chapter 102 of the Revised Laws.

Whoever violates any provisions of Sections 26 and 27 shall in cases not otherwise provided for, forfeit and pay for each offence a fine not exceeding twenty dollars.

SECT. 28. The Selectmen may order numbers to be affixed to or painted on the buildings on any street in their discretion. The owner of every house shall comply with such order within thirty days thereafter.

PROSECUTIONS AND PENALTIES.

Except when otherwise provided by law, prosecutions for offences under the By-Laws of the town may be made by any constable or police officer of the town.

CHAPTER 7.

THE CONSTRUCTION AND INSPECTION OF BUILDINGS.

SECTION 1. There shall be in the town a department for the Inspection of Buildings, which shall be furnished with office room and such supplies for the transaction of business as the Selectmen may provide.

SECT. 2. The officer of said department shall be called the Inspector of Buildings. He shall be appointed by the Selectmen, and shall hold office until his successor is appointed. His compensation shall be regulated by the Selectmen.

SECT. 3. Wherever the word Inspector without further addition occurs in this chapter, it means the Inspector of Buildings.

SECT. 4. The Inspector shall keep a record of all business of the department, and shall submit to the Selectmen such reports of the same as they may require.

SECT. 5. The Inspector may, so far as is necessary for the performance of his duties, enter any building or premises within said town at any reasonable hour.

SECT. 6. The Selectmen may, after a hearing, of which public notice shall be given at least seven days prior thereto, by posting a written notice thereof in each post-office in the town and on the public bulletin boards in the town, and by publishing the same in a newspaper published in the town, or, if there be no such newspaper, in one published in the city of Boston, pass a vote designating building limits within the town; and upon the acceptance of said vote by the town at a meeting called as provided by law, said building limits shall be established. Said building limits may comprise the whole or any specified part or parts of the territory of the town.

SECT. 7. Until building limits are established as provided in Section 6, the provisions of this chapter shall apply to the erection, alteration and removal of buildings and other structures throughout the town. After the establishment of such building limits said provisions, save as otherwise specified therein, shall apply to the erection, alteration and removal of buildings and other structures within such building limits only.

SECT. 8. No work shall be done upon any wall, building or other structure except such repairs as may be necessary for the preservation of the same, nor shall any wall, building, or other structure be erected, raised, moved, enlarged, altered, or torn down, without a permit from the Inspector.

SECT. 9. Applications for such permits shall be in writing upon blanks furnished by the town, and shall be directed to the Inspector, who shall keep a record of the same.

SECT. 10. In the case of an application for a permit to erect, raise, move or alter a building or other structure where the Inspector is of opinion, because of all the circumstances, that the reasons for the provisions of this chapter do not apply, the Inspector may, with the consent in writing of the Selectmen, issue a special permit waiving all or any of said

provisions. But before such permit is granted, three days' notice in writing from the Inspector shall be served upon all persons owning land within two hundred feet of the proposed building or structure, in order that such owners may be heard in opposition to the granting of such permit. The Selectmen shall keep a record of all such permits to which they consent.

SECT. 11. The framing plans and specifications of every building or other structure, and of every alteration in a building or other structure, for which a permit is required, shall be deposited temporarily with the Inspector. A copy of the plans and specifications of public buildings and of every alteration in a public building shall be deposited permanently with him. All plans and specifications deposited under this section shall be dated and signed by the Inspector immediately upon being received by him.

SECT. 12. Every permit issued by the Inspector shall state the purpose for which the building is to be used, and the conditions, if any, under which it is granted. All permits issued shall be recorded in detail, and said records shall be preserved.

SECT. 13. The Inspector shall not give a permit for the erection of any building or other structure until he has inspected the plans and specifications thereof, and ascertained that the building as planned has sufficient strength, proper means of ingress and egress, and that it conforms to the law and the By-Laws of the town, or for the alteration of any building or other structure already erected, until he has examined said building or other structure and the plans and specification of said alteration, and has satisfied himself that said building as altered will have sufficient strength, proper means of ingress and egress, and will conform to the law and the By-Laws of the town.

SECT. 14. The Inspector shall inspect all work for which a permit has been issued, and shall see that it is being carried on according to law and the By-Laws of the town.

SECT. 15. No permit for the erection of any building to be used as a factory, or in which steam or other motive power is to be used, or which is to be used for the manufacturing of chemicals, or for the alteration or the moving of any building for any of such uses, shall be granted until after public hearing before the Selectmen; and no building for any of such purposes shall be erected, altered or moved without such permit. Notice of such hearing shall be given at least seven days prior thereto, by posting a written notice thereof in each post-office in the town, and on the public bulletin boards in the town, and by mailing a copy of the same to the owners of premises within five hundred feet of the proposed location of the building, addressed to their last known residence or place of business, and by publishing the same in a newspaper published in the town, or, if there be no such paper, in one published in the city of Boston.

SECT. 16. No boiler to furnish steam for power shall be set or erected, except on a permit from the Inspector, issued after a hearing as prescribed in the preceding section.

SECT. 17. Permits for the erection, alteration, or moving of any building to be used as a stable in which more than four horses are to be kept shall only be granted after hearing as provided in Section 15. Notice of such hearing shall be sent to the Board of Health of the town, in addition to the notices prescribed in said Section 15.

SECT. 18. The provisions of Sections 15, 16 and 17, shall apply to the whole town irrespective of building limits.

SECT. 19. The Selectmen may, in their discretion, after a hearing as provided in Sections 15, 16 and 17, instruct the Inspector not to issue the permit asked for, and in such case no such permit shall issue.

SECT. 20. In case the owner of any building or other structure, or an applicant for a permit to erect, move or alter a building or other structure, is dissatisfied with any order or decision of the Inspector made in any of the proceedings

prescribed in this chapter, the matter shall be referred to the Selectmen, who, within one week from said reference, shall hear the parties, and after taking such expert opinion as may seem to them to be necessary, give their decision. In case the decision of the Inspector is affirmed, the expense of any expert opinion taken by the Selectmen shall be paid to the town by the owner or applicant on demand; otherwise such expense shall be borne by the town.

SECT. 21. Every portion of every building or other structure in process of construction, alteration, repair or removal, and every neighboring building or other structure or portion thereof affected by such process, or by any excavation, shall be properly supported during such process or excavation.

SECT. 22. All chimneys shall be built of brick or stone, and shall be lined with flue lining starting two feet below all thimble holes and at least two feet below the under side of first-floor timbers, and extending above the roof boarding; or shall have an eight-inch brick or stone wall from the foundation to the roof boarding, and shall be topped at least three feet above the highest point of contact with roof.

SECT. 23. No nails shall be driven into any chimney at any point; and no woodwork shall be within one inch of any chimney.

SECT. 24. Sills and girders shall be of sufficient size to safely support the superstructure.

SECT. 25. All woodwork, including lath and plaster, within two feet of any heating apparatus or smoke pipe, and all woodwork, including lath and plaster, coming in contact with any pipes from said apparatus, shall be properly protected by a metal or stone shield.

SECT. 26. All partitions in which hot air pipes run shall be lined with sheet metal, or the pipes shall be wound with asbestos covering.

SECT. 27. Where dwellings of more than two stories are to be occupied by more than two families, there shall be at least two flights of stairs from the ground floor to the top floor, or one flight from the ground floor to the top floor inside, together with an approved fire escape outside.

SECT. 28. The studding of main or carrying partitions shall be not less than four inches in thickness, and shall have a proper support at bottom with a header not less than three inches in depth unless hard pine is used, then it may be two inches. All openings in main partitions of more than thirty inches shall be trussed over and have double studding at sides. Every partition shall have a header extending the length of the partition, and carrying partitions shall be bridged with stock the full width of studding, and two inches thick at least once in height.

SECT. 29. The studding in outside walls and in partitions shall be not more than sixteen inches on centres unless permission is otherwise granted.

SECT. 30. For buildings other than wooden dwelling-houses the size of floor timbers shall be of sufficient size in the opinion of the Inspector to safely carry the weight intended. In wooden dwelling houses the floor timbers for a 12 to 14 foot span shall be not less than 2 x 8; for a 14 to 16 foot span, not less than 2 x 9; for a 16 to 18 foot span, not less than 2 x 10; for an 18 to 20 foot span, not less than 2 x 12; in every case the timbers shall be not more than 16 inches apart on centres.

SECT. 31. All headers and trimmers shall be double the thickness, framed together and pinned or hung in stirrup iron and joint bolted.

SECT. 32. All floor joists on the first floor shall be framed in even with the bottom of the sill and stopped off between where they come above the sills, either with joists or brick. Fire stops, the full width of the studding, and not less than

three inches thick, shall be cut in on top of the floor joists on each floor above the first floor.

SECT. 33. All floor timbers shall be bridged, in a space of more than eight feet, with 1 x 3 inches, or 2 x 3 inches, stock, properly nailed at each end.

SECT. 34. The rafters of all buildings shall be of sufficient size, in the opinion of the Inspector, to safely carry the weight that must necessarily be put upon them, and be placed not over twenty inches apart on centres.

SECT. 35. In dwellings arranged for two or more families, side by side, the vertical division walls between the families shall be either of brick not less than eight inches thick and continued without break or interruption from cellar bottom to roof boarding, or of studding not less than four inches in thickness; and the spaces between the studding shall be filled solid, either with brick and mortar, mineral wool, or other incombustible material, approved by the Inspector, and this fire-proof filling shall continue up to the roof boarding.

SECT. 36. All hearths shall be supported by trimmer arches of brick or stone.

SECT. 37. All piers shall be built of brick or iron columns on proper stone or brick footing, and be of such size as to safely carry the weight they are intended to sustain. Brick piers shall be built of hard-burned brick laid in cement mortar.

SECT. 38. All wooden buildings hereafter erected shall have the sills, posts and girts mortised, tenoned and pinned together and supported by suitable studding, and shall be properly braced. End girts shall be placed in all wooden buildings. Sills shall not be less than 6 x 6 inches and shall be properly tied to all girders, and a sufficient number of floor timbers shall be tenoned and pinned to same to keep the building from spreading.

SECT. 39. Posts and girts shall be not less than 4 x 6 inches, other posts not less than 4 x 8 inches, and plates not less than 4 x 4 inches.

SECT. 40. No wooden building shall be built within two feet of the line of an adjoining lot, unless a brick wall at least eight inches in thickness shall be substituted for the wooden wall next said line.

SECT. 41. Every wooden building or structure hereafter erected shall have a stone or brick foundation resting upon the solid ground or upon concrete, piles, or other durable substructure; said foundation shall be securely and properly built, shall have a sufficient amount of large stone extending through the wall to properly bond and tie it together, and shall be of such thickness as to properly sustain the weight it is intended to support.

SECT. 42. The underpinning above grade, if of brick, shall be not less than ten inches in thickness; if of stone, not less than fourteen inches in thickness, and shall be laid in mortar.

SECT. 43. All foundation walls shall be laid at least three inches below cellar bottom, and not less than three feet six inches below any adjoining surface exposed to frost.

SECT. 44. Every building or structure hereafter built of brick, stone, iron or other hard and incombustible materials shall have foundations resting upon the solid ground, or upon concrete, piles or other durable substructure, and not less than four feet below any adjoining surface exposed to frost.

SECT. 45. Foundation walls for such buildings as are designated in Section 44 shall be built of brick, stone or other suitable substance, properly bonded and solidly built with one-half cement mortar.

SECT. 46. For brick buildings with walls not exceeding thirty-five feet in height, the foundation walls, if built of common stone, shall not be less than thirty inches thick at bottom and twenty inches thick at top, and be built of stone large enough to extend through the wall; if built of block stone in horizontal courses, the walls shall be not less than

sixteen inches the entire height, and shall rest on a footing course twelve inches high and twenty-four inches wide.

SECT. 47. For brick buildings exceeding thirty-five feet in height the foundation walls, if built of common stone, shall be not less than thirty-six inches thick at bottom and twenty-four inches thick at top, and be built of stone large enough to extend through the wall; if built of block stone in horizontal courses, the walls shall be not less than eighteen inches thick the entire height, and rest on a footing course twelve inches high and thirty inches wide.

SECT. 48. Party or partition walls shall be built upon a footing course of stone or brick not less than four inches each way larger than thickness of the wall it is to sustain, and twelve inches high.

1888498

SECT. 49. External walls of brick buildings less than fifteen feet in height shall be not less than eight inches thick; over fifteen and less than thirty-five feet in height they shall be not less than twelve inches thick, except when the building is used as a dwelling-house, then the walls of the upper story may be not less than eight inches thick; over thirty-five feet in height the walls shall be not less than sixteen inches thick to the top of second floor, and twelve inches thick the remaining height.

SECT. 50. In every brick wall at least every ninth course shall be a heading or bonding course, except where walls are faced with face brick, in which at least every ninth course shall be bonded with Flemish headers, or by cutting the courses of face brick and putting in diagonal headers behind the same, or by splitting face brick and backing them with a continuous row of headers.

SECT. 51. Vaulted walls shall contain, exclusive of ties, the same amount of material as required for solid walls, and shall be securely tied together with headers in every sixth course at least.

SECT. 52. In reckoning the thickness of walls, no allow-

ance for ashlar shall be made unless it is at least eight inches thick, in which case the excess over four inches shall be reckoned as part of the thickness of the wall. Ashlar shall be at least four inches thick and properly held by metal clamps to the backing, or properly bonded to the same.

BUILDING GRADES.

SECT. 53. The Selectmen may, after a hearing, of which public notice shall be given at least seven days prior thereto, by posting written notice thereof in each post-office in the town and on the public bulletin boards in the town, and by publishing the same in a newspaper published in the town, or if there be no such newspaper, in one published in the city of Boston, and by giving personal notice to the owners of and to be effected by delivering to such owners a copy of said notice or by depositing the same in the post-office, post-paid and addressed to them at their last known residence or place of business, pass a vote designating a building grade or building grades for any part or parts of the town; and on the acceptance of such vote by the town at a meeting called as provided by law, said building grade or building grades shall be established.

SECT. 54. Said building grade or building grades may be at different heights above the level of the sea in different parts of the town, as the nature of the ground may require.

SECT. 55. No cellar floor of any building erected on land for which a building grade has been established, nor any part, except the foundation, of a building on such land which has no cellar, shall be below said grade.

OTHER PROVISIONS.

SECT. 56. The Inspector in the name of the town may take such measures as the public safety requires, to carry

the provisions of this chapter into effect; and any expense incurred in so doing may be recovered by the town from the owner of the defective property.

SECT. 57. Any person violating any of the provisions of this chapter shall be liable to a fine of not less than \$20, nor more than \$100, for each offence.

CHAPTER 8.

THE REGULATION AND INSPECTION OF PLUMBING.

SECTION 1. The word Inspector, without further addition, wherever used in this chapter, means the Inspector of Plumbing.

SECT. 2. No person shall carry on the business of plumbing unless he is a plumber and shall have first registered his name and place of business in the office of the Inspector of Buildings; and notice of any change in the place of business of a registered plumber shall be immediately given to said Inspector of Buildings.

SECT. 3. Every plumber before doing any work in a building shall, except in the repair of leaks, file at the office of the Inspector upon blanks furnished for that purpose a notice of the work to be performed; and no such work shall be done in any building without the approval of the Inspector.

SECT. 4. No pipes or other fixtures shall be covered or concealed in any way until the same have been examined and approved by the Inspector. Notice shall be sent to the Inspector when the work is sufficiently advanced for such inspection, and it shall be the duty of such Inspector, within two working days after receiving such notice, to inspect the same; and in case any change therein shall be found necessary, he shall direct in writing the change to be made.

SECT. 5. All plumbing work shall be subjected to the water test before the fixtures are set. After all the fixtures

are set the work shall be subjected to the smoke, peppermint or other reliable test under pressure. All such tests shall be made in the presence of the Inspector.

SECT. 6. The sewage and waste piping of every house or building shall each be separately and independently connected with the street sewer, where one is provided, or with a proper cesspool; and where there is no sewer in the street, and it is necessary to construct a private sewer to connect with one on an adjacent street, such system shall be used as may be approved by the Inspector.

SECT. 7. The soil-pipe of every building shall be of sufficient size to receive, and allow freely to pass, all that enters or should enter the same. All soil-pipes shall be of extra heavy cast-iron pipe. All drain and connecting ventilating pipes within the building shall be of sufficient size, and made of cast-iron with leaded and calked joints, but galvanized wrought-iron pipe may be used for vent purposes; all such pipes shall be properly secured to walls and ceilings with wrought-iron hangers. Waste-pipes shall be of cast-iron, of lead, or of annealed brass of a thickness not less than No. 13 Stubbs gauge with brass or cast-iron recessed fittings. No soil-pipe of any building shall be less than 4 inches inside diameter, except by written permission of the Board of Health. No vent-pipe shall be less than $1\frac{1}{2}$ inches inside diameter. No waste-pipe shall be less than $1\frac{1}{4}$ inches inside diameter.

SECT. 8. All drain-pipes shall have a proper pitch, shall have an accessible clean-out, and shall extend to a point 10 feet outside of the cellar wall. The pipe from the sewer or cesspool to within 10 feet of the cellar wall shall have tight joints. The clean-out, if made accessible, may be placed outside of the cellar wall. All drain or ventilation pipes shall extend undiminished in inside diameter at least 2 feet above the highest window on the roof. Every drain-pipe, except a drain-pipe from a building having but one sink or but one sink with adjoining trays,

shall have a suitable trap placed with an accessible clean-out at a reasonable distance from the point where such drain-pipe leaves the building. All changes in direction of soil-pipes shall be made by Y branches or by curved pipes. No ventilation pipe on the outside of any building shall be less than 2 inches inside diameter.

SECT. 9. All joints in iron drain-pipes, soil or vent pipes shall be made by thoroughly calking the same with molten lead. Joints of lead pipes with iron pipes shall be made by soldering the same into brass ferrules by means of a full-sized wiped joint and calking the ferrules to pipes which are of cast-iron, or screwing them to pipes which are of wrought-iron.

SECT. 10. Every water-closet, urinal, sink, basin, bath-tub, slop-hopper, and every tray or set of four or less wash-trays shall have a separate trap, placed as near the fixture as possible, except that when two sinks or two basins or a sink and a set of four or less wash-trays adjoin, one trap shall be sufficient. A basin and bath-tub adjoining shall each have a separate trap, and in no case shall the waste from the bath-tub or other fixtures be connected with the water-closet trap or water-closet lead outlet pipe. All fixture traps shall be protected from syphonage or air pressure by special vent-pipes having a diameter not less than the diameter of the waste-pipe and connected with the waste-pipe at a point not lower than the seal of the trap in such manner as to make the vent-pipe a continuation of or a Y branch from the waste-pipe, except that the highest fixture on a stack which extends through the roof shall not require such special vent-pipe unless the length of the waste-pipe from the trap of said fixture to the said stack exceeds 3 feet. Lead vent-pipes may be used only where they are exposed to view. Vent-pipes for water-closets shall be of not less than 2 inches bore and may be connected with the water-closet waste-pipe below the level of the trap seal. Two or more vent-pipes may be connected together or with a soil-pipe, but

such connection with a soil-pipe shall be above the uppermost fixture connected with such soil-pipe.

SECT. 11. No drip- or overflow-pipes from safes under water-closets, urinals, or other fixtures, no overflow-pipes from tanks or cisterns, no waste-pipes from refrigerators or other receptacles in which food is stored, no rain-water conductors, and no steam exhaust-pipes or steam waste-pipes, shall be connected with any soil-pipe. No openings shall be allowed in the soil- or waste-pipe of any building for the purpose of receiving the surface drainage of the cellar except by permission of, and in a manner satisfactory to, the Board of Health. No brick, sheet metal, earthenware, or chimney flue shall be used as a sewer ventilator, or to ventilate any trap, drain, soil- or waste-pipe.

SECT. 12. Every water-closet or line of water-closets on the same floor inside of the building proper shall be supplied with water from a tank, and shall have a flushing pipe of not less than $1\frac{1}{4}$ inches diameter inside.

SECT. 13. Cesspools shall have a top of stone, or arched brick, with iron rim and cover, and may be laid up dry, unless otherwise ordered by the Board of Health.

SECT. 14. Every privy vault shall be at least four feet distant from the line of an adjoining lot, unless by the consent of the owner of such lot; and every vault shall be so constructed as to be conveniently approached, opened and cleaned, and shall be made tight, so that the contents thereof cannot escape therefrom, if, in the opinion of the Inspector, the surroundings require it.

SECT. 15. No water-closet shall be inclosed with any upright woodwork.

SECT. 16. None of the provisions of the foregoing Sections of this Chapter shall apply to the drainage systems of barns and stables, except so far as ordered by the Board of Health, and all drainage systems of barns and stables shall be constructed according to plans approved in writing by the Board of Health.

SECT. 16. In the case of any dispute or difference in opinion between the Inspector and any person, the same shall be submitted by either party to the Local Board of Health, who shall pass upon the same, and whose finding therein, after hearing, shall be final and conclusive upon all parties. No member of said board shall sit in a case in which he is interested, and in case of such disqualification, or of the necessary absence of any member, the two other members shall appoint a substitute. If two or more members are so disqualified or absent, the Inspector shall appoint one substitute, the appellant another, and the two so appointed shall, if necessary, appoint a third.

SECT. 17. The Inspector of Buildings, in the name of the town, may take such measures as the public safety requires, to carry the provisions of this chapter into effect, and any expense incurred in so doing may be recovered by the town from the owner of the defective property.

SECT. 18. A person violating any of the provisions of this chapter shall be liable to a fine not exceeding \$50.

CHAPTER 9.

STREET RAILWAYS.

SECTION 1. The annual report shall contain the following concerning the street railways in the town and the street railway companies owning or operating the same, viz:—

Copies or full statements of all locations granted to street railways during the preceding calendar year, with all the terms, conditions and modifications thereof, and the terms of any modifications granted during the year of locations previously granted.

A copy of all regulations in force as to the rate of speed, the mode, manner and extent of use of tracks, and the number and routes of cars of any and all such companies made

by the Selectmen under the provisions of Sections 40 and 42 of Chapter 112 of the Revised Laws.

A statement of all taxes paid the town by street railway companies during the preceding calendar year, which by the terms of Section 47 of Chapter 14 of the Revised Laws are to be applied toward the construction, repair and maintenance of the public ways and removal of snow therefrom within the town.

SECT. 2. Whenever the Selectmen are of the opinion that additional accommodations for the travelling public are required upon any street railway in the town, and the company neglects or refuses to furnish the same at their request, it shall be their duty to petition the Board of Railroad Commissioners to order such additional accommodations to be provided under the terms of Section 70 of Chapter 112 of the Revised Laws.

CHAPTER 10.

TOWN WAYS.

SECTION 1. Every way that shall be laid out for the acceptance of the town as a town way shall be not less than thirty feet in width.

SECT. 2. Whenever an existing private way, the fee of which is in the abutters, shall be laid out for the acceptance of the town as a town way, the document relating to such laying out shall be accompanied by a certificate of a competent civil engineer, which shall be filed in the office of the Town Clerk, together with said document, before such way shall be accepted. The said certificate shall state that such private way is well built; and that as constructed it is equal to the average construction of the existing highways of the town.

SECT. 3. Whenever any way shall have been laid out or altered by the Selectmen, and accepted and allowed by the

town, no entry for the purpose of constructing any part of such laying out or alteration shall be made until all claims for damages by reason thereof shall have been finally adjusted or determined, unless such entry shall be authorized by special vote of the town.

LEGISLATIVE ACTS ACCEPTED BY THE TOWN OF MILTON

MARCH 19, 1866. *Voted*, To establish a High School, according to the provisions of Section 2 of Chapter 38 of the General Statutes.

MARCH 2, 1874. *Voted*, To accept the provisions of Chapter 265 of the Acts of 1873, relative to public landing places in the Town of Milton.

MARCH 4, 1878. *Voted*, To accept the provisions of Sections 23 to 32 of Chapter 24 of the General Statutes, relative to the establishment of a board of fire engineers.

MARCH 3, 1879. *Voted*, To accept the provisions of Section 21 of Chapter 38 of the General Statutes, relative to the election of School Committee.

DECEMBER 8, 1879. *Voted*, To accept the provisions of Section 1 of Chapter 234 of the Acts of 1878, relative to truants and neglected children.

MARCH 1, 1880. *Voted*, To accept the provisions of Section 1 of Chapter 234 of the Acts of 1878, relative to truants and neglected children.

MARCH 5, 1883. *Voted*, To accept the provisions of Section 10 of Chapter 48 of the General Statutes, relative to truants and neglected children.

MARCH 7, 1881. *Voted*, To accept the Act of the Legislature, Chapter 158 of the Laws of 1871, entitled, "An Act to Provide for the Election of Road Commissioners."

MARCH 3, 1890. *Voted*, To accept the first nine sections of Chapter 51 of the Public Statutes, said chapter being entitled, "Of Betterments, and Other Assessments on Account of the Cost of Public Improvements."

FEBRUARY 12, 1891. *Voted*, To accept the Act authorizing towns and cities to lay out public parks within their limits; being Chapter 154 of the Acts of 1882.

MARCH 2, 1891. *Voted*, To accept the provisions of Chapter 386 of the Acts of 1890, relative to the election of Town Officers.

FEBRUARY 3, 1894. *Voted*, That the Town does hereby accept the provisions of Section 268 of Chapter 417 of the Acts of the Legislature of Massachusetts passed in the year 893, relative to the election of a separate Board of Assessors.

NOVEMBER 28, 1894. *Voted*, That the Town hereby accepts the provisions of Chapter 324 of the Acts of the Legislature of 1894, entitled, "An Act Relative to the Reservation of Spaces in Public Ways."

MARCH 4, 1895. *Voted*, That the Town hereby accepts the provisions of Chapter 309 of the Acts of 1885, entitled, "An Act Authorizing Cities and Towns to License Groves, to be Used for Picnics and Other Lawful Amusements."

MARCH 4, 1895. *Voted*, That the Town hereby accepts the provisions of Section 272 of Chapter 417, Acts of the Legislature of 1893, relating to the election of Sewer Commissioners in towns.

MARCH 4, 1895. *Voted*, That the Town hereby accepts the provisions of Chapter 462 of the Acts of the Legislature of 1893, entitled "An Act to Authorize the Establishment of a Building Line on Public Ways."

MARCH 4, 1895. *Voted*, That the Town hereby accepts the provisions of Chapter 218 of the Acts of the Legislature of 1894, as amended by Chapter 473 of the Act of the same year, being "An Act Relative to the Election of Boards of Health in Towns."

MARCH 4, 1895. *Voted*, That the Town hereby accepts the provisions of Sections 20 and 21 of Chapter 50 of the

Public Statutes, relating to the establishment and grading of sidewalks, by the Selectmen.

JUNE 29, 1895. *Voted*, That the Town accept the provisions of Chapter 304 of the Acts of 1895, entitled, "An Act to Authorize the Town of Milton to Construct One or More Systems of Sewerage."

MARCH 1, 1897. *Voted*, That the Town accept Chapter 101 of the Public Statutes, entitled, "Of the Suppression of Common Nuisances."

MARCH 1, 1897. *Voted*, That the provisions of Chapter 481 of the Acts of the year 1894, be accepted, entitled, "Regulation and Inspection of Buildings."

MARCH 5, 1900. *Voted*, That Chapter 344, Acts of 1899, entitled, "An Act to Make Eight Hours a Day's Work for City and Town employees," be accepted.

MARCH 3, 1902. *Voted*, That the Town accept Section 18 of Chapter 122 of the Revised Laws, relative to the appointment of an Inspector of Wires.

MARCH 3, 1902. *Voted*, That the Town accept Chapter 38 of the Revised Laws of Massachusetts, relative to the election of a treasurer of Public Library Trustees.

JULY 14, 1902. *Voted*, To accept Chapter 307 of the Acts of 1902, entitled, "An Act to Supply the Town of Milton with Water."

AUGUST 16, 1902. *Voted*, To accept Sections 58 to 64, inclusive, of Chapter 48 of the Revised Laws, relative to jurisdiction of towns over highways and county bridges.

MARCH 2, 1903. *Voted*, To accept Sections 20 and 21, of Chapter 25 of the Revised Laws of Massachusetts, relating to public baths, etc.

MARCH 2, 1903. *Voted*, To accept Section 339 of Chapter 11 of the Revised Laws, and Acts in amendment thereof

and in addition thereto, relative to the election of Overseers of the Poor.

MARCH 7, 1904. *Voted*, To accept Section 70 of Chapter 75 of the Revised Laws, relating to privy vaults.

MARCH 6, 1905. *Voted*, To accept Chapter 103 of the Revised Laws, relative to supervision of plumbing.

JULY 21, 1905. *Voted*, To accept Chapter 381 of the Acts of 1905, relative to the suppression of gypsy and brown-tail moths.

MARCH 1, 1909. *Voted*, To accept the provisions of Chapter 476, Acts of 1908, relative to vacations of members of Police departments.

MARCH 7, 1910. *Voted*, To accept the provisions of Section 43 of Chapter 49 of the Revised Laws, relative to the grading and construction of sidewalks.

MARCH 4, 1911. *Voted*, To accept the provisions of Section 359 of Chapter 560 of the Acts of 1907, relative to the election of Moderator for the term of one year.

MARCH 4, 1911. *Voted*, To accept the provisions of Section 362 of Chapter 560 of the Acts of 1907, relative to the number of Constables to be elected.

NOVEMBER 7, 1911. *Voted*, To accept Chapter 634, Acts of 1911, authorizing counties to establish retirement systems for employees.

MARCH 11, 1912. *Voted*, To accept Chapter 146 of the Acts of 1911, authorizing the Town to establish an Art Commission.

MARCH 11, 1912. *Voted*, To accept the provisions of Chapter 468 of the Acts of 1911, relative to the extension of the Civil Service Act to the Chiefs of Police in certain cities and towns.

MARCH 11, 1912. *Voted*, To accept the provisions of

Chapter 314 of the Acts of 1911, relative to authorizing the School Committee to spend money for the supervision of sports.

MARCH 11, 1912. *Voted*, To accept the provisions of Chapter 367 of the Acts of 1911, relative to the use of school halls for other than school purposes.

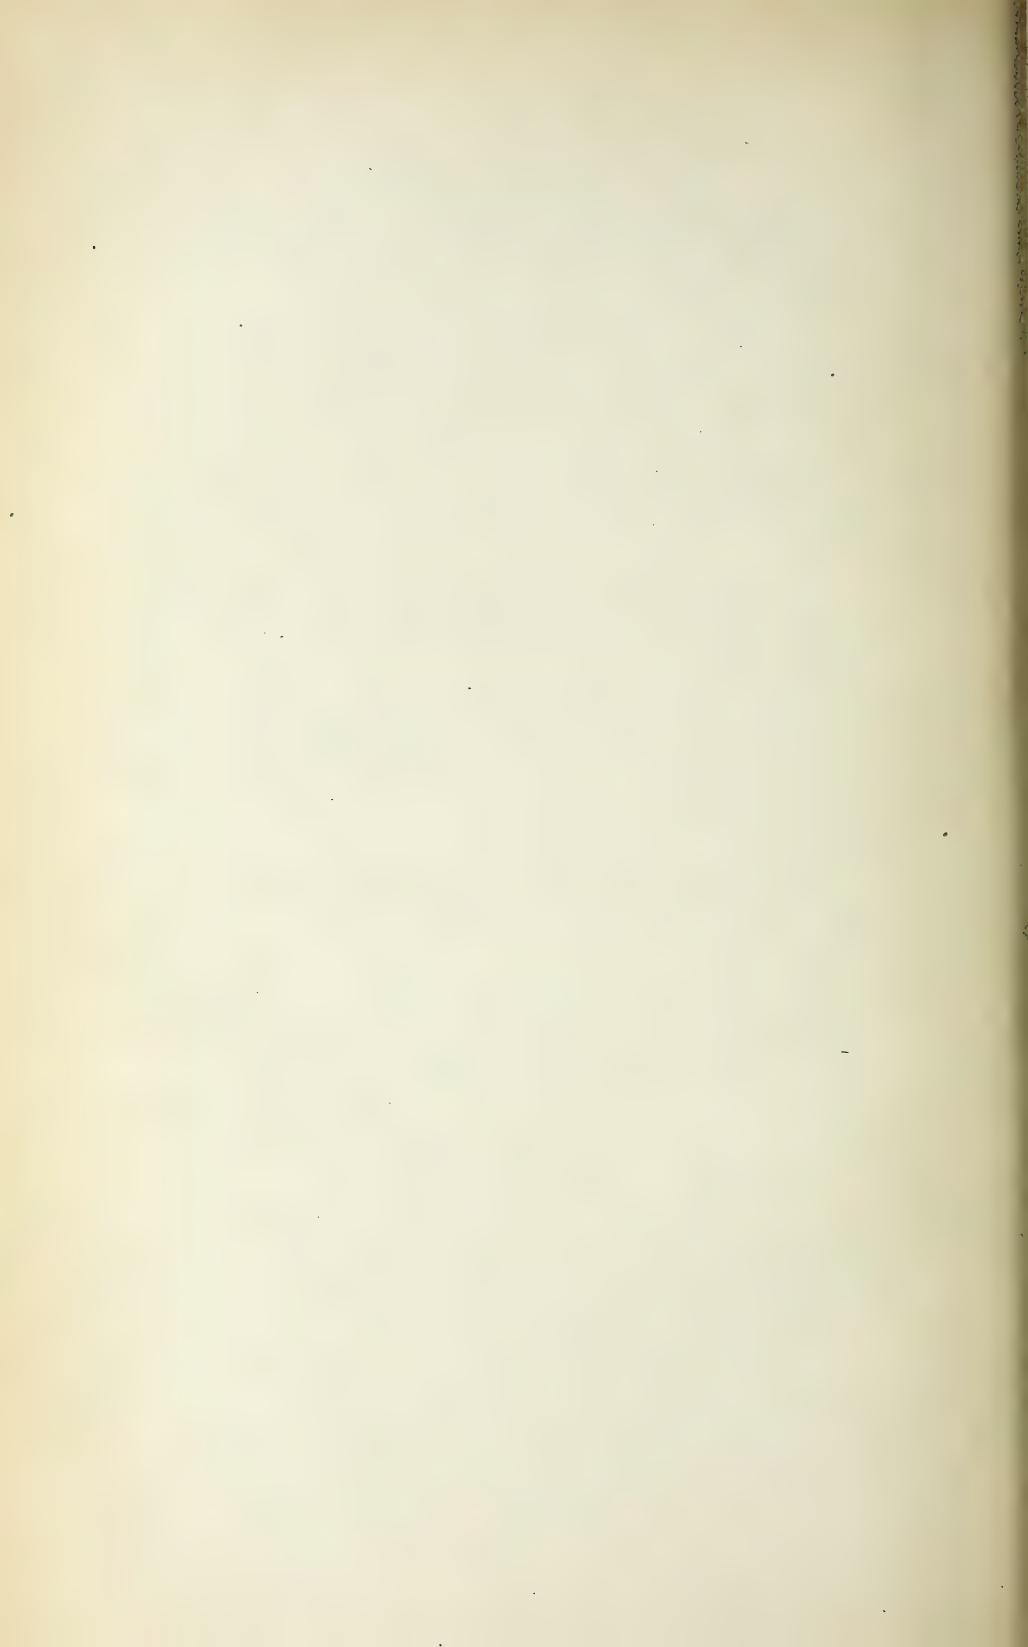

NOVEMBER 5, 1912. *Voted*, To accept the provisions of Chapter 503 of the Acts of 1912, an Act relative to pensioning laborers in the employ of cities and towns.

MARCH 3, 1913. *Voted*, To accept the provisions of Chapter 327 of the Acts of 1904, relative to the pensioning of permanent members of the Police and Fire Departments.

MARCH 3, 1913. *Voted*, To accept Chapter 498, Acts of 1908, entitled An Act to Authorize Cities and Towns to Establish Pension Funds for Teachers in the Public Schools.

MARCH 4, 1913. *Voted*, To adopt Chapter 635 of the Acts of 1912, known as the Tenement House Act for Towns.

MARCH 4, 1913. *Voted*, To accept the provisions of Chapter 191 of the Acts of 1907, authorizing the establishment of Boards of Survey in Towns.

MILTON TOWN RECORDS IN THE MUNICIPAL YEAR 1913-1914

MARCH MEETING

WARRANT

COMMONWEALTH OF MASSACHUSETTS, NORFOLK SS.

To either of the Constables of the Town of Milton, Greeting:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Milton, qualified to vote in Town affairs to meet at the Town Hall in said Milton upon the third day of March next, at six o'clock A.M., then and there to act on the following articles, to wit:—

ARTICLE 1. To choose a Moderator to preside at said meeting.

ARTICLE 2. To choose all such Town officers as are required by law to be chosen by ballot; also on the same ballot to vote "Yes" or "No" in answer to the question, "Shall licenses be granted for the sale of intoxicating liquors in this Town?" The polls to be opened at six o'clock in the forenoon and may be closed as early as two o'clock in the afternoon.

ARTICLE 3. To choose all such Town officers as are not required by law to be chosen by ballot.

ARTICLE 4. To hear and act upon the Auditors' report, and reports of other Town officers and committees.

ARTICLE 5. To see what sum of money the Town will

appropriate for the support of the schools the ensuing year.

ARTICLE 6. To see what sum of money the Town will appropriate for the transportation of pupils the ensuing year.

ARTICLE 7. To see what sum of money the Town will appropriate for the medical inspection of the pupils of the public schools the ensuing year, the same to be expended under the direction and at the discretion of the School Committee.

ARTICLE 8. To see what sum of money the Town will appropriate to be expended by the Park Commissioners in conjunction with the School Committee in the improvement of school lots the ensuing year.

ARTICLE 9. To see if the Town will vote to appropriate the sum of \$500 to be expended under the direction of the School Committee, for the equipment of athletic teams and general use of athletics in the public schools of Milton, as provided for in the statutes accepted by the Town at the annual meeting March, 1912, or act anything relating thereto.

ARTICLE 10. To see what sum of money the Town will appropriate for the Street Department the ensuing year. General Expenses, Street Watering, Construction of Sidewalks, Removal of Ice and Snow, Maintenance of Public Fountains.

ARTICLE 11. To see what sum of money the Town will appropriate for street lighting the ensuing year.

ARTICLE 12. To see what sum of money the Town will appropriate for the Fire Department the ensuing year.

ARTICLE 13. To see what sum of money the Town will vote to appropriate for painting the buildings used by the Fire Department.

ARTICLE 14. To see what sum of money the Town will appropriate for the use of the Department of Wires the ensuing year.

ARTICLE 15. To see what sum of money the Town will appropriate for the Police Department the ensuing year.

ARTICLE 16. To see what sum of money the Town will appropriate for the Public Library the ensuing year.

ARTICLE 17. To see what sum of money the Town will appropriate for the improvement of the Cemetery the ensuing year.

ARTICLE 18. To see what sum of money the Town will appropriate for the general uses of the Board of Park Commissioners the ensuing year.

ARTICLE 19. To see what action the Town will take in regard to the further development and equipment of Brook Road Playground, and to appropriate money for the same.

ARTICLE 20. To see what sum of money the Town will appropriate for the use of the Tree Warden, to be expended in the care and planting of shade trees and the destruction of insect pests, injurious to trees, the ensuing year.

ARTICLE 21. To see what sum of money the Town will appropriate to be expended by the Tree Warden in the extermination of the gypsy and brown-tail moths.

ARTICLE 22. To see what salary (if any) the Town will vote to pay the Tree Warden.

ARTICLE 23. To see what sum of money the Town will appropriate for the support of the poor the ensuing year.

ARTICLE 24. To see what sum of money the Town will appropriate for Soldiers' Relief the ensuing year.

ARTICLE 25. To see what sum of money the Town will appropriate for State Aid the ensuing year.

ARTICLE 26. To see what sum of money the Town will appropriate for the maintenance of the Sewer Department the ensuing year.

ARTICLE 27. To see what sum of money the Town will appropriate and raise for the extension of the sewerage system the ensuing year.

ARTICLE 28. To see what sum of money the Town will appropriate for the extension of water mains the ensuing year.

ARTICLE 29. To see what sum of money the Town will appropriate for hydrant service the ensuing year.

ARTICLE 30. To see what sum of money the Town will appropriate for the Health Department the ensuing year.

ARTICLE 31. To see what sum of money the Town will appropriate for the collection of ashes and garbage the ensuing year.

ARTICLE 32. To see if the Town will authorize the making of a contract for a term of years for the disposal of ashes and garbage.

ARTICLE 33. To see what sum of money the Town will appropriate for salaries the ensuing year.

ARTICLE 34. To see what sum of money the Town will appropriate for miscellaneous expenses the ensuing year. General Expenses, Town Hall and Lot, Interest, Printing, Abatements, Insurance, Contingent.

ARTICLE 35. To see what sum of money the Town will appropriate for the general uses of the Board of Assessors the ensuing year.

ARTICLE 36. To see if the Town will authorize the Collector of Taxes to use all means of collecting taxes which a Town Treasurer, when appointed Collector, may use.

ARTICLE 37. To fix the rate of interest on taxes unpaid after a time fixed by the Town.

ARTICLE 38. To see what action the Town will take in regard to borrowing money in anticipation of taxes.

ARTICLE 39. To see if the Town will appropriate the sum of \$250 to be expended by the Huntington Frothingham Wolcott Post 102, G. A. R., on Memorial Day.

ARTICLE 40. To see if the Town will vote to authorize the Selectmen to employ counsel to represent the Town at hearings before Committees of the General Court.

ARTICLE 41. To see what sum of money the Town will

appropriate towards the restoration of the Perpetual Care Fund.

ARTICLE 42. To see what sum of money the Town will appropriate towards the restoration of the Jason Reed Cemetery Fund.

ARTICLE 43. To see what sum of money the Town will appropriate towards the restoration of the Elizabeth T. L. Reed Park Fund.

ARTICLE 44. To see what action the Town will take in regard to publishing a report of the exercises held on the 11th of June, 1912, in celebration of the 250th Anniversary of the Incorporation of the Town of Milton, and what sum of money it will appropriate for the purpose.

ARTICLE 45. To see if the Town will vote to accept the provisions of Chapter 327 of the Acts of 1904, relative to the pensioning of permanent members of the Police and Fire Departments.

ARTICLE 46. To see what sum of money the Town will appropriate for the ensuing year for the purpose of providing pensions for members of the Police and Fire Departments retired and placed upon the pension roll under the provisions of Chapter 327, Acts of the year 1904.

ARTICLE 47. To see what sum of money the Town will appropriate for pensions for laborers under Chapter 503, of the Acts of 1912.

ARTICLE 48. To see how the Town will vote in answer to the question, "Shall an act passed by the General Court in the year 1908, entitled 'An act to authorize cities and towns to establish pension funds for teachers in the public schools' be accepted?"

ARTICLE 49. To see what sum of money the Town will appropriate to establish a pension fund for the retirement of teachers in the public schools under the provisions of Chapter 498, Acts of 1908.

ARTICLE 50. To see if the Town will vote to authorize the Park Commissioners to take in fee by purchase, gift, or otherwise, for public park purposes, under authority of Revised Laws, Chapters 28 and 50 and Acts in amendment thereof and in addition thereto, the land bounded northwesterly by Belcher Circle, northeasterly by Bates Road, southeasterly by Granite Place, and southwesterly by Belcher Circle, or, in their discretion, a part or all of such land; all substantially as shown on plan of land by Frederick P. Hall, entitled "Proposed Park in East Milton," dated January, 1913, a copy of which is on file with the Park Commissioners, and to impose such restrictions on said land or any part thereof and to enter into such agreements concerning the same, or any part thereof, as may be lawful and as to them may seem desirable; and to see if the Town will appropriate a sum not exceeding thirteen thousand (13,000) dollars for such purposes and sufficient for the estimated expense thereof, and to determine how the money shall be raised.

ARTICLE 51. To see if the Town will vote to authorize the Park Commissioners to take in fee by purchase, gift, or otherwise, for public park purposes, under authority of Revised Laws, Chapters 28 and 50 and Acts in amendment thereof and in addition thereto, the land and buildings thereon bounded southerly by Canton Avenue and Brook Road, westerly by Central Avenue, northerly and easterly by lands of Mary L. Stone, Katherine F. Sherwood and Alice T. Herrick, and a portion of the land of said Alice T. Herrick, or, in their discre-

tion, a part or all of such land; all substantially as shown on a plan of land by Frederick P. Hall, entitled "Proposed Park in Milton" dated January, 1913, a copy of which is on file with the Park Commissioners, and to impose such restrictions on said land, or any part thereof, and to enter into such agreements concerning the same, or any part thereof, as may be lawful and as to them may seem desirable; and to see if the Town will appropriate a sum not exceeding one hundred and seventy-five thousand (175,000) dollars for such purposes, and sufficient for the estimated expense thereof, and to determine how the money shall be raised.

ARTICLE 52. To see what action the Town will take toward continuing the improvement of the Town Land-ing, and what sum of money it will appropriate for the same.

ARTICLE 53. To see if the Town will vote to accept the trusteeship, under the will of Mary Lothrop Peabody, of the fund given by said will to the Selectmen of the Town in trust for the benefit of the poor of the Town, and to authorize the Selectmen, in case of the appointment of the Town as Trustee, to administer the trust according to the will.

ARTICLE 54. To see if the Town will vote to adopt Chapter 635 of the Acts of 1912, known as the "Tenement House Act for Towns."

ARTICLE 55. To see if the Town will vote to have a committee of three citizens appointed by the Moderator, to be known as the "Committee on Revision of the Building Laws," to revise the building, plumbing, and wiring laws of the Town, and report to the citizens of the Town in print on or before February 1, 1914, and to

see what sum of money the Town will appropriate for the use of said committee.

ARTICLE 56. To see what action the Town will take toward improving the condition of Pine Tree Brook and appropriate money for the same.

ARTICLE 57. To see whether the Town will refer to a special committee of five, to be composed of the Board of Health and two other citizens, the investigation of the condition of Pine Tree Brook and its banks, and the question of improvement of the same, and appropriate the sum of \$500 for the use of said committee.

ARTICLE 58. To see if the Town will direct its Selectmen to prepare a division of the Town into convenient voting precincts as provided in Chapter 560, Section 195, of the Acts and Resolves of the General Court of the year 1907.

ARTICLE 59. To see if the Town will vote to repeal Sections 2 and 3 under Chapter 2 of the Revised By-Laws, and substitute the following:

SECTION 2. The Annual Meeting for the election of Town officers shall be held upon the first Monday of March, the polls to be open at six o'clock in the forenoon and they shall remain open until four o'clock in the afternoon for the election of such other Town officers as are required by law to be elected by ballot. At any time after four o'clock in the afternoon a vote may be passed to close the polls in not less than ten minutes.

SECTION 3. After the closing of the polls and the election of other Town officers, the meeting shall be adjourned until seven-thirty o'clock, same evening. The remaining articles in the Warrant shall then be considered.

ARTICLE 60. To see if the Town will vote to extend Kahler Avenue through to Thacher Street, as laid out by the Selectmen.

ARTICLE 61. To see if the Town will vote to extend Grafton Avenue from its present terminus at State Street to Curtis Street, as laid out by the Selectmen.

ARTICLE 62. To see if the Town will vote to accept the provisions of Chapter 191 of the Acts of 1907, authorizing the establishment of Boards of Survey in Towns.

ARTICLE 63. To see what sum of money the Town will appropriate to purchase a motor truck for the use of the Highway Department.

ARTICLE 64. To see if the Town will vote to purchase a combination ambulance and patrol automobile for the use of the Police Department, and appropriate money for the same.

ARTICLE 65. To see what sum of money the Town will vote to appropriate for the purchase of a new automobile for the Chief of the Fire Department.

ARTICLE 66. To see what sum of money the Town will appropriate for the purchase of a flagstaff not less than 75 feet above ground, including a top-mast, and that said flagstaff be erected on grass plot in front of Town Hall in said Milton.

ARTICLE 67. To see what sum of money the Town will appropriate to be expended by the Selectmen for a band concert and fireworks for the celebration of the Fourth Day of July.

ARTICLE 68. To see if the Town will vote to appropriate the sum of \$500 to be expended by the Selectmen for band concerts, fireworks, and athletic sports for the celebration of the Fourth Day of July.

ARTICLE 69. To see if the Town will vote to appropriate the sum of \$400 for the purpose of procuring clerk hire for the Tax Collector and public.

ARTICLE 70. To see if the Town will vote to increase the salaries of the call firemen \$40 more a year.

ARTICLE 71. To see if the Town will vote to extend the water mains in Columbia Street and Pagoda Street, and appropriate money for the same.

ARTICLE 72. To see if the Town will vote to accept the provisions of Chapter 447 of the Acts of 1912, relative to the retirement of certain veterans, in the service of cities and towns.

ARTICLE 73. To see if the Town will authorize the Selectmen to sell the whole or any portion of two parcels of land adjacent to Brook Road, between Reservation Road and Waldeck Road, so called, containing 3,975 square feet, more or less, and to execute proper conveyances of the same.

ARTICLE 74. To see what sum of money the Town will vote to appropriate for installation of new fire-alarm boxes.

ARTICLE 75. To see if the Town will vote to install a new fire-alarm box on Pleasant Street, at its intersection of Randolph Avenue, and appropriate money for the same.

ARTICLE 76. To see if the Town will instruct the Moderator to appoint a committee of three citizens, with authority to confer with the proper officials of the Commonwealth of Massachusetts and the cities of Boston and Quincy, with a view to developing a plan of co-operation for ditching the salt marshes to prevent the breeding of salt marsh mosquitoes. Said committee to report to the Town at its next annual meeting.

ARTICLE 77. To see what sum of money the Town will appropriate, to be expended under the direction of the Board of Health, for the extermination of flies and fresh water mosquitoes.

ARTICLE 78. To see if the Town will vote to erect one electric light on Orono Street, and to appropriate money for the same.

ARTICLE 79. To see if the Town will vote to erect an additional electric light on Dana Avenue, between Brush Hill Road and the Boston Line, and to appropriate money for the same.

ARTICLE 80. To see if the Town will vote to erect two electric lights on the southerly end of Spafford Road, and appropriate money for the same.

ARTICLE 81. To see if the Town will vote to erect two electric lights on Tucker Street, and appropriate money for the same.

ARTICLE 82. To see if the Town will vote to erect three electric lights on Grove Street, and appropriate money for the same.

ARTICLE 83. To see if the Town will vote to erect

two electric lights on Columbia Park, and appropriate money for the same.

And you are directed to warn said inhabitants, qualified as aforesaid, to meet at the time and place and for the purpose herein mentioned, by posting attested copies of this Warrant in each of the post-offices of said Town fourteen days before said meeting, and leaving printed copies hereof at the dwelling-houses in said Town at least four days before said meeting.

Hereof fail not, and make due return of this Warrant with your doings thereon to the Town Clerk at the time and place of said meeting.

Given under our hands at Milton, this fourteenth day of February, nineteen hundred and thirteen.

PHILIP S. DALTON,
MAURICE A. DUFFY,
HENRY H. BARNES,
Selectmen of Milton.

COMMONWEALTH OF MASSACHUSETTS, NORFOLK, SS.

MILTON, MARCH 3, 1913.

Pursuant to the within warrant I have notified the inhabitants of the Town of Milton, as within directed, to meet at the time and place, and for the purposes therein mentioned, by posting attested copies of the same in the post-offices of the Town, and leaving copies at the dwellings of the inhabitants.

PELEG BRONSDON,
Constable of Milton.

At a meeting of the inhabitants of the Town of Milton, held according to the foregoing Warrant, March 3, 1913, the following proceedings were had upon the several articles in said warrant, namely:

ARTICLE 1. Robert F. Herrick was chosen Moderator.

The following appointments of Ballot Clerks and Tellers were made by the Selectmen to serve at said meeting, viz.: Ballot Clerks: Thomas M. Lennon, Charles E. Whalen, Frederick N. Krim, Walter B. Palmer, Fred A. Packard, Charles L. Splaine, Edward Gallagher, Harry C. Rideout.

Tellers: Robert J. Clark, Walter A. Cheney, Peter Barry, Leonard M. Bradlee, Joseph J. Rein, Daniel B. McDonald, Charles B. Abbott, Clifton G. Lord, J. Albert Simpson, George A. Lobban, John H. Donovan, Charles F. Williams, Joseph A. Shea, Prescott Skinner, Frank L. Richards, Russell Swift, Herbert E. Clark, J. Arthur Robson, John J. Colgan, John M. Mullen, Lewis B. Currier, Frank R. Forde.

All of the above-named Ballot Clerks and Tellers, being sworn by the Town Clerk *pro tem* Joseph H. Duffy.

At 2 o'clock and seven minutes, *Voted*, To close the Polls for Town officers in ten minutes.

All ballots cast for the various Town officers having been sorted, counted, declared and recorded, the result being as hereby appended, and the following officers chosen, viz.:

ARTICLE 2. Henry H. Barnes, Maurice A. Duffy, George R. Eaton were chosen Selectmen and Surveyors of Highways.

G. Frank Kemp was chosen Town Clerk.

Herbert B. Tucker was chosen Assessor.

J. Porter Holmes was chosen Town Treasurer.

J. Ericsson Harvey, Percy E. Sheldon were chosen School Committee.

Josiah Babcock was chosen Tax Collector.

Ernest P. Libby, William A. Will were chosen Auditors.

Nathaniel T. Kidder was chosen Park Commissioner for three years.

J. Sumner Draper was chosen Park Commissioner for one year.

John Balch was chosen Sewer Commissioner.

Theodore T. Whitney, Jr., was chosen Water Commissioner.

Abijah W. Draper was chosen on Board of Health.

John S. Bowley, Peleg Bronsdon, Timothy McDermott, Maurice Pierce were chosen Constables.

Orrin A. Andrews, Nathaniel T. Kidder, Frederic M. Stone were chosen Trustees of Public Library.

Thomas K. Cummins was chosen Trustee of Cemetery.

Nathaniel T. Kidder was chosen Tree Warden.

Albert D. Smith, Caroline E. Williams were chosen Overseers of Poor.

Robert F. Herrick was chosen Moderator.

Voted, To accept Chapter 498 of the Acts of the General Court of 1908, entitled "An Act to Authorize Cities and Towns to Establish Pension Funds for Teachers in the Public Schools," the vote being as follows: Yes 653. No 288. Blanks 418.

Voted, That no license be granted for the sale of intoxicating liquor in this Town, the vote being as follows: Yes 189. No 866.

ARTICLE 3. The following officers were elected *viva voce*, namely: George Y. Badger, T. M. LeFevre, Fence Viewers; George E. Burt, Arthur H. Tucker, Surveyors of Lumber; Calvin H. Sanford, Pound Keeper.

ARTICLE 4. *Voted*, That the Auditors' (printed) Report be accepted and placed on file.

REPORTS OF COMMITTEES

The following report of the Committee on Town Landing was presented by the Chairman of said Committee, Mr. James S. Russell:

MILTON, JANUARY 20, 1913.

To the Citizens of Milton:

Your Town Landing Committee, appointed at the Annual Meeting last March, organized with Mr. Russell, Chairman, Mr. Wigglesworth, Secretary, and reports as follows:

The Old Police Station was repaired and rented for the current year to the Milton Boat Club, an active local organization which has done good work in reviving boating interests on the Neponset River.

Ground south of Wharf Street has been loamed and seeded. There is an unused balance of about \$500 on hand. Negotiations are now in progress with the Godfrey Coal Company looking toward an adjustment of boundaries advantageous to both parties. Your committee suggests the continuance of a Town Landing Committee for another year, and has put an article in the Warrant for your consideration.

Respectfully submitted,

(Signed) H. C. GALLAGHER,
H. B. HORNE,
TIMOTHY W. MELLEY,
J. S. RUSSELL,
NORTON WIGGLESWORTH,

Committee.

Voted, That the above report be accepted, placed on file and the committee discharged.

REPORT OF COMMITTEE ON APPROACH TO THE NEW MILTON DEPOT

To the Citizens of Milton:

At the Annual Town Meeting, held March 7, 1910, a committee was appointed to provide for an approach to the new Railroad Station at the Lower Mills, under Article No. 65.

The Moderator appointed under this Article, H. Clifford Gallagher, Francis R. Hart, and the Board of Selectmen, consisting of Messrs. Duffy, Barnes and Dalton. The committee organized March 18, 1910, with the choice of H. Clifford Gallagher, Chairman, Henry H. Barnes, Secretary, and later, placed the engineering and landscape work under the direction of Mr. Ernest W. Bowditch of Milton. The committee has held meetings from time to time, as the business of the work required, the organization of the committee not having been changed since the first meeting.

Under Article No. 65, the money available was as follows:

Appropriation.....	\$ 10,000 00
Received from sale of house	60 00
Received from sale of land to The O. S. Godfrey Coal Co.	104 96
Total.....	\$10,164 96
From this amount was paid Richard C. Humphrey & Malbon G. Richardson, Trustees.....	\$6,000 00
W. W. Churchill.....	39 00
Ira C. Hersey.....	47 37
Dennis Driscoll.....	3,707 80
E. W. Bowditch.....	370 79
Total.....	\$10,164 96

When the matter of an approach to the new depot was brought before the Town, it was stated that the amount asked for, namely, \$10,000, was an estimate, the committee being unable to give a definite figure, as at that time the Railroad Company had not fixed the exact location of the depot, and it was impossible to get absolute grades.

When this information was obtained, and contracts finally asked for, it was found that, although the approach could be made for the amount of the appropriation, it would not be done in a thoroughly satisfactory manner. This being made known to some who were interested in the project, two of our public-spirited citizens guaranteed to the committee that they would pay the amount necessary to complete this work, which was in the vicinity of \$2,500.

The committee wishes, at this time, to publicly acknowledge the assistance rendered by Mr. Samuel A. Morse, of the O. S. Godfrey Coal Company, in making possible the completion of this work, by selling to the Railroad Company a piece of land valuable to the Godfrey Company for their business. Mr Morse also re-arranged the stable yard, and, in a general way accommodated his buildings to the proposed changes.

Mr. Ernest W. Bowditch also rendered great help to the committee, making no charge for professional services, only charging the committee the actual office expense, and salaries for field engineers.

All deeds and transfers were made directly to the Town, and all legal papers placed in the hands of the Board of Selectmen.

The committee refrained from doing any planting of trees and shrubs, hoping the Town would place the grounds in the hands of the Park Commissioners, and that they would consider the general planting of shrub-

bery in connection with the so-called Town Landing grounds.

Respectfully submitted,

(Signed) PHILIP S. DALTON,
MAURICE A. DUFFY,
HENRY H. BARNES,
FRANCIS R. HART,
H. CLIFFORD GALLAGHER,
Committee.

Voted, That the report of the committee be accepted, placed on file and the committee be discharged, and a vote of thanks be tendered to said committee.

REPORT OF COMMITTEE ON THE VOSE SCHOOL

MILTON, Feb. 1, 1913.

To the Citizens of the Town of Milton:

At the Annual Town Meeting held March 1, 1909, a committee was appointed by the Moderator, consisting of the School Committee with the addition of George Wigglesworth, A. H. Tucker and M. V. Pierce, "to carefully study the school requirements, and if in their judgment additional school accommodations are necessary, they are to have detailed plans and specifications prepared, obtain accurate estimates of the expenses and report to the Town their recommendation at the next Annual Meeting or a special Town Meeting called for the purpose."

This committee after due deliberation decided that a new Grammar School was needed, and proceeded to consider the best site for it; finally choosing the triangular lot of land between Brook Road and Central Avenue.

Messrs. Kilham and Hopkins of Boston were chosen as architects; plans were made; specifications drawn up; bids obtained; and the whole matter was brought before a Town meeting specially called for the purpose, on October 12, 1909.

At this meeting the recommendations of the committee were accepted, and an appropriation of one hundred eleven thousand dollars (\$111,000) was made for the purchase of the land, the erection of the building, and the necessary grading, and an additional appropriation of four thousand dollars (\$4,000) for the furnishings.

As it was late in the autumn before a beginning could be made, and the winter was an unusually cold one, there was considerable delay in getting in the foundations, and this with other unforeseen hindrances prevented the school from being opened with the other schools in September, as had been planned, and it was not occupied until after the Christmas vacation in January, 1910.

Since the completion of the work it has been found necessary to regrade the driveways, put in some concrete steps to Central Avenue and build a retaining wall on Brook Road; it was the knowledge that these things would have to be done which has prevented the committee from presenting its final report till this late date.

Following the established custom in regard to school names instituted at the suggestion of Rev. A. K. Teele, it was called the Vose School, in recognition of a family long identified with the Town.

The school has now been occupied more than two years, and has proved to be well adapted to its needs, both in regard to the building and its locality.

It is a great satisfaction to the committee that the expenditure was within the appropriation, and there is

a surplus of \$378.75 to revert to the Town, as is shown by the following statement:

Land	\$15,458 08
Architects	5,818 99
Building	74,937 75
Heating and ventilating	9,862 40
Grading	612 00
Lighting	166 95
Retaining wall	860 00
Equipment for cooking, carpentry, sewing, luncheons, rooms.	2,745 88
Sundries	200 46
	<hr/>
	\$110,662 51
Appropriation	\$111,000 00
Expenditures	110,662 51
	<hr/>
	\$337 49
Appropriation for furnishings	\$4,000 00
Expenditures	3,958 74
	<hr/>
Surplus	\$41 26
Surplus	337 49
	<hr/>
Total surplus	\$378 75

(Signed) M. J. PIERCE, *Chairman*,
 ARTHUR H. TUCKER, *Secretary*,
 GEORGE WIGGLESWORTH,
 WILLIAM THURBER,
 ANNE R. CUNNINGHAM,
 GEO. Y. BADGER,
 J. FRANK POPE,
 GEO. M. ANDERSON,
 THERON A. APOLLONIO,
Committee.

Voted, That the report of the committee be accepted, placed on file and the committee be discharged.

REPORT OF COMMITTEE ON CELEBRATION OF 250TH
ANNIVERSARY OF THE TOWN OF MILTON TO
THE TOWN MEETING, MARCH 3, 1913

To the Citizens of Milton:

Your Committee on the Celebration of the 250th Anniversary of the Town's Incorporation begs to report as follows:

Having definitely settled on the eleventh of June as the day to observe the anniversary, we arranged for sports of several kinds to be held at Cunningham Park and at Brook Road Playground during the forenoon and early afternoon, literary exercises, music and various other features at the Centre during the later afternoon, and an illumination of the Town Hall grounds, and music and drill in the evening.

We omit a detailed account of the events of the day from this report, but we consider that there should be printed a pamphlet containing records of all the proceedings. With this object in view, the materials have all been put together and estimates obtained for printing such a pamphlet in what we estimate to be sufficient quantity to allow of distribution free to everyone who wishes a copy.

The committee's financial account to December 31, 1912, appears in the Auditor's Report. There is shown there a credit balance of \$45.70 since that account was made up, receipts of \$93.80 have come in, and expenditures of \$139.50 have gone out, showing an exact balance between debit and credit.

Referring again to our estimate obtained for printing a pamphlet of the exercises of the celebration, we wish to make the recommendation that the sum of \$175 be appropriated by the Town for the purpose of preparing and issuing a report of the exercises and sports held in

connection with the celebration of the 250th Anniversary of the Incorporation of the Town, said sum to be expended by the Milton Historical Society. We have drawn up an article to this effect and sent it to the Selectmen to be inserted in the Warrant.

We ask that this report be accepted and the committee discharged.

Respectfully submitted,

(Signed) NATHANIEL T. KIDDER,

JOHN ALDEN LEE,

FREELAND D. LESLIE,

ARTHUR H. TUCKER,

ANDREW H. WARD,

Committee.

Voted, That the report of the committee be accepted and placed on file.

Voted, That the report of the Committee on Public Education as read by Lincoln Bryant, Chairman, be accepted and place on file.

ARTICLE 5. *Voted,* That the sum of \$88,500 be appropriated for the support of the schools the ensuing year; that the further sum of \$700 be appropriated for additional expenses incurred by the acceptance of Chapter 367, Acts of 1911, by the Town in 1912, which opens school halls for other than school purposes; that the report of the special Town Committee on the matter of school system and public education, appointed by the Moderator, under vote of the Town passed at the Annual Meeting in March, 1912, be referred to the School Committee for its consideration; said committee to report in writing to the Selectmen and Warrant Committee on or before January 1, 1914.

ARTICLE 6. *Voted*, To appropriate \$2,000 for the transportation of pupils the ensuing year.

ARTICLE 7. *Voted*, To appropriate \$1,000 for the medical inspection of the pupils of the public schools the ensuing year, said sum to be expended under the direction and at the discretion of the School Committee.

ARTICLE 8. *Voted*, To appropriate \$100 to be expended by the Park Commissioners in conjunction with the School Committee in the improvement of school lots the ensuing year.

ARTICLE 9. *Voted*, To appropriate \$500 to be expended under the direction of the School Committee for the equipment of athletic teams and general use of athletics in the public schools of Milton, as provided for in the Statutes accepted by the Town at the Annual Meeting, March, 1912, or act anything relating thereto.

ARTICLE 10. *Voted*, To appropriate for the Street Department expenses the ensuing year, the following sums, viz.:

For general expenses (plus the Street Railway Excise Tax), \$41,000.

For permanent and new construction to be done by contract, \$10,000.

For sidewalk purposes, \$5,000.

For street watering and oiling, \$11,000.

For removal of ice and snow, \$2,500.

For maintenance of public fountains, \$600.

ARTICLE 11. *Voted*, To appropriate \$17,119.84 for street lighting the ensuing year.

ARTICLE 12. *Voted*, To appropriate the sum of \$25,740

for the general expenses of the Fire Department, and the further sum of \$900 for the purchase of new hose.

ARTICLE 13. *Voted*, To indefinitely postpone.

ARTICLE 14. *Voted*, To appropriate the sum of \$200 for maintenance of the Department of Wires, and the further sum of \$350 for the installation of wires underground and other purposes.

ARTICLE 15. *Voted*, To appropriate the sum of \$28,684 for the Police Department the ensuing year.

ARTICLE 16. *Voted*, To appropriate the sum of \$9,100, together with all fines received in 1913, and the Dog Tax of 1912, for the use of the Public Library the ensuing year.

ARTICLE 17. *Voted*, To appropriate the sum of \$2,000 for the improvement of the Cemetery the ensuing year.

ARTICLE 18. *Voted*, To appropriate the sum of \$100 for the general uses of the Board of Park Commissioners the ensuing year.

ARTICLE 19. *Voted*, To appropriate the sum of \$3,500 for the further development and equipment of Brook Road Playground.

ARTICLE 20. *Voted*, To appropriate the sum of \$1,500, together with the receipts, for the use of the Tree Warden, to be expended in the care and planting of shade trees and the destruction of insect pests injurious to trees, the ensuing year.

ARTICLE 21. *Voted*, To appropriate the sum of \$12,000, together with any funds received from the State on this account, to be expended by the Tree Warden in the extermination of gypsy and brown tail moths.

ARTICLE 22. *Voted*, To pay no salary to the Tree Warden.

ARTICLE 23. *Voted*, To appropriate the sum of \$6,150 together with the proceeds from the Town Farm and reimbursements from other cities and towns for the support of the poor the ensuing year.

ARTICLE 24. *Voted*, To appropriate the sum of \$1,250 for Soldiers' Relief the ensuing year.

ARTICLE 25. *Voted*, To appropriate the sum of \$1,450 for State Aid the ensuing year.

ARTICLE 26. *Voted*, To appropriate the sum of \$750 for the maintenance of the Sewer Department the ensuing year.

ARTICLE 27. *Voted*, That the sum of \$12,000 be and hereby is appropriated and raised for the purpose of constructing sewers, the sum to be spent under the direction of the Sewer Commissioners; and the Town Treasurer is hereby authorized, by virtue and in pursuance of Chapter 304 of the Acts of 1895, to issue and sell bonds or notes of the Town to an amount not exceeding \$12,000 dated July 1, 1913, \$1,000 in principal amount to be payable annually, beginning one year from the date thereon and continuing until the entire issue has been paid. Said bonds or notes shall bear interest at a rate not exceeding four and one-half per cent per annum, payable

semi-annually; shall state upon their face that they are exempt from taxation in Massachusetts; and shall be denominated "Milton Sewerage Loan of 1913, Act of 1895." Any premium received upon such bonds or notes, less the cost of preparing, issuing and marketing them, shall, in compliance with Massachusetts Act of 1910, Chapter 379, be applied to the payment of the principal of the first bond or note so to mature. All other particulars as to the form, issuance and sale of said bonds or notes shall be determined by the Treasurer with the approval of the Selectmen, subject always to the provisions of said Acts of 1895, Chapter 304.

ARTICLE 28. *Voted*, To appropriate the sum of \$2,500 for the extension of water mains the ensuing year.

ARTICLE 29. *Voted*, To appropriate the sum of \$9,000 for hydrant service the ensuing year.

ARTICLE 30. *Voted*, To appropriate the sum of \$2,500 for the Health Department the ensuing year and that this appropriation include the expense of inspection of sewer connections.

ARTICLE 31. *Voted*, To appropriate the sum of \$4,000, to be expended under the direction of the Board of Health, for the collection of ashes and garbage during the ensuing year from such places as said Board in its discretion may designate.

ARTICLE 32. *Voted*, That the Board of Health be and hereby is authorized to make a contract, with the advice of the Town Counsel, for three years for the disposal of ashes and garbage; the terms of said contract not to exceed \$4,000 each year.

ARTICLE 33. *Voted*, To appropriate the sum of \$9,200 for salaries of Town officers the ensuing year, to be disbursed as follows:

Selectmen: Chairman, \$700. Other members, \$500 each.

Assessors, \$500 each.

Treasurer, \$1,200. Town Clerk, \$500.

Collector of Taxes, \$1,200. Auditors, \$200 each.

Registrars of Voters, Clerk, \$100. Other members, \$50 each.

Inspector of Animals, \$300.

Inspector of Buildings, \$800.

Inspector of Milk, \$300.

Inspector of Plumbing and Deputy Inspector, \$300 for each permit, the amount required to be taken from the Miscellaneous account.

Clerk of Selectmen, \$900, with the understanding that the services for which this salary is paid shall include the bookkeeping work required by the Overseers of the Poor.

Sealer of Weights and Measures, \$150.

ARTICLE 34. *Voted*, To appropriate the following sums for miscellaneous expenses the ensuing year:

For general expenses, \$3,500.

For interest charges, \$9,500.

For abatement of taxes, \$3,500.

For Contingent Fund, \$3,500.

For Town Hall and lot, \$1,800 and receipts.

For insurance (liability and fire), \$3,900.

ARTICLE 35. *Voted*, To appropriate the sum of \$1,010 for the general uses of the Assessors the ensuing year.

ARTICLE 36. *Voted*, That the Collector of Taxes be and hereby is authorized to use all means of collecting taxes which a Town Treasurer, when appointed Collector, may use.

ARTICLE 37. *Voted*, To fix the rate of interest on taxes unpaid after November 1, 1913, at six per cent.

ARTICLE 38. *Voted*, that The Town Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the taxes of the municipal year, beginning March 1, 1913, to an amount not exceeding in the aggregate \$200,000, and to issue a note or notes therefor payable within one year, any debt or debts incurred under this vote to be paid from the taxes of said municipal year.

ARTICLE 39. *Voted*, To appropriate the sum of \$250, to be expended by the Huntington Frothingham Wolcott Post 102, G. A. R., on Memorial Day.

ARTICLE 40. *Voted*, That the Selectmen be and hereby are authorized to employ counsel to represent the Town at hearings before committees of the General Court.

ARTICLE 41. *Voted*, To appropriate the sum of \$2,000 towards the restoration of the Perpetual Care Fund, and that such sum be deposited by the Town Treasurer in the same manner and upon the same terms as the appropriation of 1910.

ARTICLE 42. *Voted*, To appropriate the sum of \$500 towards the restoration of the Jason Reed Cemetery Fund, and that such sum be deposited by the Town

Treasurer in the same manner and upon the same terms as the appropriation of 1910.

ARTICLE 43. *Voted*, To appropriate the sum of \$500 towards the restoration of the Elizabeth T. L. Reed Park Fund, and that such sum be deposited by the Town Treasurer in the same manner and upon the same terms as the appropriation of 1910.

ARTICLE 44. *Voted*, To appropriate the sum of \$175, to be expended by the Selectmen for publishing the report of the exercises held on the 11th of June, 1912, in celebration of the 250th Anniversary of the Incorporation of the Town of Milton.

ARTICLE 45. *Voted*, To accept the provisions of Chapter 327 of the Acts of 1904, relative to the pensioning of permanent members of the Police and Fire Departments, by more than a two-thirds vote.

ARTICLE 46. *Voted*, To appropriate the sum of \$1,-049.38 for the ensuing year for the purpose of providing pensions for members of the Police and Fire Departments retired and placed upon pension roll under the provisions of Chapter 327, Acts of the year 1904, and that the following resolution be made:

RESOLVED: That it is the sense of the Voters of the Town that no person receiving a pension from the Town should be regularly employed by any Town official or department except with the approval of the Warrant Committee, for special cause and upon special circumstances.

ARTICLE 47. *Voted*, To appropriate the sum of \$205.48

for pensions for laborers under Chapter 503 of the Acts of 1912.

ARTICLE 48. *Voted*, To accept the provisions of Chapter 498, Acts of 1908, entitled "An Act to Authorize Cities and Towns to Establish Pension Funds for Teachers in the Public Schools."

NOTE: This Article being placed upon the ballot by statute called for no voice action at the meeting. The results of the ballot were, Yes 653. No, 288. Blanks 418.

ARTICLE 49. *Voted*, To appropriate the sum of \$425 to establish a pension fund for the retirement of teachers in the public schools under the provisions of Chapter 498, Acts of 1908.

ARTICLE 50. *Voted*, That the Park Commissioners be and they hereby are authorized to take or acquire by purchase or otherwise, the land bounded northwesterly by Belcher Circle, northeasterly by Bates Road, southeasterly by Granite Place, and southwesterly by Belcher Circle, or in their discretion, a part or all of such land; all substantially as shown on a plan of land by Frederick P. Hall, entitled "Proposed Park in East Milton" dated January, 1913, a copy of which is on file with the Park Commissioners, and to impose such restrictions on said land or any part thereof and to enter into such agreements concerning the same, or any part thereof, as may be lawful and as to them may seem desirable; and that the sum of \$13,000 be and hereby is appropriated for said purpose, being the estimated cost and expense of acquiring said land. Provided, however, that in any order taking or acquiring said land, and in any description of said land filed by the said board, according to law in the Registry of Deeds for the county or district in which such land lies, and in any other document or vote necessary or appropriate for the

taking or acquiring of said land, the said board shall declare that such action has been taken under the provisions of law authorizing the assessment of betterments, and the Town itself by this vote hereby makes such declaration. Said sum of money shall be raised by the issue of bonds of \$1,000 each dated April 1, 1913, which shall mature two bonds on April 1 of each year, 1914 to 1919, both inclusive, and one bond on April 1, 1920. They shall bear interest coupons at a rate of not exceeding four and one-half ($4\frac{1}{2}$) per cent per annum, payable semi-annually. Each bond shall be subject to registration as to principal, and the bonds shall also in compliance with the statutory provisions therefor but without further vote of the Town, be exchangeable for registered certificates without coupons. The bonds shall state upon their face that they are exempt from taxation in Massachusetts, and be denominated on the face thereof "Town of Milton Public Park Loan" and shall not be obligatory without the authenticating certificate of the Boston Safe Deposit and Trust Company of Boston. The bonds may be sold from time to time under direction of the Selectmen and the Town Treasurer, as the moneys above appropriated are needed, but they shall not be sold at less than par and interest. Premiums received upon such bonds, less the cost of preparing, issuing and marketing them, shall be applied to the payment of the principal of the first bond or bonds to mature. All other particulars relating to the form and sale of the bonds, except as prescribed by law, shall be determined by the Selectmen and the Town Treasurer. For the purpose of payment of principal and interest of said bonds as they become due there shall be raised by taxation each year an amount sufficient to pay said principal and interest coming due each year until all of said bonds herein authorized be paid in full.

ARTICLE 51. *Voted*, That this Article be indefinitely postponed.

At 6 o'clock and 6 minutes, *Voted*, That the meeting adjourn to Tuesday evening, March 4, 1913, at 7.30 o'clock.

MARCH 4. ADJOURNED MEETING

Called to order by the Chairman, Robert F. Herrick, at 7.33 P.M.

ARTICLE 52. *Voted*, That no further long time leases be made of any portion of the Town Landing; that a committee of five be appointed by the Moderator with full authority to improve the Landing as a place of recreation for our citizens; said committee may remove, alter or temporarily let buildings or locations on the Landing; money so received to be at the committee's disposal, as well as the balance now on hand. Said committee to report in writing at the next Annual Town Meeting.

Committee appointed: James S. Russell, Edward F. W. Bartol, Horace B. Horne, Timothy W. Melley, Norton Wigglesworth.

ARTICLE 53. *Voted*, That the Town accept the trusteeship, under the will of Mary Lothrop Peabody, of the fund given by said will to the Selectmen of the Town, and authorize the Selectmen to administer the trust according to the will.

ARTICLE 54. *Voted*, To adopt Chapter 635 of the Acts of 1912, known as the "Tenement House Act for Towns."

ARTICLE 55. *Voted*, That a committee of three citizens be appointed by the Moderator to be known as the "Com-

mittee on Revision of Building Laws" to revise the building, plumbing and wiring laws of the Town; said committee to report in writing to the Selectmen on or before January 1, 1914, that 200 copies of said report be printed for distribution by the Selectmen; that the sum of \$500 be appropriated for the use of the committee.

Committee appointed: Tarrant P. King, Frederick A. Gaskins, Arthur H. Tucker. Mr. King being unable to serve, George F. Shepherd was appointed to fill the vacancy.

ARTICLE 56. *Voted*, That a committee of three citizens be appointed by the Moderator to investigate the conditions of Pine Tree Brook and to report in writing before January 1, 1914; said report to be made to the Board of Health and copies of the same to be sent to the Board of Selectmen, Park Commissioners and Warrant Committee; that the sum of \$400 be appropriated for the expenses of said committee.

Committee appointed: Ellerton P. Whitney, Walter A. Lane, Lincoln Bryant.

ARTICLE 57. *Voted*, That this Article be indefinitely postponed.

ARTICLE 58. *Voted*, That this Article and the subject matter of the same with the By-Laws relating to the holding of the Annual Town Meetings be referred to a sub-committee of five citizens to be appointed by the Moderator; said committee to report in writing to the Board of Selectmen before January 1, 1914.

Committee appointed: Charles S. Pierce, James S. Gallagher, W. Newton Harlow, John F. Perkins, Murray Ruggles.

ARTICLE 59. *Voted*, That this Article be indefinitely postponed.

ARTICLE 60. *Voted*, That this Article be indefinitely postponed.

ARTICLE 61. *Voted*, To extend Grafton Avenue from its present terminus at State Street to Curtis Street, as laid out by the Selectmen.

ARTICLE 62. *Voted*, To accept the provisions of Chapter 191 of the Acts of 1907, authorizing the establishment of Boards of Survey in Towns.

ARTICLE 63. *Voted*, That this Article be indefinitely postponed.

ARTICLE 64. *Voted*, To appropriate the sum of \$3,500 to purchase a combination ambulance and patrol automobile for the use of the Police Department.

ARTICLE 65. *Voted*, To appropriate the sum of \$1,865 for the purchase of a new automobile for the Chief of the Fire Department.

ARTICLE 66. *Voted*, To appropriate the sum of \$300 for a flagstaff to be erected on grass plot in front of Town Hall.

ARTICLE 67. *Voted*, To appropriate the sum of \$300 to be expended by the Selectmen for band concerts for the celebration of the Fourth Day of July.

ARTICLE 68. *Voted*, That this Article be indefinitely postponed.

ARTICLE 69. *Voted*, That this Article be indefinitely postponed.

ARTICLE 70. *Voted*, To increase the salaries of the call fire men twenty-five per cent and appropriate the sum of \$775 for this purpose.

ARTICLE 71. *Voted*, That this Article be indefinitely postponed.

ARTICLE 72. *Voted*, That this Article be indefinitely postponed.

ARTICLE 73. *Voted*, That the Selectmen be and hereby are authorized to sell the whole or any portion of two parcels of land adjacent to Brook Road, between Reservation Road and Waldeck Road, so called, containing 3,975 square feet more or less, and to execute proper conveyance of the same.

ARTICLE 74. *Voted*, To appropriate the sum of \$187.63 for installing a fire alarm box on Huntington Road.

ARTICLE 75. *Voted*, That this Article be indefinitely postponed.

ARTICLE 76. *Voted*, That a committee of three citizens be appointed by the Moderator, with authority to confer with the proper officials of the Commonwealth of Massachusetts and cities of Boston and Quincy, with a view to developing a plan of co-operation for ditching the salt marshes to prevent the breeding of salt marsh mosquitoes. Said committee to report to the Town at its next Annual Meeting.

Committee appointed: W. L. W. Field, John Balch, Harris Kennedy.

ARTICLE 77. *Voted*, That a committee of three citizens be appointed by the Moderator to carry on such work in conjunction with the Board of Health; to appropriate the sum of \$500 for the use of said committee, which shall report in writing at the next Annual Town Meeting.

Committee appointed: W. L. W. Field, John Balch, Harris Kennedy.

ARTICLE 78. *Voted*, To erect one electric light on Orono Street and that the sum of \$21.20 be appropriated for the same.

ARTICLE 79. *Voted*, That this Article be indefinitely postponed.

ARTICLE 80. *Voted*, To erect one additional electric light on Spafford Road and that the sum of \$21.20 be appropriated for the same.

ARTICLE 81. *Voted*, To erect two electric lights on Tucker Street and that the sum of \$42.40 be appropriated for the same.

ARTICLE 82. *Voted*, To erect two electric lights on Grove Street and that the sum of \$42.40 be appropriated for the same.

ARTICLE 83. *Voted*, To erect one electric light on Columbia Park and that the sum of \$21.20 be appropriated for the same.

The following resolutions being presented to the meeting were read and unanimously accepted:

Resolved: That the citizens of Milton in town meeting assembled gladly acknowledge the long-continued service of their associate Henry B. Martin as Town Clerk and hereby express to him their cordial thanks, congratulating

him on the completion of forty years spent in that office, and giving him their best wishes for continued happiness and prosperity.

Resolved: That the Moderator appoint a committee of five citizens to study and report upon improved Town Hall facilities. Such report to be submitted, in writing, to the Selectmen and Warrant Committee, not later than January 1, 1914.

Committee appointed: William B. Thurber, Jesse B. Baxter, Philip S. Dalton, Arthur H. Tucker, Charles W. Whittier.

Voted, That the thanks of the Town be extended to the Moderator and Chairman of the Warrant Committee.

March 4, 1913, at 10 hours 30 minutes P.M., *Voted,* That the meeting be dissolved.

The foregoing meeting was opened at 6 o'clock A.M. by the Town Clerk *pro tem* (who proceeded to read the Warrant); upon the conclusion of the reading of the third article it was moved that the further reading of the Warrant be dispensed with. Said motion being put was unanimously carried, and the further reading of the Warrant (except the concluding paragraphs) was dispensed with.

At the meeting aforesaid the total number of ballots cast was 1,741, 382 being ballots cast by women voters for School Committee.

A true record.

Attest:

G. FRANK KEMP,
Town Clerk.

Warrant Committee

SEPTEMBER PRIMARY

WARRANT

COMMONWEALTH OF MASSACHUSETTS. NORFOLK, SS.

To either of the Constables of the Town of Milton, greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Milton, qualified to vote at elections, to meet in the Town Hall in said Milton, on Tuesday, the twenty-third day of September next, at four o'clock in the afternoon, then and there to bring in their ballots to the primary officers for the nomination of candidates of political parties for the following offices of Governor, Lieutenant-Governor, Secretary of State, Treasurer and Receiver-General, Auditor, Attorney-General, all for the Commonwealth; Councillor for the Second District; Senator for the First Norfolk District; Representative in the General Court for the Fourth Norfolk District; County Commissioner and two Associate Commissioners for the County of Norfolk; District Attorney for the Southeastern District; Register of Probate and Insolvency for the County of Norfolk; District Members of State Committee for each political party for the First Norfolk Senatorial District; Members of the Democratic Town Committee, Members of the Republican Town Committee, Members of the Progressive Party Town Committee; Delegates to the State Conventions of Political Parties.

All the above candidates and officers are to be voted for upon one ballot. The polls may be closed at 9 o'clock P. M.

And you are directed to warn said inhabitants qualified as aforesaid to meet at the time and place and for the purposes herein mentioned, by posting attested copies of

this Warrant in each of the post-offices of said Milton at least fourteen days before the date of said meeting.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Town Clerk, at or before the time of said meeting.

Given under our hands at Milton this 5th day of September, nineteen hundred and thirteen.

HENRY H. BARNES,
MAURICE A. DUFFY,
GEORGE R. EATON,
Selectmen of Milton.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, SS.

MILTON, September 24, 1913.

Pursuant to the within Warrant I have notified the inhabitants of the Town of Milton as therein directed, to meet at the Town Hall in said Milton, upon the date above mentioned, for the purposes therein set forth.

PELEG BRONSDON,
Constable of Milton.

A true record.

Attest:

G. FRANK KEMP,
Town Clerk.

NOVEMBER MEETING

WARRANT

COMMONWEALTH OF MASSACHUSETTS. NORFOLK, SS.

To either of the Constables of the Town of Milton, Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Milton, qualified to vote at elections, to meet in the Town Hall in said Milton, on Tuesday, the fourth day of November next, it being the Tuesday after the first Monday in said November, at six o'clock in the forenoon, then and there to bring in their ballots for Governor, Lieutenant-Governor, Secretary of State, Treasurer and Receiver-General, Auditor, Attorney-General, all for this Commonwealth; Councillor for the Second District; Senator for the First Norfolk District; County Commissioner and two Associate Commissioners for the County of Norfolk; District Attorney for the South-eastern District; Register of Probate and Insolvency for the County of Norfolk; also to see if the Town will vote to accept the provisions of Chapter 807 of the Acts of 1913, entitled "An Act to Provide for Compensating Certain Public Employees for Injuries Sustained in the Course of Their Employment," and to see if the Town will vote to accept the following amendments to the Constitution: Making women eligible as notaries public; Chapter 28, Resolves of 1913. Authorizing the referendum, Chapter 116, Resolves of 1913.

All to be voted for on one ballot. The polls may be closed at 4 o'clock P.M.

And you are directed to warn said inhabitants qualified as aforesaid, to meet at the time and place and

for the purposes herein mentioned, by posting attested copies of this Warrant in each of the post-offices of said Milton, at least fourteen days before the date of said meeting, and leaving printed copies hereof at the dwelling houses in said Milton at least four days before said meeting.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Town Clerk at or before the time of said meeting.

Given under our hands at Milton, this 17th day of October, nineteen hundred and thirteen.

HENRY H. BARNES,
MAURICE A. DUFFY,
GEORGE R. EATON,
Selectmen of Milton.

COMMONWEALTH OF MASSACHUSETTS. NORFOLK, SS.

MILTON, NOVEMBER 4, 1913.

Pursuant to the within warrant I have notified the inhabitants of the Town of Milton as therein directed, to meet at the Town Hall, in said Milton, upon the date above mentioned for the purposes therein set forth.

PELEG BRONSDON,
Constable of Milton.

BLANKS, forty-four.

For Secretary

FRANK J. DONAHUE, of Boston, three hundred and ninety-one votes.

WILLIAM S. KINNEY, of Boston, six hundred and forty votes.

JOHN A. NICHOLLS, of Boston, fifteen votes.

FRED E. OELCHER, of Peabody, five votes.

ELLA M. ROBERTS, of Springfield, eleven votes.

RUSSELL A. WOOD, of Cambridge, two hundred and ninety-four votes.

BLANKS, seventy-one.

For Treasurer

CHARLES L. BURRILL, of Boston, six hundred and eighty votes.

CHARLES E. FENNER, of Worcester, fourteen votes.

THOMAS A. FRISSELL, of Hinsdale, twelve votes.

WARREN R. KEITH, of Brockton, two hundred and sixty-six votes.

FREDERICK W. MANSFIELD, of Boston, three hundred and seventy-one votes.

DENNIS MCGOFF, of New Bedford, five votes.

BLANKS, seventy-nine.

For Auditor

HERBERT S. BROWN, of Greenfield, sixteen votes.

DAVID CRAIG, of Milford, twelve votes.

OCTAVE A. LARIVIERE, of Springfield, two hundred and forty-one votes.

SAMUEL P. LEVENSBERG, of Boston, thirteen votes.

FRANK H. POPE, of Leominster, three hundred and sixty-three votes.

JOHN E. WHITE, of Tisbury, six hundred and seventy-six votes.

BLANKS, one hundred and six.

For Attorney-General

THOMAS J. BOYNTON, of Everett, three hundred and sixty-four votes.

FREEMAN T. CROMMETT, of Chelsea, twelve votes.

JOHN MCCARTY, of Abington, fourteen votes.

H. HUESTIS NEWTON, of Everett, two hundred and forty votes.

INGVAR PAULSEN, of Boston, six votes.

JAMES M. SWIFT, of Fall River, six hundred and ninety-seven votes.

BLANKS, ninety-four.

For Senator

LOUIS F. R. LANGEIER, of Quincy, six hundred and fifty-nine votes.

WILLIAM LITCHFIELD, of Weymouth, seventeen votes.

DAVID W. MURRAY, of Boston, three hundred and eighty-seven votes.

LESTER P. WINCHENBAUGH, of Boston, two hundred and ninety-two votes.

BLANKS, seventy-two.

For Representative in General Court

(Fourth Norfolk District)

JOHN J. GALLAGHER, of Milton, five hundred and one votes.

DWIGHT W. SLEEPER, of Canton, two hundred and forty-three votes.

JOSEPH F. STONE, of Canton, six hundred and thirty-five votes.

BLANKS, forty-eight.

For County Commissioner

BANCROFT ABBOTT, of Norwood, two hundred and fifty-seven votes.

EVERETT M. BOWKER, of Brookline, six hundred and fourteen votes.

JEREMIAH O'LEARY, of Sharon, four hundred and forty-seven votes.

BLANKS, one hundred and nine.

For Associate Commissioners

LEO P. NOONAN, of Quincy, five hundred and sixty-eight votes.

WILLIAM M. MCQUADE, of Dedham, three hundred and seventy-one votes.

HENRY A. WHITNEY, of Bellingham, seven hundred and thirty-three votes.

BLANKS, eleven hundred and eighty-two.

For District Attorney

ALBERT F. BARKER, of Brockton, seven hundred and seventeen votes.

WILLIAM J. GOOD, of Randolph, three hundred and fifty-seven votes.

WILLIAM F. KANE, of Brockton, two hundred and eighteen votes.

JOHN FRANCIS MULLEN, of Brockton, eleven votes.

BLANKS, one hundred and twenty-four.

*For Register of Probate and Insolvency
For Norfolk County*

ALONZO B. COOK, of Sharon, five hundred and thirty-three votes.

J. RAPHAEL MCCOOLE, of Dedham, seven hundred and forty-five votes.

BLANKS, one hundred and forty-nine.

An Act to provide for compensating certain public employees for injuries sustained in the course of their employment. Chapter 807, Acts of 1913. Shall it be accepted?

YES: seven hundred and sixty-seven votes.

NO: two hundred and forty-two votes.

BLANKS, four hundred and eighteen.

Amendments to the Constitution

Making women eligible as notaries public, Chapter 28, Resolves of 1913.

YES: four hundred and ninety-nine votes.

NO: five hundred and ninety-four votes.

BLANKS, three hundred and thirty-four.

Authorizing the referendum, Chapter 116, Resolves of 1913.

YES: five hundred and ninety-nine votes.

NO: three hundred and forty-eight votes.

BLANKS, four hundred and eighty.

At the meeting aforesaid the following appointments of Ballot Clerks and Tellers were made by the Selectmen, namely:

Ballot Clerks: Charles H. Bearse, Albert M. Hoxie, Republicans.

Thomas M. Lennon, Henry D. Mahoney, Democrats.

Tellers: Prescott Skinner, William A. Will, J. Arthur Robson, Walter A. Cheney, Holbrook Lincoln, Lewis B. Currier, Fred A. Packard, Leonard M. Bradlee, Charles H. Thayer, and John A. Larrabee, Republicans.

Joseph A. Shea, Joseph A. Rein, John J. Colgan, Edward Gallagher, Joseph J. Mullen, John H. Donovan, James H. Drayton, Thomas A. Flanagan, James P. Doherty, and William A. Murray, Democrats.

Harry C. Rideout, George L. Bauldry, Progressives.

All of the above named Ballot Clerks and Tellers were sworn by the Town Clerk before entering upon their duty.

At 4 o'clock P.M., *Voted*, To close the polls in ten minutes.

At 4 o'clock and 11 minutes, *Voted*, That the polls be closed.

At 6 o'clock and 15 minutes P.M., *Voted*, To dissolve the meeting.

A true record.

Attest:

G. FRANK KEMP,
Town Clerk.

Whole number of ballots cast, fourteen hundred and twenty-seven.

Whole number of registered voters, November 1, 1913:
Men, 1,732; women, 557.

Fourth Norfolk Representative District

We the undersigned Town Clerks of the towns of Canton and Milton comprising Representative District Number Four, in the County of Norfolk, hereby certify:

That at an election duly held in said towns upon the fourth day of November, A.D. 1913, for a candidate to represent said district at the next General Court, the following number of votes were given in for the several persons hereinafter named, to wit:

For JOHN J. GALLAGHER, of Milton, eight hundred and eighty-five votes.

For DWIGHT W. SLEEPER, of Canton, three hundred and fifty-eight votes.

For JOSEPH F. STONE, of Canton, nine hundred and seventy-eight votes.

BLANKS, seventy-four.

Given under our hands at Canton, this fourteenth day of November, A.D. 1913.

WALTER AMES,
G. FRANK KEMP,
Town Clerks of Canton and Milton.

REPORT OF COMMITTEE ON VOTING PRECINCTS

MILTON, MASS., December 31, 1913.

Honorable Board of Selectmen of Milton:

DEAR SIRs:—The Warrant for the Annual Meeting held on March 3, 1913, contained the following articles:

ARTICLE 58. To see if the Town will direct its Selectmen to prepare a division of the Town into convenient voting precincts as provided in Chapter 580, Section 195, of the Acts and Resolves of the General Court of the year 1907.

ARTICLE 59. To see if the Town will vote to repeal Sections 2 and 3 under Chapter 2 of the Revised By-Laws, and substitute the following:

SECTION 2. The annual meeting for the election of Town officers shall be held upon the first Monday of March, the polls to be open at six o'clock in the forenoon, and they shall remain open until four o'clock in the afternoon for the election of such other Town officers as are required by law to be elected by ballot. At any time after four o'clock in the afternoon a vote may be passed to close the polls in not less than ten minutes.

SECTION 3. After the closing of the polls and the election of other Town officers, the meeting shall be adjourned until seven-thirty o'clock, same evening. The remaining articles in the Warrant shall then be considered.

The Town Meeting considered these two articles together, and voted that "the subject matter of both, with

the By-Laws relating to the holding of the annual town meetings, be referred to a sub-committee of five citizens to be appointed by the Moderator; said committee to report in writing to the Board of Selectmen before January 1, 1914."

The committee appointed consisted of Messrs. James S. Gallagher, W. Newton Harlow, John Forbes Perkins, Charles S. Pierce, and Murray Ruggles. It organized by selecting Mr. Pierce as chairman and Mr. Harlow as secretary. A public meeting was held at the Town Hall on the evening of December 2, 1913, the notice inviting all citizens to appear and to make suggestions to the committee. The response was very gratifying and the remarks of the speakers were helpful.

Chapter 580 of the Acts and Resolves of the year 1907, referred to in Article 58, was the election law in force until this year. Chapter 835 of the Acts and Resolves of 1913 recodified the existing statutes dealing with this subject and is the present election law. The following sections dealing with the division of towns into voting precincts and the conduct of elections therein are printed in this report for the convenience of citizens.

SECTION 221. A town may direct its Selectmen to prepare a division of the town into convenient voting precincts. The Selectmen shall, so far as possible, make the centre line of streets or ways, or other well-defined limits, the boundaries of the proposed precincts, and shall designate them by numbers or letters. They shall, within sixty days, file a report of their doings with the Town Clerk, with a map or description of the proposed precincts, and with a statement of the number of male voters registered in each for the preceding annual election. The report shall be presented by the Town Clerk at the next

succeeding town meeting, but it shall not be acted upon except at a meeting called for the purpose, and held at least seven days after the report has been filed. The division so reported may be amended at such meeting, and shall take effect when adopted. Elections of State officers held in such town more than sixty days after such action shall be held in the precincts so established. If such report shall be rejected the town may at any time direct the Selectmen to prepare a new division.

SECT. 222. A town may make any change in its voting precincts which the Selectmen shall have recommended in a statement giving the boundaries, the designations of the proposed precincts and the number of voters registered in each for the preceding annual State or town election, filed with the Town Clerk at least seven days before a town meeting called for the purpose; but no changes other than those so proposed by the Selectmen shall be made at such meeting.

SECT. 223. When a town has been divided into voting precincts or the voting precincts thereof have been changed, the Selectmen shall post in the office of the Town Clerk and in at least three public places in each new precinct a map or description in which the new precincts shall be designated by numbers or letters, and defined clearly and, so far as possible, by known boundaries; and they shall also furnish copies thereof to the registrars of voters and the assessors of such town, and to the election officers of each precinct so established.

SECT. 224. Any town may, at a meeting called

for the purpose, discontinue its voting precincts; and subsequent elections therein shall be held as if no such division had been made. But it may in any subsequent year, establish voting precincts as hereinbefore provided.

SECT. 227. The Selectmen of every town divided into voting precincts shall annually, between the first and fifteenth day of August, appoint as election officers for each voting precinct, one Warden, one Deputy Warden, one Clerk, one Deputy Clerk, two Inspectors and two Deputy Inspectors, who shall be voters of the precinct. They may, in like manner, appoint two Inspectors and two Deputy Inspectors in addition.

SECT. 228. Such election officers shall be so appointed as equally to represent the two leading political parties, except that, without disturbing the equal representation of such parties, not more than two of such election officers not representing either of them may be appointed. The Warden shall be of a different political party from the Clerk, and not more than one-half of the Inspectors shall be of the same political party. In each case the principal officer and his deputy shall be of the same political party. Every election officer shall hold office for one year, beginning with the fifteenth day of September succeeding his appointment, and until his successor is appointed and qualified, or until his removal. An election officer may be removed by the Mayor, with the approval of the Aldermen, or by the Selectmen, in Boston by the Election Commissioners, after a hearing, upon written charges of incompetence or official misconduct preferred by

the City or Town Clerk, in Boston by the Election Commissioners, or by not less than six voters of the ward, or, in a town, of the voting precinct in which the officer is appointed to act.

In the State there are three hundred and twenty towns. Previous to January 1, 1913, sixty of these towns had accepted the statutes providing for division into precincts for voting purposes. The largest of these towns is Middleborough, with an area of forty thousand two hundred and twenty-six acres, and the smallest is Belmont with two thousand two hundred and eighty-four acres. The number of registered voters varies from three thousand eight hundred and twenty-seven in Revere to one hundred and thirty-two in Truro. In thirty-seven of the towns there are two precincts and the largest number is in Barnstable, which has seven. In some cases the precincts divide the voters into groups of substantially the same size, while it is to be noted that in Middleborough one precinct contains one hundred and eleven and the other one thousand six hundred and thirty-six, and in Natick one contains two thousand two hundred and fourteen and the other three hundred and fifteen registered voters. In some of these towns the town hall is difficult of access from populous villages; in other cases it is not difficult to reach it.

We, therefore, have come to the conclusion that we cannot derive much help from the experience of other towns but must decide this problem for ourselves. A majority of the committee is opposed to precinct voting at this time. In reaching this conclusion little attention has been given to the matter of expense. At the present time the services of about twenty ballot clerks and tellers are necessary at an election and each is usually paid the sum of five dollars. In a voting precinct a minimum of eight election officers is required by law, but it is probable

that this number would be sufficient to attend to the business of any precinct in Milton. No suggestion has been made that there should be less than four precincts, if any are established, and six would make a more satisfactory division than four. It is improbable that there would be more than five hundred registered voters in any one precinct, and if twenty election officers can do the necessary work for the present voting list of seventeen hundred, it would seem that eight ought to be able to care for any one precinct. If there were six precincts the cost of the election would be doubled, but the amount involved would not be sufficient to be entitled to consideration if the change were to serve a useful purpose.

The Town owns no public building in Mattapan except the Tucker School. It would be almost as inconvenient for many citizens to vote there as at the Town Hall. The same would be true if the people of the Lower Mills were required to go to the Glover School or to the Police Station. This difficulty could be met by portable structures as in Boston. There must, however, be some inconvenience in voting unless each man can send his ballot from his home. Voting precincts would mean more work for the Town Clerk, and would, to a certain extent, complicate the election machinery, but these considerations should not receive much weight.

The majority of the committee thinks that in a community like ours there is danger that the separation of our principal villages into voting precincts will tend to make them like little municipalities, each clamoring for representation in town offices and for local appropriations. It has also been suggested that such a division will assist the development of the practical politician and enable him to know if another village or precinct has contributed the votes of which some friend has assured him. We believe that so far as possible we should

retain the characteristics of the Town Meeting, the value of which as an institution is universally conceded. We should encourage the meeting of our citizens at one point for the purpose of voting just as much as for the purpose of discussing propositions in which the Town is interested, and we should discourage any practice which will tend to make our citizens engage in political activity within sectional or district lines.

A very large percentage of the registered voters of Milton live in the villages of East Milton, Mattapan and Milton Lower Mills, extremes of which might be said to be situated two and a quarter miles, one and a quarter miles and one and a half miles, respectively, from the Town Hall, each having frequent street car connection with it. In fact, the only parts of the Town from which access to the Town Hall is comparatively difficult lie to the south and west, the residents of which have expressed no desire for precinct voting. At the public meeting of this committee the only persons speaking in favor of the proposition were men who are regular in their attendance at town meetings. No one appeared, though our meeting was in the evening, to testify that he himself could not vote under our present system. We, therefore, feel that the need of a change has been somewhat exaggerated, but if there are persons who are being deprived of an opportunity to vote under the system now obtaining, slight changes in it will eliminate the difficulty. Those members of the committee who are opposed to a division of the Town into precincts believe that if the polls remain open longer at the Town Hall there will be no need for voting in villages in Milton.

Mr. Ruggles wishes it to be understood that on the matter of precinct voting he reaches the same conclusion as the majority of the committee. He feels that precinct voting would be a convenience for many citizens,

which they are entitled to if they desire it, but he does not find any substantial demand.

Mr. Gallagher signs the report with the understanding that he is in favor of precinct voting and dissents from the conclusions of the majority on that subject.

So far as we can learn, the annual town meeting in Milton has always elected town officers and considered the articles in the Warrant on the same day, adjourning only when there was insufficient time to dispose of them all. During the past fifteen years there have been but three such adjournments—in 1901, 1912 and 1913. Each year, however, the number of articles in the Warrant increases and in some other years we have been able to finish our business at one session only by hurrying the debate on important matters. We believe that it is desirable to dispose of the articles if possible at one session, but that this should not be done at the expense of proper consideration of the subjects for which the meeting is called. Our system by which the Warrant Committee considers all propositions and publishes its recommendations in advance facilitates rapid progress at the meeting, but on many occasions citizens who have remained silent would have expressed their views if a little more time had been available. The statutes require the counting of the ballots audibly and in open view of the voters during the meeting. This inevitably results in a certain amount of noise and confusion, which is distracting to those who are listening to the discussion and eliminates from the consideration of the Warrant the Tellers to whom the duty of counting is assigned. The necessity for keeping open the polls has made it impossible to take up the Warrant in recent years until a quarter or half past two in the afternoon, and this fact has limited the time for its consideration to three hours and a half, or possibly four hours.

The committee is unanimous in its opinion that the hours for voting should be extended, and this will make it impossible to consider the articles in the Warrant during the afternoon of the day when voting takes place. It therefore will be necessary to separate the balloting and the counting from the balance of the meeting. This is permitted by Section 279 of Chapter 835 of the Acts of 1913, commonly called the Election Law, which reads as follows:

SECTION 279. Notices or warrants for meetings for State and city elections and for the election of town officers in towns where official ballots are used shall specify by name all the offices to be voted for, and state in full any proposed amendment to the constitution or other question submitted to the people: *provided, however,* that any act submitted for acceptance may be stated by its chapter number and title only. They shall specify the time when the polls will be opened, and in cities, when the polls will be closed, and in towns, when they may be closed.

In cities, the polls may be opened as early as six o'clock in the forenoon and shall be opened as early as ten o'clock in the forenoon and shall be kept open at least six hours, but in no case after the hour of eight o'clock in the evening.

In towns, at the election of State and town officers, the polls may be opened as early as fifteen minutes before six o'clock in the forenoon and shall be opened as early as twelve o'clock noon, and shall be kept open at least four hours, and until the time specified in the Warrant when they may be closed; and they may be kept open for such longer time as the meeting shall direct, but they shall not be kept open after the hour

of eight o'clock in the evening. At annual town meetings they shall be kept open at least one hour for the reception of votes upon the question of licensing the sale of intoxicating liquors. After an announcement has been made by the presiding officer of a time so fixed for closing the polls they shall not be closed at an earlier hour.

A town may by By-Law designate the hour at which the annual town meeting shall be called, and, subject to the provisions of this section, may designate the hours during which the polls shall remain open; and, further, may provide that all business, except the election of such officers and the determination of such matters as by law are required to be elected or determined by ballot, shall be considered after a certain hour, or by adjournment to another day.

If the remainder of the meeting were to be held in the evening, it would not be feasible to assemble before half past seven; nor would it be advisable to continue in session later than ten o'clock or half past ten. Experience has shown that many citizens will not remain at such a meeting after ten o'clock. It will be impossible to consider in two hours and a half a Warrant containing as many articles as ours, so that at least one adjournment would certainly be necessary. Citizens of advancing years frequently cannot attend evening meetings in March, and experience in other towns has shown that the attendance at evening meetings falls off after each adjournment. It was suggested at our public meeting that the discussion of the articles in the Warrant could best be carried on on Saturday afternoon as it would be possible for more persons to attend at that time than on any other afternoon in the week. The committee is unanimous in the endorsement of this suggestion and

recommends that Section 3 of Chapter 2 of the Revised By-Laws be stricken out and a new section inserted, to read as follows:

SECTION 3. All business except the election of such officers and the determination of such matters as by law are required to be elected or determined by ballot shall be considered at an adjournment of said meeting to the following Saturday at one thirty o'clock in the afternoon.

If this amendment is adopted we are confident that in almost every year the business of the meeting can be finished at one session and that it will not be necessary to provide by by-law for a possible adjournment.

It is claimed that many citizens of Milton are unable to vote at present. To be sure the percentage which the number of ballots cast in recent years, both at State and town elections, bears to the total registration is much higher than the average throughout the State, but we should be glad to make it higher. We believe that the Town should, so far as is reasonably possible, give each citizen an opportunity to vote without loss of income.

Section 279 of the Election Law, which we have quoted above, leaves to the Selectmen the duty of fixing the time when the polls will be opened at State elections and when they may be closed, making, however, fifteen minutes before six the earliest hour for opening, and eight o'clock in the evening the latest hour for closing, and requiring them to remain open at least four hours. The town may by by-laws regulate the hour for the opening and closing of the polls at the Annual Town Meeting, subject to the above limits. It follows that we cannot by by-law control the action of the Selectmen in this respect at the State election, but there is little

doubt that they would regard a by-law dealing with the Town election as an expression of the Town's wish in respect to the State election and call that meeting in accordance with it.

We are unanimous in our opinion that the polls should be opened as early as the statute permits, that is, at fifteen minutes before six, and that they should remain open at least until four o'clock. We also think that if the election of Town officers is held on Saturday between these hours, it will be possible for nearly every citizen to go to the polls at some time during the day. It would seem that very few more would be accommodated by extending the voting to six o'clock, and the completion of the counting would be very late if that hour were fixed for closing. Those citizens who cannot vote on Saturday afternoon before four o'clock will probably be able to do so at some time in the forenoon, particularly if the meeting begins at fifteen minutes before six.

It is, therefore, recommended that Section 2 of Chapter 2 of the Revised By-Laws be stricken out and a new section inserted to read as follows:

SECTION 2. The annual meeting for the election of Town officers shall be held upon the first Saturday of March, the polls to be open at fifteen minutes before six o'clock in the forenoon and they shall remain open until four o'clock in the afternoon for the election of such other Town officers as are required by law to be elected by ballot, all said officers to be voted for on one ballot. At any time after said four o'clock a vote be passed to close the polls in not less than ten minutes.

We have omitted in this suggested amendment all reference to the election of a Moderator as the statute

changing the method of his election has rendered this provision obsolete.

The committee respectfully requests that you insert in the Warrant or the annual meeting of 1914 articles to raise the questions of the changes in By-Laws herein recommended.

Respectfully submitted,

CHARLES S. PIERCE,
W. NEWTON HARLOW,
JAMES S. GALLAGHER,
JOHN FORBES PERKINS,
MURRAY RUGGLES,
Committee.

REPORT OF THE SCHOOL COMMITTEE TO THE SELECTMEN AND WARRANT COM- MITTEE UPON THE REPORT OF THE SPECIAL COMMITTEE ON PUBLIC EDUCATION

*To the Selectmen and Warrant Committee of the Town of
Milton:*

By vote of the Annual Town Meeting of 1913 the report of the Committee on Public Education was referred to the School Committee for its consideration with instructions to report in writing thereon to the Selectmen and Warrant Committee before January 1, 1914.

The report of the School Committee is as follows:

The original vote of the Town Meeting of 1912, under which the Committee on Public Education was appointed, provided "that the entire matter of the school system and the policy of the Town with regard to public education for the future be referred to a special committee of five to be appointed by the Moderator to examine into and study the whole subject, considering the advantages, expenses, and results of varying methods."

It is apparent from the foregoing that the scope of the undertaking was extremely broad and somewhat vague. Considering the limited time given to the Special Committee, its report, covering over one hundred pages, interspersed with statistical compilations, speaks for the hard work, courage, and industry of the Committee.

If the time of the Special Committee had been greater, and if the investigator, who first gathered statistics for the Special Committee, had been more familiar with schools, more progress would have been made. That

Committee was also handicapped by the fact that the Educational Department at Harvard, from which it sought advice, was at that time employed upon the prolonged investigation of the New York City Schools, so that the advice and counsel of Professor Hanus of Harvard was not available. (See Special Committee's Report, page 42.)

It is apparent from reading the Special Committee's Report that Assistant Professor Holmes, upon whom the Special Committee particularly relied, did not himself have the opportunity to personally observe our schools and was obliged to rely upon "typewritten outlines" of the courses of study and the reports of special examiners, several of them students in his courses, and of the "cost accountant," whose profession it is "to analyze and tabulate expenditures for the purpose of determining cost of production." (See Report, pages 5, 43, 44, and 45). The reports of these examiners were based upon the statistics previously gathered and upon their own investigations and observations of the work in the schools. We consider that these observations were hasty and superficial. In two cases, at least, the examiners spent not more than two hours with the classes.

As the Report of the Special Committee is to a great extent based upon the work of these examiners, the School Committee, in making its own report on the Special Committee's conclusions, is placed in the position of choosing between the data and advice furnished by these examiners, who have had comparatively little experience and almost no opportunity to observe our schools, and the advice and observations of superintendents, who have studied our problems and those of other schools at close range for years. Under these conditions the School Committee considers that it is justified for the present, at least, in giving greater weight to the opinions of practical school men.

The School Committee has appreciated from its own experiences the great difficulty confronting any committee in collecting fair and representative data upon which to base its conclusions, and it cannot but realize the well-nigh impossible task of collecting such data and properly collating and adjusting it in the limited time and means at the Special Committee's disposal.

The impression which we have received from perusing some of the Tables has been that the statistics have been compiled by persons having possibly a theoretical but not a practical knowledge of school conditions, with the result that many of the financial statistics and cost comparisons are either incorrect or misleading.

It is, therefore, perhaps not surprising that the School Committee has not reached definite conclusions on many of the subjects dealt with in the Special Committee's Report, and that, while tentatively it disagrees with many of their conclusions it agrees with some. We agree with the Special Committee that "further and more detailed study" will be necessary to reach valuable results. (See Report, page 91.)

Without attempting any elaborate or complete discussion of the Tables in the Report of the Special Committee, we have appended to this report a few notes upon some of the difficulties which we have experienced with them, and some of the difficulties which a casual reader may have with them. (See Appendix A, page 19.)

We cannot help but agree with the statement in the foot note in fine print in the Report, page 51, which is a statement set forth in the Newton Report, from which the Committee has drawn so much information: "Fair comparisons of school costs between towns and cities are hard to make, because differences in wealth, in school enrollment, and in the advantages offered, may account legitimately for many differences in per capita expense,"

and we would add that it is even more difficult when a small, widely scattered, sparsely settled town like Milton is compared with a fair sized city like Newton, which has no small units.

We believe that it would serve no useful purpose to enter upon an extended discussion of the conclusions drawn by the Special Committee from its Tables, until we are persuaded that the Tables offer reliable bases for conclusions.

BRIEF DISCUSSION OF THE SPECIAL COMMITTEE'S CONCLUSIONS

The Special Committee divides its report into two main heads:—

1. The cost of the schools.
2. The efficiency of the schools.

The Special Committee considers the matter of cost in detail, furnishing elaborate Tables, and is more severe in its criticism of the cost of "Books, Supplies, and Incidentals," than of any other item of expense.

It remarks that "the fact that for each pupil in the High School Milton is paying \$4.90 per annum for books while Newton is paying \$2.27 furnishes ground for a strong suspicion that Milton is paying too much" (Report, page 30); and again, "The fact, however, that even items which should not be influenced by the size of the plant, such as supplies for instruction, show a large excess over Newton, lends color to a suspicion that a more careful scrutiny of details would result in decreased cost throughout."

Having these "suspicions" it was perhaps not difficult for the Special Committee to reach the conclusion that "so far as we can discover, no systematic effort has been made . . . to take the precautions against waste which modern business theory demands." (Report, page 41.)

If we examine the statistics which the Special Committee used in drawing this conclusion we find that "Books, Supplies, and Incidentals" for the *calendar year* were \$6,404.82 for 1903 and \$8,523.11 for 1911 (Report, page 6), a percentage increase of thirty-three one-hundredths of one per cent, the report states (obviously a mistake), while for the *school year* 1903-1904 they were \$5,397.90 against \$6,825.16 in 1911-1912, an increase of twenty-six per cent, the report states. (Report, page 15.) It would be interesting to know just what the Special Committee or the "cost expert" includes in "Books, Supplies, and Incidentals"; apparently other items than the School Department has included in the Table which has been prepared for the use of the School Committee for a number of years, for in that Table, under the head "Books and Supplies (Printing, all items except Janitor Supplies)" the cost for the calendar year of 1903 is \$4,927.54 and for 1911, \$5,721.22, an increase of sixteen per cent.

Starting with different data it is perhaps to be expected that the two committees would reach different conclusions. There is nothing alarming in an increase of sixteen per cent, considering the fact that there has been an increase in the cost of materials.

Turning to the Special Committee's comparison with Newton, we think that perhaps the Special Committee has been a bit hasty in drawing conclusions. As stated above, it finds "ground for strong suspicions" in the fact that books cost the Milton High School \$4.90 and Newton only \$2.27. (Report, page 30.)

From inquiries made of the Newton school officials, we are able to state that the cost of \$2.27 is unusually low, even for Newton, and due to peculiar circumstances, which are briefly, as follows:

The Newton High School in 1910 had an over supply of books, due in part to liberal buying in former years,

and in part to the fact that with the establishment of a Technical High School in 1909 and 1910 a large number of pupils were taken out of the Classical High School, who left practically all their books behind them. These two factors, in the main, made the cost for books in 1910 in the Newton High School abnormally low. In Milton, in 1911, on the other hand, the cost was above the average owing to the purchase of a new set of song books—the old set had been adopted twenty years before—also to the purchase of new and expensive text books for stenography.

The Special Committee's second main head is the efficiency of the schools.

To assist it in this branch of its inquiry the Special Committee, during the closing days of the schools, in June, engaged the services of Assistant Professor Henry W. Holmes, of the division of Education of Harvard University, as above stated.

With the conclusions, in regard to the grade schools (Report, page 50), which the Special Committee has drawn from Professor Holmes' studies, we are, in general, in accord. Those conclusions are as follows:

"(1) That the courses now being given in the grade schools are fairly well-planned, but are subject to some possible improvements;

"(2) That those scholars who pass through the grades are proceeding with fair regularity except in the Vose School,* and

*We consider that the correct interpretation of the examiner's own figures (assuming them to be accurate) demands that the percentage of retardation of the Vose School, which comprises only the sixth, seventh and eighth grades where retardation is usually concentrated, should not be compared with the percentage of retardation of schools of full grades, like the Belcher and Tucker Schools. If the Vose School percentage and the percentages of its "five contributing schools" (to use the Special Committee's own language) were properly combined the average percentage of retardation for the Vose School system would be 13.9 per cent, instead of 28 per cent, as given in the report, Chart I, Appendix D. This is not sufficiently in excess of normal, or of the percentage of the Belcher and Tucker schools, to warrant so much anxiety as the pages of the Special Committee's Report seem to indicate. (Report, pages 36, 37, and 38.) Has not the examiner in his enthusiasm failed to appreciate the real significance of his own figures?

On page 47 the report says that the percentage of retardation of Newton is 14, while only 10.2 per cent in the grades of Milton were retarded.

“(3) That too many scholars are leaving school between the fifth and eighth grades and that effort should be made to learn the causes of leaving and to check the loss.”

The Special Committee gives in full Assistant Professor Holmes' long and somewhat discursive report on the High School and apparently adopts his recommendations.

We are in a general way in accord with the recommendations made for the simplification of electives and where possible the combination of courses under fewer heads,—changes along these lines were already being considered and are now being made.

We believe that the Special Committee would be in accord with much which has been done in the past year at the High School. But, while we agree in general, as previously noted, in the recommendations for simplifications in courses, our examination of the data used by Professor Holmes leads us to believe that the statement on page 82 of the report, as to irregularity and latitude given to pupils in the selection of subjects is much exaggerated. The report states that but nine out of seventy-six pupils were “regular” in their electives, and that of these nine only one was “absolutely regular.” As we interpret this same data we find that there were one hundred and five pupils instead of seventy-six in the classes taken as examples, and that out of this one hundred and five, sixty-four were absolutely regular, that many of them were necessarily regular by reason of the demands of the college entrance prescriptions which these pupils were aiming to meet, and that adequate reasons existed for the variations in the other cases.

We cannot but conclude that the plan of administering the courses and electives in the High School was not aimless and defective as a superficial observation led the

investigators to believe. A detailed discussion of this subject is appended. (See Appendix B, page 24.)

Professor Holmes devotes considerable space to an attack upon the High School vocational courses. The Special Committee says: "The changes suggested as to the vocational courses are the most radical in the report." (Report, page 88.)

We are not altogether clear as to what Professor Holmes is driving at, but we are rather inclined to think that Professor Holmes' objections are much more seeming than real, more a matter of terminology than of substance.

In the early part of his report Professor Holmes catalogues the substance of the aims of the courses with this caution, "At this point we are not considering the *names of courses, nor how their aims are phrased . . .* but only the substance of their aims." (Report, page 57.) He then states the aims of the three courses:

"To train carpenters and cabinet makers.

"To train printers.

"To train dressmakers."

If Professor Holmes did not immediately qualify the statement of aims the reader might conclude that the High School was attempting to turn out trained carpenters and cabinet makers, printers, and dressmakers. He very properly points out, however, "In the statement of the vocational aims there is *no intention to imply that the school is proposing a complete training* for any of the occupations named." (Report, page 58.) But later in his report he seems to forget his own cautions and apparently mistaking the name for the substance, exclaims, "They [the vocational courses] are inadequate for the purpose they are supposed to achieve because they do not reach the class of pupils that need trade training, because they do not stand in proper relation to the trades

they attempt to prepare for." (Report, page 75.) He then advises Milton to drop "vocational courses," which to him seem to be synonymous with trade courses, and adopt "pre-vocational courses." (Report, page 77.) And again, "If investigation had been seriously undertaken Milton could not have entered on its present attempt at trade training under this aim." (Report, page 63.)

With due allowance for the fact that we may not understand Professor Holmes, we cannot help feeling that because of his lack of familiarity with the High School he is misled by our use of the term "vocational," into understanding that we are attempting a complete training for the various occupations whose names the courses bear.

If he had had an opportunity for careful personal study, we think he must have come to the same conclusion as that reached by our present Superintendent, who in his first report to the School Committee says: "The rather modest expansion of these manual arts and household arts courses in woodworking, dressmaking, cookery, and printing, may have a tendency to exert at least pre-vocational influences, in addition to their fundamental function of furnishing to the boy or girl who is not book-minded, not only the means but the temptation to secure, at least, the beginning of a more liberal education than is offered in the elementary school." The Superintendent assures us that since coming to Milton he has found nothing in courses or equipment to warrant the conclusion that there is any attempt being made to furnish complete training, or anything approximating complete training for trades.

Considering the fact that Professor Holmes observes "that the aims of the Milton High School in the training of carpenters, printers, and dressmakers, are not justified with much certainty by the work now offered

under these aims" (Report, page 69), and his further observation that "*the boys* in the present carpentry course in the High School do not show at all clearly the need for this particular form of direct trade training, if their avowed intentions can be accepted as evidence," it seems strange to us that he did not draw the conclusion from these facts which our Superintendent draws, namely,—that the courses were neither *designed* by school authorities for trade courses, nor are they *taken* in most instances by the pupils as trade courses, but are in substance what Professor Holmes himself recommends, "pre-vocational" courses.

CONCLUSION

With reference to the Special Committee's eight principal suggestions (Report, page 90), we would say, as to

"(1) The consolidation of certain of the grade schools."

We consider this a debatable question to which School Committees in the past have given careful consideration and which is receiving the present School Committee's best thought. As to

"(2) A more careful study of the details of expenditures."

We believe that our present system will compare favorably with any in the State. We are adopting changes from time to time as our own experience and what we learn from others indicate to be feasible and desirable without undue increase in the expense of administration. As to

"(3) The limitation of the number of subjects to be pursued by pupils in the High School."

We believe that much of the data from which the Special Committee drew its conclusions* is incorrect.

Nevertheless, we agree that some modifications were possible and much has already been accomplished in this direction. As to

“(4) A study to determine and remove the causes of the elimination which commences at the sixth grade and progresses with increasing rapidity through the twelfth grade.”

This has been for many years a subject for anxious consideration by our school authorities, and by school authorities everywhere.

Our courses of a vocational character were introduced some years ago and have since been developed with the same aim, namely,—to induce pupils who must soon earn a livelihood to remain longer in the schools, by offering to them work that is interesting and practical. As to

“(5) The establishment of a special class for defective children.”

This is also a matter which has long given us and other committees deep concern, and no adequate solution has yet been found. Such a class would be highly desirable if the expense was not so great and if administrative and geographic obstacles could be surmounted. As to

“(6) The reorganization of the academic and certain vocational courses in the High School.”

Several months before the Special Committee's Report was published plans were being formulated by which the two-year and four-year vocational courses (which had been introduced as separate courses only two years before and were still in the experimental stage), were to be eliminated with the object of substituting more economic and efficient courses. At the same time plans were considered for reorganizing the academic courses. These plans have been carried out. As to

“(7) The discontinuance of the printing, carpentry, and woodworking, and possibly the dressmaking courses

as trade courses in the High School, and the carrying on of the same work in State-aided trade schools."

Scholars who wish to attend trade schools, now, as heretofore, are attending trade schools in Boston and Quincy. As to

"(8) The extension of Manual Training, Cooking, Dressmaking, and Domestic Science as liberal studies."

We believe our courses in these subjects always have been in substance what is here recommended and with the beginning of the present school year definite advances have been made in the extension of these courses.

We think that there has been a feeling that an unnecessary amount of money is being spent in the schools to develop courses of a vocational character; that, in short, the schools would be doing their full duty to the children of the Town, if the studies were confined to the narrow curriculum of a past generation.

On this fundamental question, we are happy to say that we are in accord with the opinion of Professor Holmes: "The value of vocational education in the High School is still theoretically debated, but practically its cause is won. It is in wide and increasing use. In fact, the need for this type of secondary schooling has become too obvious to ignore." (Report, page 53.)

We are also glad to find that the Special Committee and the School Committee are in accord as to the reasonableness of all the heavy items of school expense.

The Special Committee concludes that "the present salary rate is not too high." (Report, pages 19 and 30.) The School Department is constantly facing the difficulty of securing, as recruits, teachers who have adequate training, experience, and personal qualifications for the important work demanded of them. The mere conditions of supply and demand will soon make it necessary as a matter of self-protection for Milton to consider an in-

crease in the budget for this item of school expense. *Teachers' salaries alone consume approximately two-thirds of the annual school appropriation.*

The Special Committee by its failure to make adverse criticism apparently understands that the cost for the care of buildings, for fuel, for the constant and increasing expense for repairs, is largely beyond the power of the School Committee to reduce.

Practically the remaining item of expense—and it is a comparatively small one—concerning which the two committees are not in agreement, is the proper cost of books and supplies. This item we hope we have adequately discussed in this report. (See Appendix A, page 19.)

The School Committee recognizes the right of the citizens at all times to inquire into what the School Department is doing and what it is striving to do; and the Committee will always be glad to afford such assistance as it is able to such inquiries.

MILTON SCHOOL COMMITTEE.

By PERCY E. SHELDON, *Secretary*.

APPENDIX A

COMMENTS ON THE STATISTICS PRESENTED IN THE SPECIAL COMMITTEE'S REPORT

In Table I (Report, pages 4 and 5), it might have been helpful to the citizens to have pointed out that the inclusion of debts on buildings is unusual in school statistics and an expense not within the control of the School Department. Table I places the cost of the schools in 1911 at over \$100,000. The total amount available to the School Committee was approximately \$90,000.

In Table II (Report, page 8), which is a comparison with Newton, it seems unfortunate that the standard of

comparison for the Milton High School should be the Newton Classical High School. The casual reader might conclude that Newton is paying nothing for manual training, sewing, cooking, printing, etc., when, as a matter of fact, Newton has for several years been maintaining very extensive and costly courses in these and other subjects in its elaborately equipped Technical High School, statistics concerning which would seem to us to have furnished a closer and fairer parallel.

It would appear also in Table III (Report, page 10), that while Milton was paying in 1903 \$3,098.99 and in 1911 \$2,584.44 for repairs, Newton is charged with paying nothing. This is somewhat misleading to the casual reader. In general, it is confusing to persons who are not conversant with school statistics, or even to those familiar with such figures, to try to draw conclusions from a comparison between the Milton High School and a school two or three times the size of the Milton High School. Obviously, the larger the school the more economically it can be organized.

In Table V (Report, page 17), which is based on the actual uniform State returns, the cost per pupil for Milton is given as \$54 in contrast to the cost expert's figures which credit Milton with paying \$66 per pupil.

In Table X (Report, page 32), we notice that the Belcher School, the Glover School, the Houghton, Tucker, and various other schools are charged with large amounts for transportation, when, as a matter of fact, no pupils are transported to these schools. This illustrates, although theoretically figures may be tabulated in any form which the compiler chooses, it is practically of little value to charge schools with various items of expense when these expenses were not incurred by these schools.

In Table XI (Report, page 33), it speaks of the average membership in the different classes and asserts that there

were twenty-two grade schools in Milton with classes with less than nineteen pupils, when we are able to find but six classes of this limited size. The Table purports to furnish a comparison with Newton, but the statistics of the classes in the Newton High School are omitted.

In Table XIII (Report, page 40), the Special Committee concludes that the Milton School Department is operating only sixty-one and nine-tenths per cent of its plant. This Table contains, for instance, a statement that the Belcher School has a capacity of 400 pupils and can maintain an average of 44.4 pupils per room, which is greater than the undesirable maximum allowed in some of the congested districts in New York and Boston. When a temporary increase in the number of pupils in the Belcher School on this basis was once attempted, inspectors from the State Police Department prohibited the arrangement because the number of pupils exceeded the capacity of the room in the amount of air required per pupil. This illustrates where theory is wide of the actual handling of the problem. As an extreme case, the Tucker School is reputed by this Table as having rooms capable of containing 47.5 pupils per room, which is altogether beyond reason or possibility.

On account of these errors as to the capacity of the school buildings, and for other reasons also, we hesitate in accepting the conclusion of the Special Committee on this line of argument.

Its report says: "A consolidation of schools along the lines indicated would, however, certainly be *a step in the right direction*. Closing certain schools would reduce the running expenses of the system and a sale of the school buildings and lots would furnish a fund that could be turned to the payment of existing indebtedness or to the further improvement of schools to be maintained. We consider, therefore, that the high cost of the grade

schools is due, in the main, to two and possibly three causes.

"First, the small number of pupils per teacher.

"Second, the small proportion of the school plant in actual service.

"Third, we find indication of too little attention paid to details of expense." (Report, page 40.)

In regard to the first, the average number of pupils per teacher, according to the Special Committee's investigation, seems to be 24 per teacher (Report, page 35), whereas the School Committee, from its perusal of the school statistics, concludes that the number is 28 per teacher, and it has been a matter of congratulation in the department that the number of pupils per teacher is below the average in the State. We referred to this matter particularly in our Report for 1911. (School Committee's Report, 1911, pages 11 and 12.) This accomplishment is one for which Dr. Charles W. Eliot, President Emeritus of Harvard University, and other leading educators have for years been striving. Ex-President Eliot, for example, would like to see classes no larger than 25. We could undoubtedly save money by increasing the number of scholars per teacher, but, if the Special Committee is advising this as a general policy, we doubt whether it is "a step in the right direction."

As to the Special Committee's conclusion that too little attention is paid to the details of expense, we have only to refer to the fact that so systematic and careful has been the plan in operation for many years, that it was adopted recently by the State Board of Education with only minor modifications as the prescribed plan for the entire State, and further, the Special Committee's cost expert in going over the multitude of miscellaneous bills for a period of ten years found no inaccuracies, as we are informed, except with a possible payment of a

bill of 14 cents which should have been paid from the Town Hall account and was in fact paid by the School Department. If any citizen of the Town wishes to see evidence of the care and detail in which proposals for competitive bids for school supplies have been put before the various supply houses in Boston, the committee will be glad to refer them to copies of those proposals which are still on file.

Turning to Appendix D, Chart I, the figures given for the Houghton School in the last line of the chart are either inaccurate or to us incomprehensible.

MILTON SCHOOL COMMITTEE.

By PERCY E. SHELDON, *Secretary*.

APPENDIX B

COMMENTS BY THE PRINCIPAL OF THE HIGH SCHOOL

In reply to your request for figures and comments, with reference to the statements and conclusions of the Committee on Public Education concerning the High School, it is a privilege to submit the following facts, which I have chosen from a great number, to show that the Committee on Public Education must have been misled by the inadequacy or erroneous character of its investigators' data.

The report states, on page 83, that the number of seniors and juniors enrolled was seventy-six. The records of the school show that the number was one hundred and five.

The report states that but one of these seniors and juniors was taking a regular course. The records show that sixty-four were taking regular courses.

I am prepared to submit data to show sensible and adequate reasons for every case where variations from the regular courses have been made. A single example will illustrate the wisdom of making an occasional varia-

tion:—A boy in the junior class was allowed to take two extra subjects. The result was that he was allowed to enter college at the end of his junior year. His first college report states that he has attained honor grade in four subjects.

A comparison of the Special Committee's Table (pages 85 and 86), with the actual records of my office shows that the claim of the investigator that nineteen freshmen in the commercial course were taking five prepared subjects is contrary to the office records which show that no such pupils were taking five prepared subjects. In the sophomore class the Table states that nine pupils were taking six prepared subjects, the records show no such pupils. The report states that one was taking seven prepared subjects, the records do not show any. The figures in this Table, given for the senior and junior classes, are substantially correct, except that the number of seniors is forty, instead of thirty-three. Fifteen members of the junior class took four prepared subjects, twenty carpentry and woodworking and commercial pupils took three prepared subjects. Two members of the senior class took three prepared subjects, twenty-four took four prepared subjects.

The investigator would have discovered, had he spent even a day in the school to verify his data, that the reasons for the large number of juniors and seniors *apparently* taking excessively heavy courses, namely:—

a. That he had included as prepared subjects all sciences, botany, chemistry, and physics, each of which includes a large amount of *unprepared* laboratory work.

b. That he had counted as two separate courses the course in junior mathematics, which consists of algebra three days a week and geometry two days, really one course, a common arrangement for High Schools throughout the State.

c. That he had included as a "subject" a once a week algebra review and twice a week ancient history review, given for special reasons for that year only.

Another evidence of the error into which Professor Holmes apparently has fallen, may be noted on page 81 where he states: "The fact that the algebra of the first year is repeated in the third year indicates a persistent and troublesome problem in High School mathematics' teaching." As a matter of fact, first year algebra is *not* repeated in the third year nor in any other year. As in practically all secondary schools in this State the algebra course is arranged to extend through two different years, according to the recommendation of Harvard College, Catalog 1912-1913, page 187, a recommendation of which Professor Holmes, of Harvard College, is evidently unaware.

On page 82 the report states that "the wide latitude given the pupils, even beyond the limits of election, in the selection of subjects, makes it necessary to organize small extra classes." This assertion must be emphatically denied and no evidence to corroborate this statement has been advanced.

Regardless of how it may be represented by statistics, a simple comparison of the amount and character of the work taken in the Milton High School with the requirements of New England colleges and the standards of Massachusetts High Schools should quickly convince any one that the amount of work actually taken is not excessive and that it varies but little from that of other Massachusetts High Schools.

In May 1913, we were notified by the Special Committee that the matter of investigating the internal administration and organization of the High School had been placed in the hands of Professor Frank Ballou. His report, based on the results of many days of actual

observation and study in the school, *had it been published*, would doubtless have been of more value and interest than much of the theoretical discussion based upon data such as we have mentioned above.

The Special Committee recommended certain specific changes. (Page 87.)

a. "A single college preparatory course." This would be extremely convenient if the colleges would but agree upon a single uniform preparation for admission. This matter is outside the jurisdiction of high school authorities.

b. "A general course including several clearly defined curricula." This would be a pertinent suggestion if only the number in this course were sufficiently large to enable us to carry these subdivisions in separate classes throughout the course. But the size of the school would make this an expensive luxury.

c. "A clerical course for girls." This is now given under the generally accepted name of "Commercial Course."

d. "A business course for boys." Here again is an apt suggestion, except for the expense involved. The number of boys in such a course would not average more than ten per grade. The course would necessitate engaging the services of a skilled and, therefore, high-priced special teacher in salesmanship, advertising, and other purely technical subjects, all for a small number of boys, and so would violate the very principles of the Special Committee's Report for increased economy and against vocational, as distinguished from pre-vocational, instruction.

With reference to the present program of "vocational education" it must be stated that we have never felt that the school was giving "vocational" training, except possibly in stenography and typewriting. In our mind the

chief value of the courses in question has been the inspiration given to a certain type of pupils, to attain tangible and visible results, at the same time supplementing this work with a large proportion of liberal study.

We feel that any careful study of the courses and administration of the school made with accurate data, by persons properly qualified, will show the school to be conducted with due regard to economy and efficiency.

SUPPLEMENTAL STATEMENT OF THE MEMBERS OF THE COMMITTEE ON PUBLIC EDUCATION

MILTON, MASS., January, 26, 1914.

*To the Board of Selectmen and Warrant Committee of the
Town of Milton:*

GENTLEMEN:—We have received from the School Committee under date of January 15, 1914, a copy of their answer to our report filed last January. As this answer is to be submitted to you, we ask leave to file the following and request that if the answer of the School Committee is to be printed for distribution, that this be likewise printed and distributed as a supplemental report.

From the point of view of the Town, it is to be regretted that the School Committee has thought it advisable to limit its answer to an attempt to discredit our report, mainly by assertions relative to the capacities of this Committee and of all the individuals employed by it, rather than to discuss the broad questions of fact and policy naturally suggested by the report. The matters that can interest the Town are not so much the School Committee's opinion of the persons conducting the investigation and their methods, as the question whether the facts they set forth are accurate and their conclusions logical.

An examination of the School Committee's answer discloses that out of the nearly 3,700 items contained in the Tables in our report, they have assigned errors in ten items. (We leave out of consideration figures appearing in Professor Holmes's report, which he has explained in his letter hereinafter mentioned). When it further appears

that of these ten, one is a misplaced decimal point and three others are also typographical errors, it looks as if the search for mistakes had been fairly exhaustive.

We do not know from what source the School Committee obtained the information on which they base their assertions. We can only say that we have in our possession original data, most of it furnished by the School Department itself, from which we will satisfy any member of the School Committee or any other citizen who will go over the matter with us, that in each of the instances noted (except the typographical errors) our figures are correct. We have annexed hereto a statement in the form of a letter to the School Committee in which we take up briefly but in detail various points in our report noted by the School Committee.

Perhaps the severest stricture upon an item in our Tables is contained in the paragraph referring to Table 13, wherein we give the capacity of Milton Schools and the per cent of occupation. The School Committee says that

“As an extreme case the Tucker School is reported by the Table as having rooms capable of containing 47.5 pupils per room, which is altogether beyond reason or possibility.”

As a matter of fact, when this sentence was being written by the School Committee there were in the third grade room of the Tucker School 49 desks set up for occupation, in the fifth grade 49, in the sixth grade 48, in the first grade 48, and the other rooms in the Tucker School building are of substantially the same size of these. These facts can easily be verified by a visit to the school.

We stated in our report our conclusion that “no systematic effort has been made . . . to take the precautions against waste which modern business theory demands.” This conclusion was not based upon the items

of comparative expenditures for books in Newton and Milton, as the School Committee seems to have assumed. Nor had we complaint to make relative to the method of keeping the accounts of the School Department. Our statement was based on the fact that so far as we could learn after repeated inquiry, no systematic effort had been made to gather together data in such shape as to make possible useful comparisons. No tabulations had been made whereby such important items as regular teaching, special teaching, fuel, books, supplies, might be separately compared from year to year or compared in one unit (school) of the system with similar items in another unit. The expenses of the grades and the kindergartens had not been separated. The cost of individual courses in the High School had not been figured. No effort had been made to ascertain accurately how much teaching the different teachers in the High School were doing, or how many pupils each of the grade school teachers was instructing. Supplies were given out from the general store to grade schools upon oral requisitions if they "seemed reasonable" as we were told by the former Superintendent. No record of supplies going to the individual grade schools was preserved. It seemed to us that Milton might better follow the lead of Newton and other towns in these respects.

The question of elimination (dropping out) of pupils after the fifth grade has "for many years been a subject for anxious consideration" by the School Committee and yet, so far as we could learn, no Tables have been prepared to show elimination from the fifth grade upwards, or to compare the varying percentages of elimination in the various schools so as to determine where were the places (for instance the Vose School) to be treated first. Retardation, that is, the falling behind from year to year of pupils, is everywhere recognized as a most active cause

of elimination. We found no Tables of Retardation, and today, unless the method of keeping records of attendance has been recently changed, the books of certain schools are so kept that it is impossible to figure retardation from them.

When all is said and done the School Committee concludes by admitting that of the eight principal recommendations made in our report seven are either under consideration now or have been or are about to be carried out.

Why then, these harsh words about our report? The investigation has at least served to enable the Special Committee to put its finger on seven vital points which the School Committee admits need attention and correction.

The investigation has served to establish another fact which we think is not generally known in Milton and which we believe has never before been stated by the School Department since "Industrial Courses" were started in 1909. The Principal of the High School in the School Committee's answer says:

"We have never felt that the (High) School was giving vocational training except possibly in stenography and typewriting."

That the two and four year courses in carpentry and woodworking, dressmaking and printing were originally started as vocational courses no one who has read Mr. Jacoby's report for 1909 can doubt, and as late as May, 1912, they were advertised in the *Milton School Journal* as intended "to give a pupil such a knowledge of the theory and practice of one of the industries named as would lay a good foundation for future progress and advancement and enable him or her upon graduation to take up the work with confidence and with a substantial earning capacity." Our examiners, after looking into the

courses, decided that they were not adequately planned vocational courses. Everybody seems now to be agreed that the courses are not vocational. If they are not, we think it is fair to ask, "Why should they be advertised as vocational courses?" "Why not rather notify Milton boys and girls, who desire vocational training, of the excellent vocational schools in Quincy and Boston open to them without expense?"

The term "pre-vocational" is a somewhat new term in educational affairs. We venture to state that prior to the appearance of our original report it had never been used in Milton school reports. The School Committee has ignored Professor Holmes's explanation of the customary use of the term, and not being clear "what he is driving at" has twisted his meaning in an attempt to justify these "vocational" courses. We have asked him to explain further and he has replied in a letter, a copy of which is attached hereto. Without attempting here to discuss definitions, we submit that by no stretch of the educational imagination can a "rather modest expansion of these manual arts and household arts courses in wood-working, dressmaking, cookery and printing" (as our Superintendent describes the courses) "having a fundamental function of furnishing the beginning of a liberal education" be justified as "pre-vocational" by the faint-hearted praise that they "may have a tendency to exert at least pre-vocational influences." (Superintendent's Report for 1912.) We submit also that the difference between a "vocational" study and a "pre-vocational" study is something more than a matter of "terminology."

The School Committee has radically misunderstood our report when it says that we are in accord with it "as to the reasonableness of all the heavy items of school expense." While we agree that teachers' salaries should not be reduced, we most firmly believe, as stated in detail

in our original report, that a rearrangement of the High School and grade schools on better lines would enable the schools to accomplish more with a smaller number of teachers and at materially reduced expense. Nor are we as tax payers willing to take it for granted, in the absence of detailed study by the School Committee, that the cost of care of buildings, fuel and repairs, is, as stated by it, "beyond its power."

No statement of fact in our report was made lightly or without painstaking endeavor to verify its correctness. We do not claim perfection for its Tables but we know that they are substantially correct and we are not aware of any errors in them, and we challenge the School Committee to produce from its files any Tables to compare in accurateness, fairness and comprehensiveness with the Tables appearing in our report. Our report, founded as it is upon the examination of seven competent, disinterested and experienced persons (only one of them, by the way, a student in Professor Holmes's courses) each of whom made such examination as was necessary to determine the points upon which he was examining, cannot, in the mind of any reasonable man, be refuted by loose general assertions or by plucking a few items to discuss out of their proper context.

The school authorities of Brookline and Boston and other cities and towns are bending attention to just such details and tabulations as appear in our report, preferring to rely upon tabulated data rather than upon the "observations of superintendents."

The School Committee states that it is and has been giving anxious consideration to one or more of the recommendations in our report. We respectfully suggest to it that the Tables which we submit can be made to form the basis of a solution of some of its problems. We think it is fair to ask it to assume some virtue in the

Tables, at least until better and more accurate tabulations are made.

We are sending a copy hereof to the School Committee.

Respectfully submitted,

LINCOLN BRYANT,
AUSTIN W. GREENE,
HIRAM TUELL,
W. NEWTON HARLOW,
WALTER C. KITE.

MILTON, MASS., January 26, 1914.

To the School Committee of the Town of Milton, Milton, Massachusetts.

GENTLEMEN:—As it appears from your answer to our report that in several instances our meaning has not been plain and that difficulties have arisen we add a statement in regard to them which we have made as brief as possible.

Page 2. We did not seek advice from the Department of Education at Harvard but from Professor Holmes individually. He was recommended to us by Dr. David Snedden, Commissioner of Education of the Commonwealth of Massachusetts. We understand, however, that Professor Holmes consulted with other members of the department including Professor Hanus.

Page 5. "Books, Supplies and Incidentals" in Newton and Milton. The facts set forth in your answer regarding this item offer an apparent explanation of the differences between Milton and Newton as regards the High School. Only exact figures could determine whether this is a complete explanation.

Page 7. Thirty-three per cent. This error is correctly noted. The decimal point should have been omitted.

Page 7. The difference between our figures and yours are presumably as you state, owing to the inclusion of different data. What Mr. Abbott has included is all set out in his Tables numbered 1, 2 and 3.

Page 9. Footnote, Retardation in the Vose School. It does not seem to us that the fact that the five contributing schools have each so low percentage of retardation that lumped with the Vose School the high percentage of the Vose School is averaged down to 13.9%, is any credit to the Vose School, but rather the contrary. We think a fair comparison would be the three upper grades in the Vose School with the three upper grades in the Belcher and Tucker Schools respectively. Such a com-

parison shows the unfortunate condition in the Vose School.

As to "regularity" we have sent your answer to Professor Holmes and he has taken up the question in his letter hereto annexed.

Page 19. The fact, if it is a fact, that debts on buildings are not usually included in school statistics, does not seem to us to prove that figures in regard to payments for maturing bonds and interest are not useful in determining the cost to the town of a school system. We should include them on the same principle that a man would include mortgage interest in reckoning annual expenses.

Page 2. If the casual reader drew the conclusion from our Table Number 2 that Newton was paying nothing for manual training, etc., he would of course be mistaken. The zero figures are an error of the printer. They should have been dashes.

The zero figures of Table 3 are an error.

Page 20. Table 5 is, as stated in the table itself, a table of appropriations, not costs. To find costs you must add to the appropriations sums paid by the Town but not appropriated, such as maturing bonds and interest.

Table 10. We advised your Committee under date of February 6, 1913, fully in regard to the item of transportation charged to the Belcher, Tucker, Houghton, and Thacher schools. We consider it more fair to consider transportation as a general expense like medical inspection properly to be prorated among the schools. If we had used the method which you suggest and charged it only to the schools where transportation actually took place, the discrepancy which we note between the large schools and the small ones would have been still greater.

You have slightly misquoted Table 11. It is based on the figures contained in Table 12. The twenty-two classes in Milton with less than nineteen pupils each were as

follows: The Glover School, 2; the Houghton School, 5; the Sumner School, 5; the Thacher School, 5; the Wadsworth School, 5; making a total of 22. See Table 12.

Page 21, Table 13. Milton was operating 61.9% of its plant in 1911-12. After the introduction of the Thacher School pupils into the Vose School it was operating 65% of its plant. As to the Tucker School, see our letter.

Page 22. As to the average number of pupils per teacher. We state that in the elementary schools there was in 1911-12 an average membership of 1,107 pupils and that these were taught by 46 teachers, an average of 24.1 to a teacher.

The report of the School Committee for 1911, page 73, shows that there were 46 teachers in the grade schools (including kindergarten) in February, 1912. The report of the School Committee for 1912, page 34, gives the average membership of grades and kindergarten for 1911-12 as 1,081. The figures for other towns used in our report are taken from 75th Annual Report of the Board of Education and are all figures of average membership.

Page 23. The error referred to is doubtless the payment of a bill of 16 cents. Several other errors were noted by Mr. Abbott which we did not consider of sufficient importance to include in our report. We shall be glad to give them to you, if you desire.

You are correct in noting errors in the last line of Appendix D, Chart 1. They are due to the printer or proofreader.

Page 24. As to "regularity" we have spoken above, and the question of prepared subjects we have referred to Professor Holmes. All his statements on the subject are based on signed statements of individual pupils, prepared under the supervision of Mr. Curtis.

Page 27. Professor Holmes's report was founded upon

Professor Ballou's report as well as the reports of the other examiners. (See his letter.)

Page 27. (a) A single college preparatory course. Such courses as we have in mind are given in Brookline and in Newton and are apparently possible.

(b) The general course should include several clearly defined curricula. This does not mean subdivision of classes in the general course but the grouping of studies to be taken together.

(c) The clerical course for girls. If this is a clerical course, why not call it so? Commercial courses and clerical courses are not synonymous. The present course was advertised in the *Milton School Journal* for May, 1912, as giving "a pupil a good foundation for a business career."

(d) Business course for boys. This is only what was advertised as just stated. If, as stated by the Principal, only ten boys per grade took this course, there would be four times as many pupils as were taking the two and four year courses in printing in the spring of 1912.

Yours respectfully,

LINCOLN BRYANT,
AUSTIN W. GREENE,
HIRAM TUELL,
W. NEWTON HARLOW,
WALTER C. KITE.

January 26, 1914.

To the Committee on Public Education, Milton, Massachusetts.

GENTLEMEN:—The reply of the School Committee seems to me to obscure many of the points in the Report of your Committee. Accordingly you may find use for the following notes, which are confined entirely to the remarks of the School Committee concerning my own contributions to the report and the contributions of the investigators that you secured at my recommendation.

(1) The School Committee endeavors to disparage my work and the work of my colleagues in the investigation by pointing out that your Committee was unfortunate in not being able to secure Professor Hanus instead of me. I esteem Professor Hanus too highly to wish to compare my services with his. It should be said, however, that Professor Hanus did not undertake his New York work until some time after you conferred with me; that I sought his opinion on general questions several times during my investigation; that I used on a particularly important problem (vocational education) one of the New York reports hereinafter referred to, then in galley-proof; that I had the co-operation of Mr. F. W. Ballou, one of Professor Hanus's subsequent co-workers in New York; that the Division of Education was never employed as a whole in New York as the School Committee states, Professor Hanus alone being absent in that service; that the resources of the Division were therefore continuously available to me; and that I had besides the carefully considered advice of two gentlemen, experienced in vocational education, in whom Professor Hanus has special confidence—Mr. C. R. Allen, Agent in Vocational Education for Massachusetts and Mr. F. W. Thompson, Assistant Superintendent of

Schools in Boston and Special Investigator for Professor Hanus in New York.

I have not the slightest doubt that had Professor Hanus himself assisted you, his conclusions would not have been at variance with my own; although this does not mean, of course, that Professor Hanus is in any way responsible for my recommendations to your Committee.

(2) The School Committee further belittles our work by implying that we were not qualified to undertake it and that we did not take pains to inform ourselves of conditions. As a fact, none of the investigators except Mr. Lane were students in my courses as the Committee states. Mr. Lane, Director of the Harvard University Press, had previously made, under Professor Hanus, an intensive study of instructions in printing. He was studying with me as a fourth-year graduate, for purposes of his own. The other investigators were all experienced school workers, although Mr. Cummings happened to have returned to the University at the time in order to secure his Doctor's degree.

The questions taken up in my own report did not demand on my part prolonged observation of the Milton schools. I was not dealing with the efficiency of instruction, but with the aims and organization of courses. The observations of Mr. Cummings, Mr. Lane, Mr. Butz, and Miss Bennett were entirely adequate as a basis for their reports and gave me such facts as I needed in addition to those supplied directly by the school authorities.

The "typewritten outlines" referred to disparagingly by the School Committee were given to me in person by Mr. Jacoby as official statements concerning the courses of study.

The implied charge that your investigators were incapable or did not properly inform themselves, has no

basis in fact. It ought not to be used as an excuse for avoiding attention to the constructive recommendations of the report.

It is a marked defect of the school administration in Milton that there is no full, clear, and available information in print concerning the scope, aims, and organization of the Milton courses.

The advice of the two superintendents on whom the School Committee prefers to rely is that of interested parties to the issues in question. If the School Committee desires advice from disinterested experts of the highest rank, it would do well to consider the suggestion made on page 75 of my report and secure the services of the officers and agents of the State Board of Education. This should have been done when the vocational courses at Milton were first undertaken; but it can still be done with profit. The State maintains a special corps of experts in vocational education, one of whose functions is to assist school authorities.

(3) My studies of election in the High School are sharply attacked by the Committee; but its reply rests on a misinterpretation of my report. The condition I described existed and probably still exists; and it is undesirable.

My question was, "How many students in the High School pursue the courses laid down in the printed documents provided to parents and pupils?" This is a legitimate question. The courses arranged and published by the school officials under the authority of the School Committee (which I used) are properly to be taken as normal and standard courses for pupils to pursue. Exceptions will have to be made, but too great freedom of departure, as my report points out, is undesirable from every standpoint.

The Committee says that there were 105 pupils in the

classes I considered, instead of 76 as I stated in my report. This makes no difference, however, in the conclusions to be drawn from my data. These data were supplied to us by Mr. Curtis. They were in the form of blanks filled out by the pupils themselves. The fact remains that of the 76 seniors and juniors who thus reported, only one took throughout his High School career, a course exactly as laid down in the published announcements of the school authorities. Eight others took a course regular in this sense but with additions from an optional list of studies also authorized.

Mr. Curtis denies that I was correct in my statements concerning the number of "prepared" subjects taken by students. My data were supplied in this case also by the pupils themselves through the co-operation of Mr. Curtis. I did not indicate the number of prepared recitations per week taken by any student. I simply pointed out that many students had in their year's program more subjects requiring preparation than is desirable for a High School student to carry.

We may have been in error, as Mr. Curtis claims, in our statement that first year algebra is repeated in the third year or in any other year. Both Mr. Ballou and I, however, understood this to be so, my own source of information being the written statement of the teacher of algebra in the school.*

Mr. Curtis believes that Mr. Ballou's report would have been of more interest and value than mine. Mr. Ballou's report is available and can be consulted by anyone who is interested. It bore, however, upon only a single question, considered from a single point of view. I asked Mr. Ballou to study this question, "Granted that the present organization of courses is advisable and

*I have looked at this statement again and find that it indicates exactly the difficulty I referred to in my report. The statement may be seen by anyone who cares to consult it, but the point at issue is not important.

should be retained, are there too many small classes in the Milton High School?" His answer was "No." I had Mr. Ballou's report early in the investigation and have included his data and his conclusions in Section V of my report. It was evident that the premises on which I had instructed Mr. Ballou to examine the classes involved further questions which I ought to consider. Organized as they were, the Milton High School courses did necessitate many small classes. I therefore inquired whether the organization was itself justifiable.

(4) The Committee obscures entirely the point of my discussion of the vocational program of the school. I made no statement that Milton offers *complete* trade training. The questions at issue are simple: (a) "Ought Milton to offer *any* training in a definite occupation or industry?" (b) "If so, how can the Town determine which occupations to train for?" (c) "How can that training best be given?"

The course in printing may be taken as an example: If that course does not train printers—*not completely, but directly so far as it goes*—it ought not to be given as a *separate course* in the High School at all. The statements quoted from Mr. Jacoby's official announcement (page 56 of my report) show that it is intended and advertised as training *in printing*. Mr. Lane's report shows that it is not so organized as to permit effective training for the actual trade. If there is a real need for a course in printing (which is doubtful, see my report, page 56), that fact can be discovered by the right sort of inquiry, which my report describes. The question as to where and how such training should be provided still remains. It would be much better to pay the tuition of Milton pupils in a good school of printing outside the Town than to give such instructions in printing in the High School as can be given under the present arrangements.

The Printing Course as it is now organized cannot serve as trade instruction despite the interest and good will of the teacher. If it is meant to serve the aim vaguely set forth on page 8 of the School Committee's reply, another kind of training (not in printing alone, nor in any special industry) will accomplish the purpose much more effectively.

The following paragraphs from the report of Dean Herman Schneider of the College of Engineering, University of Cincinnati, made to Professor Hanus as part of the New York Inquiry, define pre-vocational instruction. This definition is set forth in substance on page 75 of my report and has apparently been ignored by the School Committee:

"Pre-vocational Schools.—By a pre-vocational school is meant an industrial all-day school (or course) embracing as wide a range as possible of different types of occupations, with the school work arranged so that pupils can obtain acquaintance with the various occupations, and so that the teachers may observe their predilections and abilities. A high degree of manual dexterity, in any one particular occupation, is not striven for. An effort is made to ascertain the particular type of work for which the pupil is adapted, and to bring his or her skill to the point where a successful beginning of an apprenticeship is possible. These schools should formulate a broad curriculum of doing and thinking for up-building physically, energizing mentally, for ascertaining the natural bent of a student, acquainting him with the character of work available in industry, uncovering his limitations and defects of mind and body, and giving opportunity for the discovery of exceptional talents."

In other words, pre-vocational work should give a boy a general survey of a number of good trades open to him. It should test his capacity in various directions, and thus

enable him to choose with some degree of intelligence what occupation he prefers; as such it does not invite him to specialize in one direction, as does vocational training, but gives him a taste of various trades. It is recommended in Dean Schneider's report for boys of sixteen and younger—sixteen being the minimum age for entry into certain skilled trades. It is designed to catch and keep in school boys (and girls) who leave school because "book work" is distasteful, and it would therefore be started as near as practicable to the point where they begin to leave, that is, as near as practicable to the sixth grade.

The exact arrangement of study in a pre-vocational course should be carefully worked out after full investigation of the number and character of the pupils who would probably resort to it and of the trades they can best be fitted for in subsequent trade courses. No School Committee should institute pre-vocational courses without consulting the best authorities available. Mr. C. A. Prosser, Secretary of the National Society for the Promotion of Vocational Education, is to give a course in this field as part of the offering in the Division of Education in the Harvard Summer School: he would doubtless answer any inquiry as to the best arrangement of pre-vocational work.

Milton does not now offer this kind of training in an effective form. Its vocational courses are organized as weak trade courses with an accompaniment of "liberal studies," unrelated and distracting.

The "expansion" of the Manual Arts and Household Arts Courses referred to by Superintendent Marsh as "rather modest" is in fact expensive, and not as effective as a real pre-vocational course would undoubtedly be.

May I reiterate here emphatically my recommendation that this array of two year and four year courses

in definite occupations be dropped? If the Milton School does not intend to train for trades (see page 8 of the School Committee's reply) it ought not to advertise training by trade names nor continue to give any training, however preliminary, in special processes of industry without actual connection with or effective reference to the conditions of such industry.

The Committee implies that my report recommended confining "the studies to the narrow curriculum of a past generation." No such recommendation was made. I recommended only a real and effective study of the problem of vocational education in Milton. I suggested the kind of inquiry desirable and the kind of courses which should be considered. Despite these recommendations, the committee has not seen fit to study the question more intensively or to seek other advice.

I have confidence that any competent authority would advise the Milton Committee to abolish the separately organized courses in special forms of industry which it now maintains, and to substitute for them a genuine pre-vocational course. Whether genuine trade instruction should be given in Milton is another question. The present courses are neither one thing nor the other.

Very sincerely yours,

HENRY W. HOLMES.

REPORT OF COMMITTEE UPON TOWN HALL FACILITIES

MILTON, MASS., December 24, 1913.

*To the Board of Selectmen and Members of the Warrant
Committee of the Town of Milton:*

GENTLEMEN:—At the March, 1913, Town Meeting the following Resolution was adopted:

Resolved: That the Moderator appoint a committee of five citizens to study and report upon Town Hall facilities. Such report to be submitted, in writing, to the Selectmen and Warrant Committee not later than January 1, 1914.

Under this Resolution the Moderator appointed as a committee, Jessie B. Baxter, Philip S. Dalton, Wm. B. Thurber, Arthur H. Tucker, Charles W. Whittier.

The committee organized by the choice of Wm. B. Thurber as Chairman and Jesse B. Baxter as Secretary, and submits the following report:

Our present Town Hall was erected in 1878. At that time Milton had a population of approximately 3,000; a valuation of \$8,000,000, and a list of registered voters of less than 600. To-day Milton has a population of over 8,000; a valuation of nearly \$30,000,000, and the number of registered voters is 1,731. The Town has, therefore, nearly tripled its population, correspondingly increased its registration, and nearly quadrupled its valuation, since the Town Hall was built thirty-five years ago. With the growth of the Town has come not only an increase in departmental work, but also the establishment of new and important departments. Since 1878 departments have been created as follows: The Sewer Department, Water

Department, Board of Health, Board of Assessors, Overseers of the Poor, Tree Warden, and Park Commission; and also the specialization of work has required the appointment of other new officers, such as Inspector of Wires, Inspector of Buildings, Inspector of Plumbing, Superintendent of Streets, etc. In figures, the increase in the Town business is shown by the statement that in 1878 the total appropriation at the March Meeting was \$63,000, and in March, 1913, the total appropriation was \$343,000. But the foregoing figures and the establishment of new departments do not alone tell the story of the increase in the Town business. With the growth have come new relations with adjoining municipalities, and a multiplicity of municipal laws and regulations. Any citizen who follows the legislative enactments relative to towns in the metropolitan district will realize how much more involved town administration has become in late years. Consider too, the recent problems which have presented themselves in some of the departments—the present problems of Road Construction and Maintenance; the radical changes and development in the work of the Poor Department and the Health Department; the growth of the Sewerage System; the steady development of the Water Supply—surely it is clearly evident that the administrative and clerical work of the Town to-day much exceeds what might be considered the normal increase as indicated by the growth of the Town in population.

Notwithstanding this growth, the Town Hall remains to-day practically as it was built in 1878. Naturally enough it fails now to furnish adequate office facilities for the work of its officers, just as it fails now to furnish adequate hall facilities for the use of its citizens in "Town Meeting assembled." Your committee claims no originality for discovering these facts. They have been evi-

dent for many years. We wish to emphasize them and suggest a solution of the difficulties; nor are we the first committee to undertake this work. In the "History of Milton," published in 1887, on page 289, describing the dedication of the Town Hall, is found this statement: "Its solid walls, heavy roof trusses and general aspect of completeness and durability seem to indicate that it was planned to last, and to meet the wants of the Town for a century to come; but the crowds of voters that already fill the seats and pack the aisles at our March Meetings plainly show that the projectors of this model Town Hall made at least one mistake." A few years later, a committee was appointed to report upon the advisability of increasing the Town Hall facilities, and still more recently, in 1903, the Selectmen, as a special committee, were requested to prepare a similar report. This report recommended that the present building be enlarged, but the Town took no further action. The crowded and unsatisfactory conditions at the March Meetings the past two years, and the entirely inadequate office facilities emphasize anew the needs of a more ample and better arranged building for the transaction of the Town's business. Your committee, therefore, unanimously recommends that a Town Hall be now provided amply adequate for the Town's requirements.

A study of the Town's requirements convinces us that it would not be wise to provide for a main hall with less than 1,000 seating capacity on the floor, and with the detail of construction so that, as the Town grows, more space can be provided. To meet the demand for a smaller Assembly Hall, there should be a second hall, corresponding to our present small hall. To provide for the executive work of the Town there should be in the office portion of the building at least ten offices, with at least one committee room, and space for additional offices in the

future. Starting with these three fundamental requirements your committee first endeavored to work out a satisfactory solution of the problem by enlarging the present building. After careful study of the conditions, however, we became convinced that to follow the lines of the existing building would prevent the construction of a really satisfactory Town Hall, and that, when completed, it would be the unsatisfactory story of trying to adapt an old building to meet new conditions—where the new conditions vary widely in detail from the conditions under which the original building was built. Our recommendation is that the present building be taken down, and a new first-class, substantially fireproof building be erected in its place. We have considered the question of leaving the present building for the future uses of the Town, and erecting a new building on some lot of land in the vicinity, but it seems to us that this is inadvisable, as the uses to which the present building might be put in the future are very indefinite, and, furthermore, from the artistic and historical points of view, we believe the location of the present building is pre-eminently best for the new building.

In order to present our recommendations in concrete form, we have had plans drawn embodying our ideas of a new Town Hall building, and submit a copy of these plans with this report. We have employed as architects to assist us in our study of the problem the firm of Parker, Thomas & Rice of 110 State St., Boston, and their co-operation and work have been most satisfactory to your committee.

We favor a building of the Colonial type of architecture, using red brick on the exterior walls with stone trimmings and a slate roof. The interior of the building should be simple, and of essentially durable materials, to keep the maintenance cost at a minimum. The front of

the building is planned to face Canton Avenue, the building to be placed so that its front line would about coincide with the front of the present building. On the first floor are the main hall, coat rooms, dressing rooms, corridors and approaches to the stairways to the balcony and assembly hall, and also the stairways to the basement. At the farther end of the main hall is a well-equipped stage. Beyond the back wall of the stage is the office section of the building, effectively separated from the main hall and stage by a fireproof and sound-proof wall. In this office section are not only suitable office rooms and committee rooms, but ample vault space for the various departments. In the basement of the building are the boilers, ventilating fans, air ducts, etc., and also a kitchen and banquet hall, with suitable dressing rooms. Besides the main entrance facing Canton Avenue, an entrance is planned at either end of the office building. Corridors along either side of the main hall with suitable exits provide for quick departure from the building, in case of emergency.

A building embodying these essentials would measure 100 feet in width on the front and about 180 feet in depth. Our present building measures 80 feet on the front and is 90 feet deep. The proposed building figures about $2\frac{1}{2}$ times the cubic capacity of our present building. From careful calculations, and from comparison with the expense of similar buildings, we believe that the cost of such a building as we have outlined will be approximately \$225,000. It must be carefully borne in mind, however, that until detailed plans and specifications are prepared and competition bids obtained, no exact figure of the cost can be given. To carry the work into such detail will require an appropriation of money and further work by your committee. Our conviction is strong that the work should be carried forward without delay. We shall,

therefore, ask that an article be inserted in the Warrant for the March, 1914, Meeting, and hope that under this article the citizens will continue our committee, with an appropriation sufficient to develop the plans already begun, obtain competitive bids, and submit the whole proposition to the Town for further action at some later meeting.

WM. B. THURBER, *Secretary*,
JESSE B. BAXTER, *Chairman*,
PHILIP S. DALTON,
ARTHUR H. TUCKER,
CHARLES W. WHITTIER,
Town Hall Committee.

EXERCISES

AT THE

250th

Anniversary *of the* Incorporation

OF THE

Town of Milton

MASSACHUSETTS

COMPILED BY THE
COMMITTEE IN CHARGE

EXERCISES AT THE TWO HUNDRED AND FIFTIETH ANNIVERSARY OF THE INCORPORATION OF THE TOWN OF MILTON

INTRODUCTORY

At the Annual Town Meeting of Milton, held 6th March, 1911, under Article 49, "To see what action the Town will take toward celebrating in 1912 the 250th Anniversary of its incorporation, and what sum of money it will appropriate therefor," it was

Voted—"That a committee of five be appointed by the Moderator to consider the matter of celebrating the 250th Anniversary of the Town's incorporation and arrange plans for the same, but that no appropriation be made at this meeting."

Committee appointed: Nathaniel T. Kidder, John Alden Lee, Freeland D. Leslie, Arthur H. Tucker, Andrew H. Ward.

This Committee reported at the Annual Town Meeting, 4th March, 1912, unanimously favoring as the main observance of the Anniversary, the acquisition of "Turner's Pond" and certain lands adjacent as a public park; also that the day be marked by sports and literary exercises of a simple nature. The recommendation for a park was not accepted by the Town.

Under an Article of the Warrant for the same meeting, reading, "Article 53, To see what action the Town will take to provide suitable observance of the 250th Anniversary of the incorporation of the Town, and appropriate money for the same," it was

Voted—"That the sum of \$1,000 be appropriated for the celebration of the 250th Anniversary of the incorporation of the Town, said sum to be expended under the direction of a committee of five citizens to be appointed by the Moderator to provide a suitable celebration."

The same Committee appointed under the article of the previous year was reappointed.

On the 11th June, 1912, the Anniversary was celebrated. The literary exercises as well as the sports were all out of doors. A stage was put up for the occasion, decorated with bunting, against the easterly side of the meeting house of the First Congregational Church, and chairs were arranged in sweeping

lines on the rising ground under the trees. No official invitations were sent out, and the entries for the sports were limited to Milton residents. The weather was perfect.

The literary exercises are in this report given first, and the various other details of the observance of the day will be found in appendices to the addresses.

The program was as follows:

250TH ANNIVERSARY OF MILTON

CONDENSED PROGRAM OF EVENTS

Tuesday, June 11, 1912

AT CUNNINGHAM PARK

9.30 A.M. Track and Field Sports.

11.00 A.M. Gymkhana on Horseback.

Band Music During the Morning

2.00 P.M. Tennis Finals.

2.00 P.M. Baseball—E. Milton *vs.* Mattapan.

2.00 P.M. Baseball—Junior League Game.

AT BROOK ROAD PLAYGROUND

2.00 P.M. Baseball—Milton High School *vs.* Milton Academy.

AT THE CENTRE

3.30 P.M. Reception by the Woman's Club begins.

5.00 P.M. Literary Exercises.

PRAYER Rev. Roderick Stebbins

SALUTING OF THE FLAG,

Under the auspices of the Woman's Relief Corps

SONG, "Summer Is a Coming In,"

Milton Education Society Chorus

ADDRESSES,

Mr. Nathaniel T. Kidder, *Chairman Anniversary Committee*

Mr. Philip S. Dalton, *Chairman Board of Selectmen*

SONG, "Centennial Hymn" Chorus

ORATION Mr. Charles S. Rackemann

SONG, "To Thee O Country!" Chorus

POEM Mr. Wm. L. W. Field

SONG, "Keller's American Hymn" Chorus

8.00 to 10.00 P.M. Band Concert and Illumination.

8.30 P.M. Drill by the Sons of Veterans.

9.00 A.M. to 10.00 P.M. Exhibition at the Milton High School, representing work of all the classes and grades, including vocational work.

A caterer will have refreshments on sale in the morning at Cunningham Park, and in the late afternoon at the Centre after the literary exercises.

Special souvenir plates are on sale at the Blue Hill National Bank, and at the Public Library and its branches. On the day of June 11 the plates will be on sale at the Milton High School.

The Committee urges all citizens who can do so to observe this Anniversary as a holiday, to close their places of business and to display the national flag.

There will be a union service at the First Parish Church at 10.30 o'clock on Sunday morning, June 9.

NATHANIEL T. KIDDER,
JOHN ALDEN LEE,
FREELAND D. LESLIE,
ARTHUR H. TUCKER,
ANDREW H. WARD,
Anniversary Committee.

LITERARY EXERCISES

At the Centre the exercises began at 5 o'clock and were opened with prayer by Rev. Roderick Stebbins.

ADDRESS OF NATHANIEL T. KIDDER, CHAIRMAN OF THE ANNIVERSARY COMMITTEE

It seems to be rather an unfortunate arrangement of the program that I am expected to say a few words. I want to say these chiefly for the Committee, because I do not wish you to think that it is entirely from my own choice that I take your time.

I want to say something of the Committee's work. We began not so very long ago on the plans for this occasion, and it was very difficult to know just how much enthusiasm there was going to be in the Town; had we realized that there was going to be as much enthusiasm as has been developed, I think we should have worked with even keener zest. We were proud of the honor conferred upon us in being allowed to prepare for this Anniversary.

One of our first ideas was to ask everyone, by special invitation, who had any association with Milton, but who had left Milton. Our feeling, however, when we came to consider it was, that it would be so difficult to remember all whom we ought to ask, it was better to limit the celebration to the actual townspeople themselves, and let it be generally understood in the Town, that everyone was looked for and hoped for on this occasion.

I say this to explain why we did not make our plans of wider

scope. One of the greatest difficulties of such an observance as this is in connection with the sports. We felt that it was hardly fair of us to ask other towns to send in their baseball nines, etc., for the reason that this is Milton's holiday and not the holiday of other towns.

Perhaps our plan has been too modest, but we believed that Milton wanted a quiet, modest day.

Any remarks that I might make in regard to the weather seem to be absolutely unnecessary.

Some suggestion was made that the people who were here fifty years ago be especially noticed, but I think the Committee felt that they did not care to separate families, and also they thought that there might be instances where people would not like to have special attention called to the fact that they were present at the celebration fifty years ago.

Now such an event as this calls our attention especially to the brilliant lights of history, but I want to call your attention to the fact that history is not all made up of brilliant lights.

The first rule on shipboard is obedience to the captain; one cannot go on board of a ship and take command without a long course of training in details and obedience. And this is true along all lines, that of architect, carpenter, builder, etc. Some go out and build a new country as did the early settlers here, but how many of those people are actually remembered in history to-day? Some of the names are blazoned on the pages of history, but think of those whose names are not! Those of us must not be discouraged who stay at home and oil the machinery. I want to call to your attention to-day that the great are not only to be found amongst the illustrious, but they are sometimes doing the most humble work.

Greatness is not always gaining a victory amidst the blare of trumpets; it is not winning a place on the first page of the newspapers, neither is it the acquisition of wealth that constitutes greatness. Greatness is rather doing one's best, steadily, patiently year after year, and holding up one's end in spite of every discouragement, and in the most tiresome routine. Thus is history made. Others here will give you a more glowing account of it, and will show you some of the high lights along the road.

Each one of us has a duty to perform, to do his best. We must all pull together and trust that the 300th Anniversary will show a continuance of accomplishment.

ADDRESS OF PHILIP S. DALTON, CHAIRMAN OF
SELECTMEN

As citizens of Milton we meet here to-day to commemorate the 250th Anniversary of our Town. For to-day, at least, we are all, by birth or adoption, citizens of Milton, one of the

oldest and most respected towns of our country. To this historic and venerable Town, your old or your present home, you have come to renew your allegiance and devotion.

On behalf of the Town I greet you and cordially welcome you.

The interest which every citizen takes in his town, his pride in its history, his willingness to serve it, are the qualities which lie at the foundation of that patriotism which is the vital power of our state and country. The great future of this country rests upon the intelligent self-control and loyalty of its people in local centers such as our own. Our form of town government has been justly described by Mr. John Fiske, when he says it is the most perfect exhibition of what President Lincoln called—“A government of the people, by the people and for the people.” It is the simplest and truest form of democracy, for it deals with the local questions with a straightforwardness and vigor which is impossible in any other form of government. Every citizen speaks on equal footing with every other, and gives an equal vote. This has engendered a vigorous public spirit, resulting in solidifying the whole for the common good.

But to insure the wise and careful administration of the Town, every citizen should be willing and glad to take his part in the work, and to put into it the greatest intelligence of which he is capable.

With just pride we can look upon the good sense and solid character of our citizens who have numbered amongst them many men of wide fame in the commercial, industrial and legal world. Our public institutions have been carefully planned and wisely administered. The demands of increasing population upon our many departments have been met with intelligence and efficiency, with the result that we stand to-day, one of the foremost towns of this Commonwealth, widely known as a live, active and vital section, with the best American instincts for good and for progress.

In our political controversies there has been continuity of high principles and the Town is noted for its prudence and deliberate action. It has always voted for the support of the government and honest conduct of state affairs. We have inherited these qualities from the sturdy examples of our forefathers, from those illustrious, unselfish and honorable men who have built and maintained our form of government, have been the founders of our educational and benevolent institutions, and have left the imprint of their strength on every side. The same spirit of loyalty to their country which brought instant response to the call to arms in times of war, showed itself in their desire to build up and maintain an honorable society in this Town, to provide proper education for their children, and protection for their homes.

The history of these men and their achievements I shall leave to the gentlemen who will follow me, but, ladies and gentlemen, it is to them that we owe our present happiness and peace. Our children can get no better help or strength than in the remembrance that they are of the blood of the invincible men of old.

The present and future generations must see to it that the separate municipal and social life, which has given this Town her character and history, is kept intact—that the neighboring city does not engulf her—and that sectional differences, nationality or creed do not stand in the way of peaceful and intelligent adjustment of her affairs, so that this Town will preserve for a long and indefinite future her ancient and distinct qualities.

On this Anniversary it is natural to make a comparison between the present Milton and the Milton of former days. I ask you older men, who have come back, to say in what respect there has been a failure of duty by our citizens in the past. To you younger men, who will so soon take the work and welfare of this Town in your keeping I would impress upon your minds the importance of seeing to it that Milton gains in your hands, new and added renown. It is the young men to whom we must look for the future safe-keeping of our Town. Those who have gone, have taught us the high standard of civic duty, love of order, prudence and public spirit. Let those who are to come take due heed of their teachings, for, as President Lowell of Harvard said:

“When young men see visions, old men’s dreams come true.”

ADDRESS OF CHARLES SEDGWICK RACKEMANN, A. M.

To study and reflect upon the history of the past is an agreeable and helpful pleasure; to observe the people and the happenings of the present is a constant occupation, of mingled joy and pain, hope and disappointment, realization and failure, but still an essential part of the scheme of life, while to record our observations for the pleasure and benefit of posterity is a solemn duty.

The study and the writing of history have each a peculiar fascination for the human mind, not less so in their way than the arts of painting, sculpture and music.

Granted that literature is art, for which there seems to be ample authority, we may place history itself, which is one of the more important departments of literature, in the realm of art, and having thus dignified it proceed to consider its value and importance.

The peculiar reasons why our people should give heed to historical matters are most admirably stated in the Intro-

ductory address from the Massachusetts Historical Society to the public, issued in 1792, and printed in Volume I of the Society's proceedings, as follows:

" Among the singular advantages, which are enjoyed by the people of the United States, none is more conspicuous than the facility of tracing the origin and progress of our several plantations.

"Derived from nations in which the means of literary improvement were familiar, we are able to ascertain with precision many circumstances, the knowledge of which must have been either disfigured or lost among a people rude and unlettered.

"With such advantages in our hands, we are wholly inexcusable if we neglect to preserve authentic monuments of every memorable occurrence. Not only names, dates and facts may be thus handed down to posterity; but principles and reasonings, causes and consequences, with the manner of their operation and their various connexions may enter into the mass of historical information."

The works of Governor Winthrop and Mr. Hubbard of Ipswich and Governor Hutchinson in this connection are referred to with approbation. The vast number of historical societies, and the importance and value of the numerous collections of articles of historic interest, the many libraries which are either wholly or in great part devoted to the particular records of our own people and our own territory, all which have come into being in response to the influence or charm which these matters exert over our minds, afford the most ample and convincing proof that we are swayed by the arguments alluded to in the address and fully ready to do our part in respect thereto. This is indeed to understand and apply the philosophy of history.

And we should, therefore, welcome every occasion upon which it becomes peculiarly fitting that we should review what has been done, and gratefully reflect upon those possibilities which have caused so many things to be done well.

It is certainly true that we are all glad to gather together for this purpose on this 250th Anniversary of the incorporation of the Town of Milton.

The favorable situation of Milton among all the numerous cities and towns which go to make the neighborhood important and attractive, is very noticeable.

Placed between the tidal Neponset, with its falls and picturesque salt marshes on the east, and the Blue Hills on the south, and fringed by the same river on the north and west, it has great variety of scenery and great diversity of soil and physical characteristics.

Charles Eliot after studying the features of Milton which he thought qualified it to become a part of the Metropolitan System of Parks, said of the Neponset, "At length, with a rush

between two great brick chocolate mills, the fresh water river makes a sudden turn, and, sweeping around a last pine-clad point, flows out to join the tide of the salt marshes. Just here is one of the most picturesque spots in the whole neighborhood of Boston, and one which well illustrates the fact that the evidences of human industry, such as the wharves, sheds and schooners, which here are mixed with trees and rocks, may often be very helpful to the effectiveness of scenery."

The Blue Hills have been styled by Chamberlain as the Mountains of Eastern Massachusetts, and it is from them that the whole Commonwealth takes its name.

Great Blue Hill is the highest point within equal distance from the sea between Agamenticus in Maine, and the Rio Grande River on the Mexican border. Chamberlain records that from its summit he could identify 125 towns, more than one-third of all the places in the state.

"To him who in the love of Nature, holds communion with her visible forms she speaks a various language," and the true worshipper of Nature and the beautiful can always find here spread before him all the pleasures of hill and plain, forest, lake and stream.

The existence of the river is what caused the original settlement of the Town, for from the time when Myles Standish, the first white man to stand on Milton Hill, looked out upon the beautiful prospect there unfolded to his gaze, the Unquity of the Indians was destined to become the Lower Mills of the pale faces.

And from the day when Kitchamakin, the Indian Chief, made his deed to the original settlers, in 1640, to the present time, Milton has been the scene of the stirring and beneficent activities of a higher civilization, slow of growth at times, to be sure, and the home of a serious, energetic and industrious Christian race.

The first ships built by the Colonists were constructed and launched at Gulliver's Creek, and ever since that time the Town has been distinguished for the variety and importance of first things which it has produced, noticeable among them being the first pianoforte made in America.

To the student of Milton history, nothing is more amazing than the abundance and richness of material which goes to make it up. So active have its people been from the very earliest days, both with their brains and their bodies, that it seems as if few places could have had richer or more varied experiences, or have been greatly more concerned with events of importance to the generations in which they occurred and to all future posterity. Indeed, it seems as if Milton had been chosen, in the old Scriptural sense, to be the scene of many noteworthy and interesting episodes in local history. The great

number of men of ideas who have grown up here, or have been sojourners here in later life, and who have contributed to the improvement of the material condition of man, to his spiritual and moral uplift, and the development of his intellect, make us to realize that the earth, as well as the heavens, may "declare the glory of God."

Notwithstanding that a few of the Pilgrims had been in Milton as early as 1621 it was not until 1630 that the first real settlements were made here, and these were by the Puritans of Dorchester.

The first grantee of record was Israel Stoughton, in 1633.

At that time and for a long period afterwards, the Town and the parish were the same. This matter was determined by the Supreme Judicial Court in cases arising in Dedham, and the rule was applied in the Milton Church case later.

The Dorchester people had discovered the value of the water-power in the Neponset, and consequently settled there, and soon after realized that it was too far away from the church for comfort or convenience. The inevitable result was that the Milton territory became separated politically as well as geographically, taking its name from Milton in England; and it is in honor of that occasion that this assemblage has met.

Fortunate in its position, fortunate also in its possession of forests, quarries, fertile fields, good pastures and abundant water-power, and with a frontage on the sea, Milton has nevertheless been most fortunate of all in the character of its citizens.

Coming from the same stock and the same surroundings and influences from which the pilgrim fathers sprung, the first citizens of our Town were strong in the possession and exercise of those beliefs, customs and virtues which so markedly distinguished the dissenters of their age.

All the colonists of that time were imbued by the spirit of the signers of the covenant in the cabin of the *Mayflower*.

Here is the verbal expression of that spirit in its essence.

The undersigned, etc. . . . "having undertaken for ye glorie of God, the advancemente of ye Christian faith & honor of our King & countrie, a voyage to plant ye first colonie in ye Northerne parts of Virginia, doe by these presents solemnly and mutually in ye presence of God, and one of another, covenant & combine ourselves together into a civil body politick, for our better ordering & preservation & furtherance of ye ends aforesaid; and by virtue hereof to enacte, constitute, and frame such just & equall laws, ordinances, acts, constitutions & offices, from time to time, as shall be thought most meete & convenient for ye general good of ye colonie, unto which we promise all due submission and obedience."

And when, one hundred and fifty-four years later, after many vicissitudes and the settlement of much territory and the devel-

opment of many material resources, and the establishment of commerce, the growth of ideas, and the swelling of the population made the yoke of the British government to gall their shoulders, they undertook to express their feelings and beliefs and avow their purposes for the future, they showed the same sort of spirit, the same strength of faith, the same desire to put on the "whole armor of God."

In 1774, on the 6th of September, at which time Suffolk County included the whole of what is now Norfolk, as well as what now remains in Suffolk, sixty delegates from the whole territory assembled in Dedham, and a large committee was appointed to draw up suitable resolutions with respect to the condition of the colonies. General Joseph Warren was made chairman, and by adjournment the delegates convened again in Milton on the 9th of September.

Those portions of the resolutions then adopted which most interest us, read as follows:

2. "That it is an indispensable duty which we owe to God, our country, ourselves, and our posterity, by all lawful ways and means in our power, to maintain, defend and preserve these civil and religious rights and liberties for which many of our fathers fought, bled and died, and to hand them down entire to future generations."

And again in defining more exactly their own proper conduct, they determined "by a steady, manly, uniform and persevering opposition to convince our enemies, that in a contest so important, in a cause so solemn, our conduct shall be such as shall merit the approbation of the wise, and the admiration of the brave and free of every age and of every country."

The first great man to live in Milton, though he was not born here, was Rev. Peter Thacher, the first minister.

Happily for us and all posterity his journal has been preserved. It reveals a most interesting and lovable character, a man of ability and zeal, and of great Christian power.

Dr. Morison, whom many of those here present knew well, said of him, in speaking of the history of the First Parish Church:

"The pastors of this church, from the beginning, were men of gentle, benignant characters. Peter Thacher, who lived near the brook, perhaps a third of a mile back from the spot where we now are, was a man whose daily walk with God was shown more in the graces and charities of a Christian life than in the severe teachings of a harsh and ungracious theology. He was the son of a Christian minister, and the father almost of a race of ministers, some of them distinguished for intelligence and wit, but upon the whole characterized by a winning gentleness of speech and of life.

"I love to think of this good man, forty-seven years the minister of Christ in this Town, in simplicity and Godly sincerity, having his conversations among his people, preaching and praying and living among them, and for them, burying all the first generation of settlers and almost all of their children—till at length having grown old in their service he appeared for the last time in the church."

Thacher was the most remarkable of the early citizens of Milton. He was minister, physician, neighbor and friend to all. He kept a journal which is often quoted, and which shows in the most interesting manner the simplicity of the life of his time, and the detail of what absorbed his time and attention. It is entertaining and instructive reading.

As has been already indicated, the annals of Milton are rich in material of historic value and interest. And its chroniclers have been happy in their records, so that its historians have found the material ready at hand and have been charged only with its orderly arrangement and its agreeable form. Very impressive is the total of all this when passed in review. But for lack of time we are compelled to forego that pleasure to-day. An attempt has been made, however, to mention everything of importance in a bibliography, and in notes, to be appended.

When the 200th Anniversary of the incorporation of the Town was observed, the Hon. James Murray Robbins made a most interesting address, and revealed the fact that he was master of the history of the Town and its people.

As a result he was later put upon a committee appointed by the Town to make a complete and systematic record for publication. He died before the work was finished, but we shall be forever indebted to him for the industry and zeal with which he collected and arranged material and wrote biographies.

In a memorial of Mr. Robbins by Governor Wolcott, it is said:

"With him disappeared the family name, which for one hundred and thirty-five years had been held in respect and affection by his fellow-townsmen."

The labors of this committee were finished and the book published in 1887, and, without being invidious, it is fair to say that to Mr. Robbins and to the Rev. Dr. Albert K. Teele, the editor, the chief credit is due.

Indeed, to Dr. Teele, who took the laboring oar, it is most fitting that we should pay our tribute of respect and gratitude. His work was thoroughly well done; his accuracy, his careful search for material, his good judgment, his touches of humor and pathos, and the self-evident fact, revealed in place after place, that the whole great work was largely a labor of love—all these cause a feeling of admiration for his scholarly methods

and his loyal interest in his town and its people. It is a pleasure to record that a memoir of Dr. Teele was made some time ago by his friend, Dr. Henry S. Huntington.

At the time of the bicentennial, Dr. Morison preached two remarkable sermons, from the first of which we have already quoted, and in the second he made a beautiful tribute to the lives and character of the women of Milton, the wives, the mothers, daughters, sisters of Milton, through all its history.

When the First Congregational Society had existed two hundred years, Dr. Frothingham preached an historical discourse, showing why and how the First Evangelical Society became an offshoot from the older church, and expounding the historical and ecclesiastical features of the episode.

A great change came in 1879, when the new Town House was built and its completion celebrated. The Hon. Edward L. Pierce made the address, and reviewed with all his skill and care certain aspects of our history, and the conditions of our life, and the straightforward methods of our people.

He said:

"The New England town has been the study of our thoughtful statesmen, and it has attracted the attention of foreign observers. It is the opposite of the system of centralization which, refusing the people of each district or subdivision of the state the direction of what immediately concerns them, lodges all power in a central administration. It is thus broadly distinguished from the municipal institutions of France, which are subject to the central will at Paris, whether imperial or republican. It is also, within its defined limits, the simplest and purest democracy."

And again:

"In political controversies the voice of the Town has been steadily for freedom, for the support of the government, and the honest administration of state affairs. In commemoration of the ratification of Jay's Treaty, by which Washington upheld against clamor the peace of the country, an arch was erected over the bridge at the Lower Mills, at the instance of Capt. John Lillie, an officer of the Army of the Revolution, then a citizen of the place, which bore this inscription:

'We unite in defense of our Country and its Laws,'—a resolution to which the Town, and may I be permitted to add, his descendants, have ever since been loyal."

Varied and rich as our history was prior to 1887, when Dr. Teele's work appeared, it has abated nothing in interest since that time, albeit there may be something lacking of the picturesque and personal flavor of the older periods.

But in this material age the extraordinary developments of civilized life, with all its complications, have so enlarged the categories of comforts, necessities, luxuries and amusements,

that the mere enumeration of them is appalling. In this Town we have had our full share, and yet everything that has come to us has been obtained with the approval of the citizens and at no extravagant cost.

When we reflect that only twenty-five years have passed since the history was published, and that in that space our citizens have been given the public supply of pure water, the electric cars, on various lines, the public lighting of streets at night, a first-rate fire department, excellent and efficient police service, the development of new streets, parks and playgrounds, several new school buildings, participation in the Metropolitan Park System, a most successful savings bank, and perhaps best of all, the new library building, with Kidder Hall for exhibitions and meetings, we realize that we are keeping well abreast of the times, and that our Town officers, and many of our citizens, by serving on committees or otherwise, and always actuated by public spirit and sense of duty, have been true to those ideals of development and progress which are so much prized by us all.

In educational matters Milton has always stood high, and the Academy which was founded in 1798 by the Hon. Edward Hutchinson Robbins is in the front rank of preparatory schools for Harvard and other universities. In connection with it we should not forget that it has already had its centennial, and may also refer with satisfaction to the address upon the founder by Archibald M. Howe, Esq., delivered at the Academy in 1909, which has already been printed.*

Our public schools here are among the best in the country. The school buildings are all that can be desired, especially the newer ones, and the standards of teaching and instruction are lofty. We have been most fortunate in our superintendents. The special reports issued by the School Committee annually are of great value, and make interesting reading, which should be availed of by all our people.

The establishments of the Historical Society, the Education Society, and the Woman's Club serve as permanent landmarks in the march of progress, in various ways, and while we may not here review their work, we can at least gratefully recognize them as permanent and welcome factors in all that goes to improve our minds, add to our stock of knowledge and afford wholesome entertainment.

Kidder House and the Convalescent Home must by all means be included in our list of permanent benefactions—by no means forgetting Cunningham Park.

We may note also two social organizations, the Milton Club, and the Hoosic-Whisick Club, which began its existence in this Town on that beautiful lake of the same name, bestowed upon it by the Indians, and signifying "By the pine grove."

*In the *Milton Record*, 20, 27 July and 3 August, 1912.

When the Houghton Farm, from which the same lake took its English name of Houghton's Pond, was included in the Metropolitan Park System, this club moved to a new home on Ponkapoag Brook in Canton.

Milton now has seven churches, the first of the Episcopal denomination, St. Michael's on Randolph Avenue, having been recently built. There has always been a true interest in the church in this Town. We remember how that interest was alive in the early settlers.

Cotton Mather wrote in his diary, "G. D. A religious Society of Young Men, at Milton, having desired me to accompany with a preface, a sermon of their pastor's to them, which they are publishing, it gives me an opportunity to address them, and other such societies, on points of the greatest Importance in the World."*

And we have seen how frequently upon occasions of moment or of historical importance special sermons were preached.

In this connection the dedication of the First Evangelical Society in 1834 (December 7) may be recalled, when Rev. Samuel Gile preached. A program of the service has been preserved.

And when Dr. Teele had been twenty-five years the minister he preached an anniversary sermon.

In the First Church four memorial tablets have been set up, and when these were presented, Mr. Stebbins preached a memorial sermon to Joseph Angier, Francis T. Washburn, John H. Morison and Frederick Frothingham.

Deacon John A. Tucker has made very valuable contributions to our historical records, and his notes upon the families of Wadsworth, Houghton and Sumner (1904), as well as "The Meeting House, the Minister and the Parsonage of Milton, Mass., two hundred years ago" (1905), and "The first four Meeting Houses of Milton, Mass.," and other recent articles, have placed us under lasting obligations.

Milton has had four Governors as citizens or sojourners and landowners within her borders. Governor Belcher lived here upon his farm. Governor Hutchinson had his home here, and the beautiful field on Milton Hill which bears his name will forever serve to keep his memory fresh and green like itself.

John Hancock, one of the most picturesque figures in American politics, had his farm on the south side of the hill which is named for him; and Governor Wolcott spent a large part of his life in our town. A goodly part of his estate passed into the Blue Hills Reservation, and one of the hills is named for him. And now a Milton boy, William Cameron Forbes, is serving nobly as Governor-General of the Philippine Islands.

*Mass. Hist. Socy. Coll. 7th Ser. Vol. VIII, p. 200.

The necrology of the past quarter century makes sad and solemn reading. The great number of citizens of prominence who have passed from our ken is very striking. It would be fitting and agreeable to speak of them all in grateful remembrance of our friendship and intercourse with them, but we cannot do so now.

We may, however, bespeak for those who have not yet had their written memorials made, the careful and sympathetic attention of future historians. (See Appendix.) Their biographies should be written early.

We need more visible memorials in the Town, and since we now have an Art Commission, we should not hesitate to bring forward plans for such monuments as the beautiful fountain near the Public Library, erected in honor of our highly valued citizen, Colonel Russell—the friend of everybody in Town.

In the rooms of the Massachusetts Historical Society you may see the swords of Col. William Prescott, the revolutionary patriot, and Capt. John Linzee of the British Royal Navy, crossed with each other, no more in token of conflict, as they were at Bunker Hill, but bound together in perpetual peace, typical we hope of that peace and friendship which shall last forever between our mother country and ourselves.

And it is a fact of which we may feel justly proud that we have in Madam Wolcott and her children and Mrs. C. Minot Weld and her children descendants of both these noble and gallant men, living in our midst to-day.

One great man among us deserves our special recollection, a man who devoted most of his life to the development of our country and its service—John M. Forbes.

The history of his life is familiar. It is recorded in his own "Letters and recollections," and in a newer record made by another hand.*

Mr. Forbes was a man who felt that to be a director in a great railroad company, in which vast numbers of people had invested their money constituted him a trustee just as much as if he had received an appointment from the Judge of Probate. And he lived up to that idea.

His own statement of his purposes is interesting. He says: "I certainly have worked to do something that would form my contribution toward the common welfare, but think my ambition has rather been to accomplish something worth doing . . . than to appear to have done great things in my little sphere."†

In 1884 he stated his reasons for refusing to support the Republican candidate for the presidency, and included these

*"An American Railroad Builder, John Murray Forbes," by Henry G. Pearson, 9111

†Pearson, p. 183.

remarks, which he surely would repeat now were he still among us:

"I have seen with pain the bitter and personal tone which has been given to the discussion on both sides in this campaign. Invective and personal attack, like overloaded guns, inevitably react upon those using such weapons, and I venture the counsel that you should use the greatest moderation of statement while pushing every legitimate method of explaining your position, and especially of organizing your canvas by steady, sympathetic work."*

The memory of Mr. John M. Forbes, as well as that of his noble brother, Robert Bennett Forbes, whose life record is found in his "Personal Reminiscences," will ever be fresh and lasting.

In this brief review of some of the interesting features of our own history we have passed from the period of the canoe, the shallop, the saddle and the chaise, to that of the steamship, the motor boat, the electric car, the automobile and the aeroplane.

When we add to these wireless telegraphy, the telephone, and submarine signals, we stand aghast, and realize that the human mind can scarcely conceive more extraordinary changes.

We must live on in the hope that in future, and in spite of all the materialistic tendencies and conditions of the present, the mental and moral and even the physical attributes and characteristics of man will grow and develop more rapidly and help to form a better civilization, a higher type of humanity.

New questions and new conditions arise all the time, and many problems are as yet unsolved and cannot be disposed of until years shall have passed, and the methods of treatment must be very different from those which our fathers knew. But as knowledge increases and experience fills up her store-houses, we may expect more fixity of purpose, more harmony in action, more wisdom in plan, all leading on to that time when there shall be greater peace and quiet, more widespread comfort, less social unrest, and a general higher plane of citizenship. Freely have we received out of the abundance of the past and the richness of the present, and freely should we give now and in the future.

It is our duty to inculcate the principle that the greatest good to the greatest number is the end most to be desired, and that each individual should be fitted by knowledge, experience, development and inclination to subordinate personal and selfish ends to the advancement of the public or general interest and welfare, and to keep constantly in mind the value of co-operation and solidarity of purpose.

We live in a small Town, yet think of the influence that

*"Letters and Recollections," vol. II, p. 209.

may go out from it! The towns lead up to the states, and out of the states "our country" was formed.

What our country needs to-day is more Democrats like Cleveland and Tilden and Bayard; more Independents like Curtis and Schurz, and James Freeman Clarke and James Russell Lowell, and in times of stress and need some Republican leaders more like Abraham Lincoln and Charles Sumner, and John A. Andrew!

And whence shall they come? From our countrysides, is the reply. For thence have come already nine-tenths of our Presidents, and nearly eight-tenths of our citizens who have held high office.*

In his beautiful poem, "The Building of the Ship," which was read in public in Boston in 1850 by Mrs. Kemble, with such effect that while she herself was in tears, the audience was carried away with emotion, Longfellow has imagined our Republic as sailing on its voyage of destiny, and given us an inspiration of hope and faith.

Let us keep it before us, and cherish it.

You all remember these wonderful, stirring lines:

"Thou, too, sail on, O Ship of State!
Sail on, O Union, strong and great!
Humanity with all its fears,
With all the hopes of future years,
Is hanging breathless on thy fate!
We know what Master laid thy keel,
What Workmen wrought thy ribs of steel,
Who made each mast, and sail, and rope,
What anvils rang, what hammers beat,
In what a forge and what a heat
Were shaped the anchors of thy hope!
Fear not each sudden sound and shock,
'Tis of the wave and not the rock;
'Tis but the flapping of the sail,
And not a rent made by the gale!
In spite of rock and tempest's roar,
In spite of false lights on the shore,
Sail on, nor fear to breast the sea!
Our hearts, our hopes are all with thee,
Our hearts, our hopes, our prayers, our tears,
Our faith triumphant o'er our fears,
Are all with thee,—are all with thee!"

*W. J. Spillman of U. S. Department of Agriculture.

BIBLIOGRAPHY AND NOTES

I

PAPERS, ETC., IN THE COLLECTION OF MILTON
HISTORICAL SOCIETY

1. Plan by ————— French, Surveyor, October 9, 1786, showing land on Canton Avenue in the neighborhood of the present Town Hall.
2. Dedication of the First Evangelical Society's Meeting House, December 7, 1834. Order of exercises.
3. Census of Milton, May 1, 1837.
4. Committee on Vaccination, 1809; opinion of physicians; meeting of the Town; two addresses to the Governor.
5. A program of the celebration of the 200th Anniversary of the Incorporation of the Town, 1862.
6. A table showing the range of the thermometer in Milton from January, 1849, to December, 1888, by Charles Breck.
7. A pamphlet, not dated, answering the claim that Brush Hill should be included in the territory of Hyde Park. Three reasons given; not signed.
8. A pamphlet, not dated, giving five reasons why Brush Hill should not be included in Hyde Park, signed by James M. Robbins and many others, as a committee.
9. Report of a Committee on Roads, signed by J. Littlefield, Oliver W. Peabody and George K. Gannett, 1881.
10. Report of a special committee appointed to consider whether the Town should purchase the works and franchise of the Water Company, signed by E. D. Wadsworth and others, 1893. (Report was unanimous against the purchase.)

IV

SUNDRY MEMORANDA

The Milton Water Company was chartered in 1888 and the Brush Hill Water Company was chartered in the same year. In 1889 they were authorized to combine, and they were combined in 1890, under the name of The Milton Water Company. The Town acquired the works and franchise of this Company, September 27, 1902.

The first location to an electric street railway was granted in 1902 to the Boston, Milton & Brockton Company from Adams Street, at Lower Mills Station, to the Randolph line. In the same year a grant was made to the Quincy & Boston Company of the location on Willard Street, and other grants to the Milton Street Railway Company in Blue Hill Avenue and Canton Avenue, and in Milton Street from the Hyde Park line to Brush Hill Road.

Subsequently a location was granted to the Blue Hill Street Railway Company from a point near Hemenway's Pond to the Canton line.

All these locations were granted in reserved spaces especially set apart for the use of electric roads under the authority of the Legislature in the Acts of 1895, Chapter 121. This statute was upheld by the Supreme Judicial Court in the case of *Eustis v. Milton Street Railway Company*, 183 Mass. 586.

V

MASSACHUSETTS HISTORICAL SOCIETY

1. 1673, August 20. Deed of land on the Neponset River from John Gill to John Oxenbridge and others.
2. 1700, August 8. Record of money sent by Town of Milton when Samuel Mann's house in Wrentham was burned.
3. 1717, April 1. Deed of land on Neponset River by Joseph Belcher to Walter Everenden.
4. 1765. Slip, being copy of inscription in Milton Burying Ground, made by Jeremy Belknap.

5. 1778, June 30. Communication to the Committee of Correspondence of Cambridge, asking that a chariot, the property of Governor Hutchinson, be returned by the bearer, together with a receipt for the same. By James Boies.

6. 1804, March 5. An address delivered by Charles P. Sumner at Milton.

7. 1874. The record of a meeting held in Milton, September 9, to commemorate the passing of the "Suffolk Resolves" on September 9, 1774.

8. 1909, January. Dr. Green read a paper on "Old Milestones leading from Boston," mentioning in detail some of those in Milton. Proceedings, vol. XLII 33rd Series.

9. The Belcher Papers.

In Vol. V of this Series, there is written inside the cover: "This volume of Gov. Belcher's letters was found at Milton, in the house of John Swift, the property of Hon. E. H. Robbins—by whom it was presented to J. McKean, and by him given to the Historical Society, to make their series more complete."

In Vol. IV of this Series, there is a letter from Gov. Joseph Belcher to Captain Church, dated September 28, 1739, about the purchase of a cow for the Governor's farm in Milton, in which he says:

"I want one of the best red milch cows Little Compton affords of 5 or 6 years old. I mean best for the pail and I know nobody more capable of furnishing one than Capt. Church. I therefore pray you to oblige me in this article by sending one to my farm at Milton as soon as you conveniently can. I value not the price, provided you can put her into my hands for a choice good one"

IX

IN THE OFFICE OF THE METROPOLITAN PARK COMMISSION

The annual reports of the commission make numerous references to the Blue Hills and other Milton territory.

1. In the report of 1895 there are "Notes on the Geology of the Reservations" by William O. Crosby—Blue Hills mentioned at page 56.

2. In the same report there are "Notes on the Vegetation of the Reservations" by Warren H. Manning—mention of the Blue Hills at pages 70 to 83.

3. Boston Park Guide by Sylvester Baxter, 1896. Blue Hills mentioned at page 44.

4. In the New England Magazine for August, 1896, the Blue Hills are described.

5. In the New England Magazine for September, 1896, the Boston Metropolitan Reservations are described by Charles Eliot.

POEM

MILTON, 1662-1912

WILLIAM L. W. FIELD

I

The homes of human-kind are verily
Shelters of flames long-kindled, kept aglow
For us, wherein we forge our destiny;
Till in due order we
Yield into other hands the tasks we know.

II

We mark no measure of the ages when
The wilderness was shaping to our need:
Time turned in vast mysterious cycles then.
Time and the Deeds of men
Conjoined have wrought the record that we heed.

III

As Commonwealth and Nation counted great
The heritage of valor handed down
By those to whom we owe our fair estate:
So do we venerate
The founders and upbuilders of this Town.

IV

The spirit of unconquered pioneers,
Who dared the dangers of a land unknown,
And laid the earliest hearth-stones, still appears,
Illumining the years
That stretch between their epoch and our own.

V

For with each generation's brave advent
New crises ever called men forth to strife,
And ever in the joy of strength they went,—
Spending but yet unspent,—
Knowing the fulness of the valiant life.

VI

Their memory is a challenge sounding high
In scenes of which they little dreamed,—in stress
Of new-reared problems,—that we shall apply
Our full-grown might, and try
To reach the stature of their nobleness.

VII

Their valley is to-day the city's gate:
Along their once undimmed horizon rise
The smoke-clouds of a commerce whose huge freight,
Beyond their estimate,
Has ceased to waken wonder in our eyes.

VIII

What shall be said in that new century
When we are shadows in a deep, obscure,
Almost forgotten background? Shall there be
Acknowledgment that we
Guarded the home-fires that they might endure?

IX

Proudly we count the chapters of the past:
May we be steadfast in our day, and bold
To bear into that future yet more vast
Wherein our lot is cast
The ancient hard-won glories that we hold!

APPENDIX A

UNION SERVICE OF THE CHURCHES

A union service was held on Sunday morning, 9th June, 1912, at 10.30 o'clock, in the meeting house of the First Congregational Parish in Milton in recognition of the 250th Anniversary of the Incorporation of the Town. This was attended by an audience which exceeded the seating capacity of the pews, and followed the details of the program issued, excepting that Rev. Arthur E. Gregg was not able to be present, and in his place Rev. Charles F. Potter, of the Mattapan Baptist Church, offered the prayer. The services, in an abbreviated form, and the churches represented were as follows:

First Congregational Parish, Rev. Roderick Stebbins, Minister.

First Evangelical Congregational Church, Rev. Albert D. Smith, Minister; Rev. Henry S. Huntington, Pastor Emeritus.

East Congregational Church, Rev. Arthur E. Gregg, Minister.

St. Michael's Protestant Episcopal Church and Mission Church of Our Savior, represented by Rev. Edward Seymour Thomas, of Fall River, Mass.

Mattapan Baptist Church, Rev. Charles F. Potter, Minister.

First Baptist Church, Rev. J. Hamilton Woodsum, Minister.

Hillside Chapel, represented by Mr. Woodsum.

Organist, Mr. H. Clough-Leigher.

The Choir consisted of a chorus from the Milton Education Society, led by Mr. Douglas G. Field and assisted by Miss Harriet E. Whittier and Mr. Frederick G. Katzmann.

Ushers: First Congregational Parish, Mr. Parker B. Field; First Evangelical Congregational Church, Deacon Moses D. Monroe; East Congregational Church, Mr. Austin W. Greene; First Baptist Church, Mr. J. Albert Simpson; St. Michael's Protestant Episcopal Church, Mr. John Alden Lee.

ORDER OF SERVICE

Organ Voluntaries Mr. H. Clough-Leigher

Doxology

Invocation Rev. Henry S. Huntington

Chorus, "Recessional" *DeKoven*

Responsive Prayer, Rev. Charles F. Potter and Congregation

O God, who art, and wast, and art to come, before whose face the generations rise and pass away; age after age the living seek thee, and find that of thy faithfulness there is no end. We rejoice that thou hast never left thyself without a witness

in the world, but by the lips of wise leaders and deeds of brave daring, hast revealed thy abiding presence among the children of men.

Thou didst guide our fathers in their pilgrimage, and didst protect them from perils by sea and by land.

Thou madest a way for them through deep waters, and didst set their feet in a large place.

The winds heard thy voice and were still, and the waves bore the tempest-toss'd to a secure haven.

Thou hast wrought great glory by them, through thy power from the beginning, and a little one has become a thousand, and a small one a strong nation. They inherited the land forever, the branch of thy planting, the work of thy hands, that thou mightest be glorified.

These were noble men and women, whose courage and righteousness hath not been forgotten, and whose names shall be kept in everlasting remembrance.

Their bodies are buried in peace, but their deeds live forevermore. The people will tell of their wisdom, and the congregations will show forth their praise.

Their virtue is immortal, known with God and with men. It weareth a crown and triumpheth forever, having gotten the victory, striving for undefiled rewards.

Grant, O Lord, that we the inheritors of their renown, the heirs of their liberty, may possess their courage and patience and fidelity, and the nation which sprang from them may never forget the rock from which it was hewn, but may adore thee for thy mercy, desire thee for thy loving-kindness, who art the Blessed Lord God eternal. Amen.

Gloria Choir

Scripture Reading Rev. Edward S. Thomas

Hymn, "Man Frail and God Eternal"

Psalm xc, Isaac Watts, Tune: "St. Anne"

Chorus and Congregation

Benediction

APPENDIX B

THE MILTON WOMAN'S CLUB RECEPTION

On the grounds of the Parish House of the First Congregational Parish, the Milton Woman's Club held a reception beginning at 3.30 P.M. All were invited to partake of its hospitality. The Club's Anniversary Day Committee was Mrs. J. Malcolm Forbes, Chairman; Mrs. William Q. Baxter, Mrs. Frederick Chase, Mrs. M. Vassar Pierce, Mrs. Philip L. Saltonstall. The guests were received by Mrs. Richard H. Gorham, President; Mrs. William B. Thurber, Vice-President; Mrs. George H. Hendry, Vice-President; Mrs. William H. Hooper, Corresponding Secretary; Mrs. Edward B. Hill, Recording Secretary; Mrs. John J. Hammers, Treasurer; Mrs. J. Malcolm Forbes, Chairman of Club's Anniversary Committee; Miss Mary P. Webster, first President of the Club.

The Chairman of the Waitresses was Mrs. Philip L. Saltonstall, under whose direction were the following ladies: Mrs. Walter D. Brooks, Mrs. John W. Hallowell, the Misses Leonora Bemis, Mary W. Burgess, Mary A. Chase, Beatrice Cobb, Priscilla A. Crocker, Dorothy Davis, Aimee F. Draper, Ruth S. Draper, Julia M. Fairbanks, Lucy A. Farrington, Jenny Clapp Fletcher, Margaret Forster, Dorothy J. Fuller, Caroline Lesley Fuller, Josephine Griffith, Luella A. Haynes, Ruth Herrick, Helen J. Holmes, Dorothy Hurd, Elizabeth B. Jackson, Frances D. Mooers, Ruth D. Mooers, Sylvia Peabody, Barbara Pierce, Virginia Pierce, Sarah P. Rackemann, Mary Rogerson, Rose L. Saltonstall, Eleanor Shaw, Margaret Shaw, Edith S. Tilden, Marian Weld, Esther Williams, Ruth Whittier, Constance Zerrahn and Cora A. Tilden.

The Refreshment Committee was composed of Mrs. M. Vassar Pierce, Chairman; Mrs. Christine T. Calderwood, Mrs. Philip S. Dalton, Mrs. Philip Y. DeNormandie, Mrs. Parker B. Field, Miss Helen C. Gilbert, Mrs. Louis V. Gosselin, Mrs. William H. Hooper, Mrs. George B. Howe, Mrs. Walter C. Kite, Mrs. James Lawrence, Jr., Mrs. Frederick S. McVicar, Mrs. Edward Reynolds, Mrs. Robert Saltonstall, Mrs. Charles W. Whittier, and Mrs. Carl G. Zerrahn.

After the literary exercises in the afternoon, the Club served supper in the Parish House to the speakers and several invited guests, the following Committee in charge: Mrs. William Q. Baxter, Chairman; Miss Clara J. Babcock, Miss M. Alice Babcock, Mrs. Christine T. Calderwood, Mrs. Caleb L. Cunningham, Mrs. Frederick M. Hamlin, and Miss Eleanor P. Martin.

On the Equipment Committee were Mrs. Frederick Chase, Chairman; Miss Gertrude M. Bent, Miss Olivia Y. Bowditch, Mrs. Joseph S. Bryant, Mrs. William W. Churchill, Mrs. George K. Davis, Mrs. Arthur A. Hibbard, Mrs. Asher J.

Jacoby, Mrs. Walter A. Lane, Miss Sarah Gates Pope, Mrs. Robert L. Shewell, Mrs. Louis W. Sumner, Mrs. Edward B. Wheeler, and Mrs. William B. Wood.

The Club Hospitality Committee consisted of Miss Clara J. Babcock, Miss M. Alice Babcock, Mrs. George Y. Badger, Mrs. William B. Batchelder, Mrs. William Q. Baxter, Mrs. Ernest W. Bowditch, Miss Alice C. Breck, Miss Eliza Brewer, Mrs. Edmund E. Carlton, Miss Elizabeth T. Churchill, Mrs. Alfred H. Crossman, Mrs. Caleb L. Cunningham, Miss Emma C. Emerson, Miss M. Ida Fairbank, Miss Catherine W. Faucon, Miss Amanda J. Ferry, Mrs. Benjamin R. Fuller, Mrs. Horatio J. Gilbert, Mrs. Louis V. Gosselin, Mrs. George W. Gould, Mrs. Arthur A. Hibbard, Miss Susan C. Kennedy, Mrs. Freeland D. Leslie, Mrs. Jacob S. Lincoln, Miss Eleanor P. Martin, Mrs. Henry B. Martin, Mrs. Peter McIntyre, Mrs. Edward Reynolds, Mrs. T. Edwin Ruggles, Mrs. Murray Ruggles, Mrs. Henry C. Shields, Mrs. Herbert B. Tucker, Miss Ellen F. Vose, Mrs. Edwin D. Wadsworth.

APPENDIX C

SALUTING OF THE FLAG

One figure in the program was the Flag Drill and saluting of the Colors. This was under the auspices of Huntington Frothingham Wolcott Woman's Relief Corps 147, directed by Mrs. J. Harry Holmes, who originated and arranged the drill especially for the day, and assisted by Mrs. Leonard M. Bradlee, Mrs. Arthur H. Tucker and Mrs. G. Frank Kemp. The Committee in charge was Mrs. Jacob S. Lincoln, Chairman; Miss Nellie M. Barry, Mrs. Leonard M. Bradlee, Mrs. G. Frank Kemp, Mrs. Rosa E. Redfern, Mrs. Arthur H. Tucker.

The drill consisted of picturesque evolutions by forty little girls, with two little boys acting as color bearers. All sang the "Star Spangled Banner" which was joined in by the chorus and band. The boys were Albert Eugene Leavitt and Alton Parker Nado. The girls were Catherine L. Babcock, Margaret H. Babcock, Mildred A. Bowley, Dorris Bradlee, Dorothy M. Cappers, Carolyn Beulah Cook, Flora L. Douglas, Catherine Driscoll, Dorothy Dudley, Mary Evelyn Farrington, Carolyn V. Forbes, Dorothy G. Forbes, Alice Guilfoyle, Doris P. Hersey, Josephine E. Houlahan, Dorothy P. Holmes, Marion L. Kemp, Dorene D. Knox, Dorothy F. Lincoln, G. Rena McDermott, Margaret F. McDermott, Doris E. McWhirk, Florence Murdock, Gertrude Murdock, Harriet M. Murdock, Alice Ruth Murray, Dorothy F. Patton, Mabel M. Qualters, Freida M. Richards, Alice I. Ross, Caroline H. Shand, Dorothea S. E. E. Sprague, Hazel L. A. M. Sprague, Ellen L. Stuart, Esther J. Stuart, Deborah Thayer, Marjorie Tucker, Ellen M. Westenburg, Louise E. White, and Julia H. Wight.

APPENDIX D

VOCAL MUSIC

The music of the celebration was all under the supervision of a sub-committee composed of John Alden Lee, Chairman; Miss Harriet E. Whittier, Douglas G. Field, and William B. Thurber.

The following program of vocal music was interspersed through the exercises of the afternoon, at the Centre:

"The Star Spangled Banner" *John Stafford Smith*
School Children and Chorus

"Summer is a-coming in" . . . The oldest secular part-song
extant, attributed to *John*
of Fornsete, a monk of
Reading, about 1226
Chorus (unaccompanied)

"Centennial Hymn" *John Knowles Paine*
Chorus

"To Thee, O Country" *Julius Eichberg*
Chorus

American Hymn ("Speed Our Republic") . . *Matthias Keller*
Chorus

At the close, the whole gathering sang "Auld Lang Syne."

The Chorus of the Milton Education Society, which rendered this program, was conducted by Douglas G. Field. The following members of the Chorus were present:

Mrs. George L. Anthony	Mrs. Francis A. Ingersoll
Mrs. Katharine M. Brennan	Miss Helen L. Jaques
Miss Florence B. Brown	Miss Editha M. Keefe
Mrs. Peter S. Burns	Miss Estelle Kelley
Mrs. Edmund J. Carpenter	Mrs. Frank E. Lane
Miss Caroline M. Chambers	Miss Alice Lee
Miss Bertha L. Clark	Mrs. Freeland D. Leslie
Miss Edna Clark	Miss Edith M. Lincoln
Miss Annie M. Craig	Miss Pauline Lincoln
Mrs. John W. DeBruyn	Miss Ruth S. Lincoln
Miss Charlotte P. Dudley	Mrs. Claude E. Marden
Miss Mary A. Dinnie	Mrs. James H. McGuire
Miss E. Althea Farrington	Mrs. John F. O'Connell
Miss Lucy A. Farrington	Miss Agnes S. Ord
Miss Ellen R. Farrington	Miss Grace E. Packard

APPENDIX E

BAND CONCERTS

The Kanrich Band, led by Albert M. Kanrich, played at Cunningham Park in the forenoon, and at the Centre in the afternoon and evening, and also at some of the receptions during the day, not in the regular exercises. The evening concert was listened to by a large audience. The grounds about the Town Hall, under a sub-committee composed of Clarence Boylston and Murray Ruggles, were illuminated with electric lights and red and green fire. The program follows:

1. Celebration March
Written especially in honor of Milton's 250th Anniversary by Ecker of the Kanrich Band
2. Overture, "Light Cavalry" *Suppe*
3. Waltz, "España" *Walteufel*

*Mrs. Huckins sang in the Chorus at the 200th Anniversary.

4.	Selections, "Pink Lady"	<i>Caryll</i>
5.	Idyl, "In the Shadows"	<i>Finch</i>
6.	Second Connecticut March	<i>Reeves</i>
7.	Selections, "Carmen"	<i>Bizet</i>
8.	Popular Song Medley	
9.	Tone Picture of the North and South	<i>Bendix</i>
10.	Selections, "Faust"	<i>Gounod</i>
11.	Blue Danube Waltz	<i>Strauss</i>
12.	American Fantasie	<i>Herbert</i>

APPENDIX F

DRILL BY SONS OF VETERANS

During the evening a drill was given by Col. Oliver W. Pea-body Camp, Sons of Veterans. The following members took part: Commander, Orrin P. Doe; Senior Vice-Commander, Ernest E. Leavitt; Junior Vice-Commander, Peter Cummins; Treasurer, Arthur W. Houghton; Secretary, George T. Morrell; Chaplain, Charles Bradlee; Patriotic Instructor, John B. Farrell; Inside Guard, Charles A. Cook; Leonard M. Bradlee, Frank M. Chubbuck, Samuel Cook, Edward M. Fletcher, Robert S. Nado, Albert F. Powell, George G. Pratt, Charles G. Snow.

APPENDIX G

ATHLETIC SPORTS

Most of the sports were held at Cunningham Park, though some of the ball games were at Brook Road Playground. A list of all the events is given below, together with the names of winners of first and second prizes, cups, medals and ribbons. The Committee on Sports was made up of Andrew H. Ward, Chairman; Howard C. Leslie, Dr. Louis R. Burnett, Waldo E. Forbes, John W. DeBruyn, and Charles L. Curtis. The following acted as Aides: Carl W. Gram, Thomas C. O'Hare, C. Otto Zerrahn, John W. Hallowell, Theron A. Apollonio, Dr. Walter A. Lane, and Parker B. Field. The equestrian sports were managed by Stanley Cobb, Chairman; Theodore T. Whitney, Jr., and Alfred H. Crossman.

Class I was for older boys and men, Class II for High School and Academy boys, and Class III for boys of grammar school age. Clerk of Course and Referee, Dr. Louis R. Burnett; Assistant Clerk of Course, John W. DeBruyn; Starter, John W. Hallowell; Judges, Sidney C. Hazelton, Arthur B. Haley, and

Philip P. Chase; Measurers, Howard C. Leslie and Alden G. Alley; Timer, J. Richard Lunt; Aides, Oscar S. Shepard and Harold B. Garland; Announcer, Charles L. Curtis.

LIST OF WINNERS

Running Broad Jump—

- Class I. Won by G. Newell Hurd.
Second, John B. Shields.
Class II. Won by Donald C. Watson.
Second, Robert F. Herrick, Jr.
Class III. Won by George A. Keith.
Second, Charles Pierce.

Potato Race—

- Class I. Won by John B. Shields.
Second, Michael J. Hannigan.
Class II. Won by Gustav H. Kissel.
Second, D. Morton Swift.
Class III. Won by George A. Keith.
Second, James J. Callahan.

100 Yard Dash—

- Class I. Won by W. Lawrence Powell.
Second, Carl W. Gram.
Class II. Won by Donald C. Watson.
Second, D. Morton Swift.
Class III. (75 yards) Won by Charles Pierce.
Second, George A. Keith.

High Jump—

- Class II. Won by Robert F. Herrick, Jr.
Second, Charles P. Reynolds.
Class III. Won by George A. Keith.
Second, James J. Callahan.

Half-Mile Run—

- Class I. Won by Frank A. Mullen.
Second, John Mullen.
Class II. Won by D. Morton Swift.
Second, J. Dana Hutchinson.
Class III. Won by Wolcott Fuller.
Second, Raymond S. DeLury.

Sack Race—

- Class I. Won by Michael J. Hannigan.
Second, Frank A. Mullen.
Class II. Won by John L. Liecty, 2nd.
Second, Edward Cummings.
Class III. Won by James J. Callahan.
Second, George A. Keith.

Relay Race—

- Class I. Won by Frank A. Mullen, W. Lawrence Powell,
Michael J. Hannigan, John B. Shields.
Second, Ronald M. Anderson, J. Lewis Esau,
Albert M. Hoxie, John Mullen.
- Class II. Won by George Kelly, Edward Cummings,
D. Morton Swift, James F. Driscoll.
Second, Howard Innis, George A. Keith, Henry
Franklin Patterson, John Connolly.
- Class III. (Each 100 yards) Won by Albert Leslie Pat-
terson, Clarence A. McDonald, James Calla-
han, Maurice Pierce.
Second, Raymond S. DeLury, Raymond T.
Hyslop, Philip J. Barry, George A. Keith.

220 Yard Dash—

- Class I. Won by W. Lawrence Powell.
Second, John B. Shields.
- Class II. Won by James F. Driscoll.
Second, Edward Cummings.
- Class III. Won by Raymond S. DeLury.
Second, Frank M. Miller.

Baseball Throw—

- Class I. Won by Horace Wood.
Second, Richard F. Chamberlain.
- Class II. Won by Robert F. Herrick, Jr.
Second, James F. Driscoll.
- Class III. Won by Gerald U. Margeson.
Second, Raymond S. DeLury.

Obstacle Race—

- Class I. Won by John B. Shields. No second prize.
- Class II. Won by Roy Dasher. No second prize.

Gymkhana on Horseback

Relay Race—

- Won by Earle Morgan, Leroy Morgan, Francis Maguire.
Second, Philip P. Chase, Durell Hall, Alexander Forbes.

Women's Egg and Spoon Race—

- Won by Miss Dorothea M. Hughes.
Second, Miss Hildegard B. Cobb.

Men's Egg and Spoon Race—

- Won by Edward S. Brewer. No second prize.

Musical Stalls—

- Won by Walter S. Hughes.
Second, Philip P. Chase.

Women's Obstacle Race—

Won by Miss Hildegard B. Cobb. No second prize.

Men's Obstacle Race—

Won by Durell Hall. No second prize.

Potato Race—

Won by Durell Hall.

Second, Francis Maguire.

Finals in Anniversary Championship Tennis Tournament

Women's Singles—

Miss Josephine Griffith defeated Mrs. William L. W. Field.

Women's Doubles—

Mrs. William L. W. Field and Mrs. Alban B. deMille
defeated Miss Louise M. Bolton and Miss Helen Cross.

Mixed Doubles—

Edward R. Hastings, Jr., and Miss Pauline L. Davis
defeated Robert F. Herrick, Jr., and Mrs. Arthur L.
Devens, Jr.

Men's Singles—

Edward R. Hastings, Jr., defeated Thomas W. Whitall.

Men's Doubles—

Osgood Williams and Edward R. Hastings, Jr., defeated
Edward F. W. Bartol and Garrard Comly.
Dr. Louis R. Burnett was Referee

Baseball—

The Cunningham Gymnasium Athletics defeated the
Mattapan Athletic Association team, 13 to 2, and won
the Anniversary cup offered in this event. Ribbon
badges were given to all the members of the winning nine.

Baseball at Brook Road Playground—

The Milton Academy nine defeated the Milton High School
nine, 7 to 5, and won the Anniversary cup offered in this
event. Ribbon badges were also given here.

Baseball—

On the following Saturday (15th June), the Kidder Athletic
Club won the third cup offered by the Town's Committee
in a postponed game with the Red Sox of Cunningham
Gymnasium, 12 to 4. Ribbons were given to all of the
winning team.

APPENDIX H

EXHIBITION OF PUBLIC SCHOOL WORK

In the High School Building was held an exhibition of the work of the Milton public schools. This filled the entire first floor of the building. Every school and all grades were represented. The teachers and janitors acted as guides, under the supervision of the Superintendent of Schools, Asher J. Jacoby. The exhibition was the largest and most representative in the history of the Town.

The exhibits included everything from the kindergarten to the work of the High School graduates in all the book studies, and from elementary clay modeling to articles of furniture, dressmaking, cooking, printing, etc., etc., all bearing the names of their makers and representing probably every pupil in all the schools. Each worker designs his own objects, and at the end of the school year becomes the owner of all that he has made.

It seems fitting to mention at this point the *Milton Record*, Anniversary Number, published 15th June, 1912, which gives further details of the school work in particular and of the Anniversary generally.

APPENDIX I

HISTORICAL SITES MARKED

During the week of the celebration, temporary markers were put up in various parts of the Town. These were of cardboard and all bore the heading:

This card is one of a series put up during the
CELEBRATION OF THE 250TH ANNIVERSARY OF THE
INCORPORATION OF THE TOWN OF MILTON
by the Committee having the celebration in charge. It is
hoped that at a later date permanent memorials
may be placed by interested citizens at the sites now
temporarily marked

The list of sites thus marked was prepared by a Committee of Milton Historical Society, consisting of Miss Eleanor P. Martin, Chairman; Mrs. Parker B. Field and Miss Mary H. Hinkley, and was as follows:

Bridge and Grist Mill (west fence of bridge, Milton end).
"Neponset River first bridged here by Israel Stoughton. On

the opposite bank, Stoughton, in 1634, built the first water-power corn mill in New England."

Paper Mill (Ware Mill). "On this site, in 1728, was established the first paper mill in the province."

Powder Mill (Webb Mill). "On this site, in 1675, stood the first powder mill in the colony, the source of supply for carrying on King Philip's War."

Landing Place and Babcock Inn (Town Landing, near head of stairway, station approach). "The Town Landing, laid out in 1658, the oldest common land still in town possession. Here lately stood Babcock's Inn, built by 1732."

Rising Sun Tavern (Gordon Estate, the long building). "Rising Sun Tavern, oldest Milton inn now standing. Probably built about 1769 by Samuel Vose."

Indian Trail (Canton Avenue, corner Randolph Avenue). "The Indian trail to Blue Hills and Ponkapoag."

The Country Highway and Trail (two signs, Adams street, corner Randolph Avenue, and Adams Street at East Milton). "The 'Country High Way,' provided for by the General Court in 1639, to connect the Plymouth and Bay Colonies. Milton's portion (Adams Street) laid out in 1654, on the line of the old Indian trail."

Glover Tavern (Mrs. Faucon's house). "Glover Tavern. Built by Dr. Samuel K. Glover, who kept tavern here in 1807."

Hutchinson Estate (Miss Rivers). "Estate of the last royal governor, Thomas Hutchinson, 1742-1774."

Triangle, head of Churchill's Lane and Adams Street. "Probable site of first meeting house in Milton, 1660; watch-house of King Philip's War, 1675; first school house in Milton, 1718; liberty pole of Revolution, 1774." "On the northwest corner of Adams Street and Churchill's Lane stood Brown's Tavern, a favorite rendezvous in the Revolution."

Gooch House (Mr. A. R. Whittier, Jr.). "Built by Joseph Gooch, colonel of the Suffolk Regiment, about 1746."

Miller Tavern (near Mrs. Dabney's). "Site of Miller Tavern, 1708."

Daniel Tavern and Foye Estate (Mr. T. R. Glover Estate). "Estate of Provincial Treasurer, William Foye, 1733. Site of Daniel's Inn, 1681."

Belcher Estate (Mr. C. L. Cunningham). "Estate of Provincial Governor Jonathan Belcher, 1727."

Pierce Tavern (Sheldon Estate). "Site of tavern of Capt. Rufus Pierce in 1795."

First Railway (Adams Street, near East Milton station). "Site of the Granite Railway, 'the first railroad in America.' From this road the settlement was called 'Railway Village.'"

Penny Ferry (Granite Avenue, near railroad crossing, east side of street). "Old Penny Ferry, 1638."

First Landing (Squantum Street, near Mr. Fenno's). "To the Town Landing, Gulliver's Creek, 1658."

Site of first Parsonage (Randolph Avenue). "Site of first parsonage, built by 1664."

Bent's Bakery (Highland Street). "Bent's Bakery. Established by Josiah Bent, 1801."

Atherton Tavern (corner Canton Avenue and Atherton Street). "Atherton Tavern, built 1810. A tavern stood here as early as 1737."

Billings or Blue Hill Tavern (Wainwright Estate, near lilac clump). "Site of Billings Tavern. A favorite resort for many generations."

Site of last Parsonage (Canton Avenue, east of Mrs. Gilbert's, near lilac clump). "Site of last parsonage, built 1798. Occupied by Rev. Joseph McKean and Rev. Samuel Gile."

Wolf Pits (Park Street). "Wolf Pit Lane."

Pound (Canton Avenue, near Mr. Hunt). "Site of Pound, built 1774."

Mills (Blue Hills Parkway, east side, near river and trench). "On the banks of this river and trench stood the first Corn Mill in the Town, 1710; the first Slitting Mill in the Province, 1731; the first Paper Mill in the Village, 1765; the first known Chocolate Mill in the Town, 1771."

Indian Trail (two signs: 1. Parkway, corner Brush Hill Road; 2. Green Street, corner Blue Hill Avenue). "The Indian Trail to Blue Hills and Ponkapoag."

Tucker House (Mrs. Joseph C. Whitney Estate). "Oldest Tucker house now standing. Built by 1681."

Sumner House (Mrs. Sumner Hollingsworth). "Built by Roger Sumner, 17th Century."

Murray House (Robbins Estate). "House of James Murray, Royalist. Built by James Smith, about 1735."

Toll House (Mr. Gilbert Sumner). "Toll House of Brush Hill Turnpike."

West School (Old Ferry Estate under Dutch elms). "Probable site of one of the two earliest school houses, 1718."

Jonathan Babcock House (Mr. J. H. Dudley). "Probably built by Jonathan Babcock before 1699."

Robert Babcock House (Mrs. T. E. Ruggles). "Probably built by Robert Babcock before 1694."

Wild or White Tavern (Copeland Estate, near present house). "Site of Wild or White Tavern, the earliest tavern in Scotch Woods."

Blue Hills (two signs: 1. Foot of "Great Blue," Blue Hill Avenue. 2. Hillside Street, near school house). "From these hills was derived the name of the State, 'Massachusetts,' meaning 'at or near the great hills.'"

Daniel Vose's Inn (Associates' Building). "Site of Daniel

Vose's Inn, where the 'Suffolk Resolves' were passed, September 9, 1774."

Powder House (Mrs. H. J. Gilbert's). "Powder House—1811."

APPENDIX J

MISCELLANEOUS

There still seems to be needed another appendix in which to mention short items not necessarily of less importance than what has gone before.

The day was observed as a general holiday in Milton. Schools were closed, both public and private; business houses were generally closed; all of the men in the Town's employ who could be spared from their posts were given a holiday. Most of the Town buildings, many places of business, and many private houses were decorated, or at least flew the national flag. The Sub-Committee having the decorations in charge was made up of Jesse B. Baxter, William B. Thurber and Stephen C. Mitchell.

The flag pole at Police Headquarters bore the flag for the first time; the old hand fire engine of 1846 was got out and exhibited in front of Hose 2 House, at East Milton, by the Veteran Firemen's Association.

The following General Aides are here mentioned because their duties were not such as to identify them specifically with any of the previous appendices:

Arthur O. Allen	Jacob S. Lincoln
Lincoln Bryant	Charles F. Marden
Ralph S. Carpenter	Frank T. Meagher
Augustus H. Eustis	Timothy W. Melley
James S. Gallagher	James Sangster
Frederick P. Hall	Percy E. Sheldon
N. Penrose Hallowell, Jr.	Charles H. Thayer
W. Newton Harlow	George Wigglesworth
Asher J. Jacoby	William A. Will
G. Frank Kemp	

Medals and ribbons commemorative of the day and distinctive of the special events were given to those who took part in the exercises, and to winners in the athletic sports. The medals were of gold, silver or bronze, and bore the seal of the Town on the obverse, and on the reverse inscriptions designating their significance. They were suspended on different colored ribbons, each of which had an arbitrary meaning. The ribbon badges also were of different colors for the various events, and were stamped with the Town seal and inscriptions appropriate to the several wearers' parts.

The Grand Army Veterans were assigned special seats at the literary exercises, and the Woman's Relief Corps kept open house for them at the Town Hall in the evening, as also for the police on duty. The Committee having this in charge was composed of Mrs. Edwin W. Hunt, Chairman; Mrs. James F. Mitchell, Mrs. Arthur O. Allen, Mrs. Arthur L. Sanford, Mrs. Harry N. Hargraves, Miss Nellie M. Barry, Mrs. Chas. A. Cook, Mrs. Leonard A. Hird, Mrs. Edward Mullan, Miss Pauline Lincoln, Mrs. J. Norman Messenger, and Mrs. William T. Palmer.

Among the hospitalities not officially connected with the day should be mentioned a reception by Mr. and Mrs. Jacob A. Turner, given primarily for the Milton Grand Army men, but to which all were invited. The Milton Club kept open house, with music.

We would add a word of special thanks to the Milton Police for their efficient service at all hours during the day.

The Committee in charge of the celebration issued souvenir plates dated and bearing the Town seal, which were on sale at the Public Library and branches, the Blue Hill National Bank, Alexander Hobbs's store and elsewhere.

The Committee sent this telegram on the day of the celebration: "Anniversary Committee, Abington, Mass. Town of Milton assembled on its 250th Anniversary sends its greetings to you," and received the following reply: "Anniversary Committee, Milton, Mass. The Towns of Abington, Rockland and Whitman celebrate bi-centennial of Town of Abington and send salutations and good wishes. General Committee."

Later the following letter of thanks was published in the *Milton Record*:

"TO THE EDITOR OF THE *Milton Record*:

"The Committee on the Celebration of the 250th Anniversary of Milton realizes its indebtedness to all of the organizations and to all individuals in Town who so heartily co-operated in making the celebration a success. The members of the Committee tried to express their appreciation of this co-operation in every case, but fearing that some instances may be overlooked, we take this method of conveying to all societies and individuals our heartiest thanks. The ready assistance which was given us by all has greatly lightened the work of the Committee. This acknowledgment would not be complete without a word of appreciation of the obliging and good-natured spirit of the assemblage on Tuesday.

"For the Committee,

"NATHANIEL T. KIDDER,
"Chairman.

"Milton, 12 June, 1912."

The following report was made to the Town Meeting held 3rd March, 1913:

REPORT OF COMMITTEE ON CELEBRATION OF 250TH
ANNIVERSARY OF THE TOWN OF MILTON TO
THE TOWN MEETING, 3RD MARCH, 1913

TO THE CITIZENS OF MILTON:

Your Committee on the Celebration of the 250th Anniversary of the Town's Incorporation begs to report as follows:

Having definitely settled on the 11th of June as the day to observe the Anniversary, we arranged for sports of several kinds to be held at Cunningham Park and at Brook Road Playground during the forenoon and early afternoon, literary exercises, music and various other features at the Centre during the later afternoon, and an illumination of the Town Hall grounds, and music and drill in the evening.

We omit a detailed account of the events of the day from this report, but we consider that there should be printed a pamphlet containing records of all the proceedings. With this object in view, the materials have all been put together and estimates obtained for printing such a pamphlet in what we estimate to be sufficient quantity to allow of distribution free to everyone who wishes a copy.

The Committee's financial account to 31 December, 1912, appears in the Auditor's Report. There is shown there a credit balance of \$45.70. Since that account was made up, receipts of \$93.80 have come in, and expenditures of \$139.50 have gone out, showing an exact balance between debit and credit.

Referring again to our estimate obtained for printing a pamphlet of the exercises of the celebration, we wish to make the recommendation that the sum of \$175 be appropriated by the Town for the purpose of preparing and issuing a report of the exercises and sports held in connection with the celebration of the 250th Anniversary of the Incorporation of the Town, said sum to be expended by the Milton Historical Society. We have drawn up an article to this effect and sent it to the Selectmen to be inserted in the Warrant.

We ask that this report be accepted and the Committee discharged.

Respectfully submitted,

NATHANIEL T. KIDDER	} <i>Committee on the Celebration of the 250th Anniversary of the Incorporation of the Town</i>
JOHN ALDEN LEE	
FREELAND D. LESLIE	
ARTHUR H. TUCKER	
ANDREW H. WARD	

Under Article 4 the above report was accepted and the Committee discharged.

Article 44 of the above meeting read: "To see what action the Town will take in regard to publishing a report of the exercises held on the 11th of June, 1912, in celebration of the 250th Anniversary of the Incorporation of the Town of Milton, and what sum of money it will appropriate for the purpose."

The vote on this was: "That the sum of \$175 be appropriated, to be expended by the Selectmen for publishing the report."

The work of publishing this report has been done by the same individuals who constituted the Town's Committee, as the agents of the Selectmen.

REPORT OF COMMITTEE ON PINE TREE BROOK

MILTON, MASS., December 31, 1913.

To the Citizens and the Board of Health of Milton:

At the Annual Town Meeting held March 3, 1913, Article 56 of the Warrant was as follows:

“To see what action the Town will take toward improving the condition of Pine Tree Brook, and appropriating money for the same.”

It was voted:

That a committee of three citizens be appointed by the Moderator to investigate the condition of Pine Tree Brook, and report in writing before January 1, 1914, said report to be made to the Board of Health and copies of the same sent to the Board of Selectmen, Park Commissioners and Warrant Committee; and that the sum of four hundred dollars be appropriated for the expenses of said committee.

Pursuant to said vote the Moderator appointed Messrs. Lincoln Bryant, Walter A. Lane and Ellerton P. Whitney a committee to make this investigation.

Your committee met first March 26, 1913, and organized by choosing Mr. Whitney as Chairman and Mr. Bryant as Secretary. Mr. G. Frank Kemp was appointed Agent and Engineer of the committee. Your committee have had conferences with the State Board of Health, the Town Board of Health and various citizens at various times and places, have held two hearings, and have arrived

at certain conclusions which are stated later in this Report.

Pine Tree Brook rises in the Blue Hills Reservation, in the southerly and westerly portion of the town, and drains practically the western half of the town, having a drainage area of some seven and one-half square miles. The various brooks forming the main stream come together southerly of the gorge near Harland Street; thence flowing in a generally northerly direction the brook is joined by Trout Brook just before reaching Mr. Pope's ice pond, where it flows through the pond during the summer months and around the pond in a prepared channel during the winter months. From Mr. Pope's ice pond the brook flows through level meadows under Blue Hills Parkway, Thacher Street, Brook Road and Central Avenue to Mr. Turner's ice pond, where again the waters of the brook flow through the pond in the summer time and around the pond in a prepared channel in the winter time; thence continuing in a northerly direction through a well-defined channel with a very rapid flow in the latter part of its course, the brook passes on to Neponset River, entering the river near Central Avenue.

Your committee were first rather at a loss as to exactly what questions their investigations were expected to determine, but as we proceeded they seemed to form themselves into three distinct subjects, as follows:—

First, whether or not the water of Pine Tree Brook is highly polluted and unfit for ice cutting and bathing.

Second, between Mr. Pope's ice pond and Mr. Turner's ice pond the valley through which the brook flows is so level and in many places the channel of the brook so ill-defined that the brook at times of heavy storms floods the surrounding territory to a very considerable extent, and because of the poor drainage, remains for a considera-

ble time in a state of flood, causing water to flow into the cellars of houses in the Mattapan district, though these houses are in many cases quite remotely removed from the brook itself. Also in the summer time when there is little flow of water in the brook, large pools remain, which are the fertile breeding grounds for mosquitoes. How should this be remedied?

Third, there is no board or committee in the town who have any authority over brooks and streams. Should a brook or stream become a public nuisance and a menace to health, then the Board of Health might step in and rectify matters, but prior to such menace to health no one has any authority to care for the brooks of the town. Who should look after these streams?

To these three questions your committee have directed their attention and beg to report as follows:

First, as to whether or not the water of Pine Tree Brook is highly polluted. Numerous samples have been taken from the brook and analyzed by the State Board of Health, and the results of these analyses show that while the waters of the brook are not so pure as to be recommended for domestic water supply, they are nevertheless reasonably satisfactory, and indicate that the waters are fit for the purposes of ice cutting and for bathing. The State Board of Health in classifying pollution and non-pollution draws the line between the polluted matter which is brought into a stream by rain or melting snow flowing over the surface of the surrounding territory bringing more or less undesirable matter to the stream, such as the washing of highways, back yards, agricultural fields, etc., but this they do not specify as dangerous pollution. They classify it as the natural pollution which flows into any stream, having in consideration the territory through which it passes. By true pollution they mean house and other drainage flowing

directly into the stream, and of this sort of pollution we were able to find but one case, and this case only existing at times when the brook was in a high state of flood.

It may further be stated, so far as the subject relates to ice cutting, that in the case of an ice pond where the water is still, and through which there is no current flowing, as is the case in Mr. Turner's ice pond, as the ice freezes the cold causes the precipitation of undesirable particles and matter in the water, so that the ice is practically entirely free from objectionable matter. (See Report of State Board of Health for 1900.) As it relates to bathing, while the water may be cloudy from mud or vegetable substance, the number of objectionable bacteria in Pine Tree Brook are vastly less than would be found in many pools attached to gymnasiums, etc. We therefore can dismiss here the question as to the purity of the waters of Pine Tree Brook, this committee being of the opinion that, all things considered, the water of Pine Tree Brook is reasonably clean and satisfactory, and is fit for the purposes of ice cutting and bathing. See annexed table and letter of State Board of Health.

Second, your committee have directed their investigations of the brook itself particularly to that section of the brook from Mr. Pope's ice pond to just below Mr. Turner's ice pond, as this seems to be the only section that has caused complaint. That there is ground for complaint there is no question. As previously stated, the territory between Mr. Pope's and Mr. Turner's ice ponds is very level, there being a drop of but 3.25 feet from the bed of the brook below Mr. Pope's pond to the top of the lower dam at Mr. Turner's pond, a distance of one and one-quarter miles. To make matters worse, the brook has no well-defined channel in many parts of the section under consideration. The bridge over the brook at Thacher Street forms a serious impediment to

the stream, and at Brook Road the top of the metropolitan sewer passing under the brook at this point causes a further impediment.

How to rectify these matters has been the subject of our investigation, and we recommend as follows: That the abutters on both sides of the brook between Pope's pond and Central Avenue should be requested, and wherever they have been requested they have signified a willingness to co-operate to give an easement to the Town of Milton over a strip of land on each side of the brook thirty feet wide from the middle of the stream as straightened; in other words, a strip sixty feet wide, on which land the Town shall have the right to enter and improve the channel of the brook, and through which it shall also have the right at any future time to build such main drains or sewers as may be found necessary as time goes on. Also to have the abutters at the same time restrict this land so that no buildings of any kind shall be built upon it other than fences and other like constructions.

It will be observed that the abutters are asked to place this easement and restriction upon their lands, for the purpose of increasing the flow-off of the waters of the brook at times of flood, but are not asked to open their lands to the general public. Only employees of the Town looking after the welfare of the brook would have any right to enter upon the restricted areas in question. It has been urged that these lands should be condemned for park purposes or for road construction. The banks of the stream in their present condition are not suitable for either purpose and could be made so only at a very great expense. Such a treatment would not be a solution of the problem of disposing of flood waters and the committee do not recommend it.

Assuming that the abutters on the brook will place the necessary restrictions and easements upon their land,

as has been indicated, we would then recommend that an appropriation or appropriations be made for the improvement of the channel of the brook. As to the cost of this improvement, it is practically impossible to make any definite figures, but to make such improvements as we contemplate as necessary, it would in our opinion cost between ten and fifteen thousand dollars. The work would have to be done by day labor, and the time for doing it would be restricted from the middle of July to the middle of September. No contractor would take the risk of naming any price other than an exorbitant one, at which he would do the work, as the conditions under which he would be obliged to work would be so dependent upon the weather. It would be necessary to dig a channel to grade which would be rather narrow at the bottom, not over two feet wide, which would provide for the summer flow of the brook. The banks would then slope back, so that the channel at the top would be some sixteen or eighteen feet wide, sufficient to carry off the water of the brook in time of heavy storms. These banks would be grassed.

The bed of the brook is badly choked up in places with weeds, water grass, shrubs, small trees and rubbish. The bed of the brook is also very uneven, sand bars in some places, deep holes in others. It would be necessary that the bed of the brook should be straightened and built to an even grade, which would extend from the foot of the lower dam at Mr. Pope's ice pond to the foot of the lower dam at Mr. Turner's ice pond. In the summer time the amount of water to be taken care of is at times infinitesimal, while at times of ordinary flood in the early spring months it is estimated that the amount of water to be provided for is twenty million gallons per day, and at times of excessive flood, forty million gallons per day. In order to give this great amount of water a

free channel in which to escape, it would be necessary that there should be public ownership or control of the dams which now regulate the height of water in Mr. Turner's pond. It would be necessary to build an additional dam to be used to hold up the water in Mr. Turner's pond, so as not to destroy his ice crop in case of floods in winter, while the dam which now serves that purpose will have to be opened under flood conditions to its utmost extent in order to give a free water course. Doing this also increases the fall of the brook from Pope's ice pond 3.25 feet, and makes the total fall from the foot of the dam at Mr. Pope's ice pond to the foot of the dam at Mr. Turner's ice pond 6.43 feet, ample fall to carry off the water. As it will be necessary to rebuild the highway bridge at Thacher Street, there will be but one obstruction left in the Brook which would be the metropolitan sewer at Brook Road. To remove this obstruction either by lowering the top of the sewer or building an inverted syphon under the sewer would in either case cost ten thousand dollars. We are of the opinion that this obstruction can be ignored, certainly for the present, as the engineers of the State Board of Health say that if the water of the brook strikes this obstruction evenly, and with a rapid flow, it will draw itself over the obstruction and minimize it to such an extent that the expenditure of a large sum of money to remove it would not be warranted. We wish to state clearly that this plan which we suggest, in our opinion, will take care of all ordinary floods which may occur in the valley of the brook, but in case of very extreme floods, the brook will still overflow its banks to a certain extent, but the time which it will remain outside of its banks will be minimized to a comparatively short period, a day or two at the most, as against ten days and two weeks as at present.

To recapitulate, we recommend that the abutters be asked to give the Town an easement in a strip of land sixty feet wide or thirty feet wide on either side of the brook as straightened, giving the Town authority to enter upon this land and build a proper channel for the brook, and care for this channel after it is built; also the right in the future to build other main drains, sewers, etc., through this strip of land, and further to restrict the land against any buildings being built upon it in the future.

Second, that arrangements be made with Mr. Turner in order that the Town will be in a position to control the dams which regulate the flow of water in his ice pond, so that without lowering his ice pond or in any way injuring his prospective ice crop, the water in the dug channel extending around the outside of the ice pond may be lowered at time of flood so as to give a free channel to the flood waters passing down the brook.

Third, that the metropolitan sewer obstruction at Brook Road be ignored.

Fourth, that the highway bridge at Thacher Street be rebuilt.

Fifth, that a properly constructed channel with correct cross sections built to grade from the foot of the lower dam at Mr. Pope's ice pond to the foot of the lower dam at Mr. Turner's ice pond be constructed.

Sixth, that a preliminary appropriation of \$7,500 be made for this purpose, to be expended by the Sewer Commissioners.

It will be necessary to make a small annual appropriation to maintain this suggested improvement to the brook; an appropriation of \$250 annually will probably be sufficient.

In relation to the third question — what board should have charge of the brooks and streams throughout the Town — we beg to report that the Town of Milton was

given authority by the Legislature to construct one or more systems of sewerage by the Acts of 1895. Nothing is said in this Act relative to the care of brooks and other streams, but such acts as have been given by the Legislature during the last five or six years to cities and towns asking for authority to construct sewerage systems have contained direct reference to the care of brooks and other streams, and have placed this care upon the Sewer Commissioners of such cities and towns. This is where we believe it should be, and so recommend; but rather than try to amend the Sewerage Act of 1895 the Legislature should be asked to pass a new act, a draft of which is hereto annexed.

Respectfully submitted,

ELLERTON P. WHITNEY,
LINCOLN BRYANT,
WALTER A. LANE, *Committee.*

ACT TO ENABLE THE TOWN OF MILTON TO PROVIDE FOR
SURFACE MATTER DRAINAGE AND TO CARE FOR
STREAMS, ETC.

SECTION 1. The Town of Milton may, from time to time, by its Board of Sewer Commissioners, for the purpose of providing better surface or other drainage, guarding against pollution of waters and otherwise protecting the public health, within its limits, deepen, widen, clear of obstruction, straighten or divert any brooks, streams or water courses and may straighten or alter the channels and divert the waters thereof, and may lay, make and maintain such main or other drains as it considers necessary. Said Town may, subject to the approval of the State Board of Health, discharge the water collected by such drains, or any of them, into any brook, stream or other water course within its limits.

SECT. 2. Said Town of Milton may, for the purposes of this act, by said Board of Sewer Commissioners, take by purchase, or otherwise, any lands, water rights, water

courses, rights of way or easements in the Town of Milton deemed by said board necessary for the establishment of such drains and connections therewith or necessary for the deepening, widening, clearing of obstruction, straightening or diversion of any brook, stream or water course, or the straightening or alteration of the channel thereof.

SECT. 3. The provisions of Sections 6, 7 and 8 of Chapter 304 of the Acts of 1895 shall apply to any taking made by said board under the authority of this act.

SECT. 4. Said Board of Sewer Commissioners may, at any time within two years after the passage of an order for the doing of any work authorized by Section 1 of this act and after the completion of the work, if in its opinion, any land receives a benefit or advantage therefrom beyond the general advantage to all land in said Town, determine the value of such benefit or advantage to such land and assess upon the same a proportional share of the cost of such work, but no such assessment shall exceed one-half of the amount of such adjudged benefit or advantage.

SECT. 5. The provisions of Sections 2 to 8 inclusive, and 10 to 13 inclusive of Chapter 50 of the Revised Laws, and of Acts in addition thereto or in amendment thereof, so far as applicable and not inconsistent therewith shall apply to the Town of Milton in carrying out the provisions of this act.

SECT. 6. Said Town of Milton, to carry out the provisions of this act, is hereby authorized to issue from time to time bonds, notes, scrip or other evidence of indebtedness to an amount not exceeding in the aggregate one hundred thousand dollars, to be denominated Milton Surface Water Drainage Loan. In other respects the provisions of Sections 13 and 14 of Chapter 304 of the Acts of 1895 shall apply to the issuance and sale of such bonds, notes, scrip or other evidence of indebtedness authorized by this act.

SECT. 7. This act shall take effect upon its passage.

OFFICE OF STATE BOARD OF HEALTH

STATE HOUSE

BOSTON, January 9, 1914.

TO THE COMMITTEE TO INVESTIGATE THE CONDITION OF
PINE TREE BROOK,
Milton, Massachusetts.

WALTER A. LANE, M.D., *Secretary*.

GENTLEMEN:—The State Board of Health received from you on March 31, 1913, the following application for advice as to the condition of Pine Tree Brook:

“At the recent Town Meeting the Moderator appointed a committee consisting of Mr. Ellerton Whitney, Mr. Lincoln Bryant and myself, and at our meeting yesterday we agreed that we should ask the State Board of Health to take specimens of water for analysis now, at flood tide as it were, again in about a month and again late in the summer when the drouth may be at its greatest intensity, if so be.

“Our reason for so asking is that there are a number of cesspools along the brook at varying distances from the stream and we wish to have your analyses to determine what if any seepage may be contaminating the waters of the brook and that we may have the proper date to proceed with our recommendations.

“It has been proposed in two meetings of the Town that these waters should be used as a part of the supply for a prospective pond and swimming pool and skating pond in connection with a public park, and also the local Board of Health has asked that the condition of the brook be investigated, so that this work is distinctly a town affair. We shall much appreciate your early attention to this matter and shall be glad to co-operate in any way with you.”

Subsequently further information was submitted, including the results of the investigations of your commit-

tee as to the condition of the brook and your proposed recommendations as to its improvement.

Pine Tree Brook above Turner's pond drains an area of approximately 7.5 square miles comprising a large part of the northerly slope of the Blue Hills. The greater part of the watershed is sparsely populated, the populous areas being found chiefly in the lower parts of the drainage area between Pope's and Turner's ponds; but, while no doubt considerable polluting matter enters the brook from various sources, such as seepage from cesspools and drains, the wash of streets, and drainage from barns and cultivated lands, the examinations of the waters of the stream do not show marked evidence of serious pollution. Such pollution as the stream may now receive is not sufficient to cause its waters to be offensive or objectionable, and it will no doubt be practicable to maintain it in such condition that both Pope's and Turner's ponds can continue to be used as sources of ice supply while the conditions affecting them remain about as at present, provided the recommendations of the Board already made relative to the use of these ponds for that purpose be followed.

An examination of Pine Tree Brook shows that its channel is irregular, crooked, and in places poorly defined between Pope's and Turner's ponds. The channel is not adapted for the prompt removal of freshet flows, and it appears from your investigations that at times of heavy rain, especially in the spring, the brook in this region may remain for considerable periods in a state of flood, causing the water to flow into the cellars of houses in the Mattapan district, although the houses in many cases are quite remote from the brook.

Judging from the information which you have submitted and such investigations as the Board has been able to make, it appears probable that the best plan of im-

proving the brook will be to reconstruct the channel throughout its length between Pope's and Turner's ponds, giving it a straighter course and a more uniform grade and cross section, and to rebuild and enlarge such bridges over the stream as now obstruct its flow.

It is probably practicable, judging from the plan and profile prepared by your engineer, to construct a suitable channel without interfering with the metropolitan sewer by widening the stream at that point and providing a suitable covering over the sewer. It will probably be best to make a uniform channel with a narrow section at the bottom capable of carrying the summer flow of the stream and a much wider section at a higher level capable of carrying the water of the ordinary winter and spring freshets, without overflowing adjacent lands. If a freshet flow of about twenty cubic feet per second is provided for, the channel will carry off ordinary winter and spring freshets and, while extreme freshets will doubtless occur occasionally which would overflow the banks at times, such overflow is not likely to last for more than a few hours or to cause serious trouble under present conditions. When the area becomes more fully built up, a channel of larger capacity can be provided when necessary.

The design of the cross section of this brook should be given careful consideration before the work is begun in order that favorable hydraulic conditions may be secured.

In the opinion of the Board, the general scheme proposed by your committee, with the suggestions herein contained, is a reasonable one to meet present needs and, with care in the design and construction of the channel, the objectionable flooding in the valley of this stream between Pope's and Turner's ponds can be relieved.

Objectionable pollution of the stream can be prevented for a considerable time in the future with no great difficulty, but it is desirable to provide sewerage in the more

thickly settled parts of the watershed and to extend the sewers from time to time as circumstances require.

The results of the analyses of samples of water collected from various points on the stream are appended hereto.

By order of the Board,

MARK W. RICHARDSON,

Secretary.

REPORT ON PINE TREE BROOK

MILTON, December 15, 1913.

To the Committee on Pine Tree Brook:

GENTLEMEN:—The elevation of the top of Turner's Dam is 35.30, and with all the boards in place, which is usually the case, the waters would be held back for a distance of 2,000 feet.

From observation of floats at several places and on different dates, I have determined the average velocity of the brook to be one-half a foot per second. This velocity, with the dam at its full height is sufficient to carry off the dry weather flow, but after even a normal rainfall of one day, the water overflows on to the low lands.

With a deepening and realignment of the channel the velocity no doubt would increase, but it is doubtful if the overflow can be prevented during the flood season while the dam is maintained permanently at its present elevation.

As you will note by the profile, the bed of the brook is very irregular. In no place between Central Avenue and the Parkway does it show any approach to regularity of cross section, while at all points of intersection with streets are sand bars, caused by the settling of sediment from drain outlets. This can be obviated to a great extent. In addition to this the brook is badly choked with weeds, water-grass, shrubs, small trees and rubbish, in some cases, especially near the Parkway, to such an extent that the flow is retarded and forms pools of practically dead water in dry weather.

From about 500 feet above the Parkway to Pope's pond the brook is in good condition, and while not straight, the curves are easy, the banks and cross section regular, and the bed of good clean gravel with an even

grade. Here the velocity was found to be one foot per second, just twice as great as just at and above the Parkway, where the flow was one-half a foot per second, while just below the Parkway where vegetation was most rank and congested, the flow was but one-sixth of a foot per second.

The average yield of the Sudbury River Watershed, which is used for purposes of comparison, is 1,013,000 gallons per day, per square mile for the year, while the average for the month of March, which is the month of maximum yield, is 2,790,000 gallons per day, per square mile. On this basis, estimating the area of the watershed of Pine Tree Brook at 7.5 square miles, we have a maximum average yield for the month of March of 20,925,000 gallons per day for the Pine Tree Brook Watershed. This is the average for the month of March while the maximum for the same month during a period of observation covering thirty-seven years, is about 100% greater, therefore we should have to provide for a maximum yield of 40,000,000 gallons per day.

From observation the walled-in portion of the brook between Turner's pond and Central Avenue is of a sufficient size to act as a storage basin without overflow except during the months of March and April when it overflows its banks with the dam at its full height.

To regulate the flow of the brook properly it is necessary that Turner's dam be under public control, at least during the months of February, March and April, especially March and April. Your authority to regulate dams for ice ponds, I believe, is assured under Chapter 196, Section 41, of the Revised Laws, which I herewith quote:—

“An owner or lessee of land which is used for an ice pond may erect and, between the first day of November and the first day of March, maintain a dam across a stream not navigable, for the

purpose of making an ice pond by flowing adjoining land, subject to the provisions of this chapter so far as applicable, if he annually pays to the owner of land which may be overflowed or injured thereby the amount of the tax which may from time to time be assessed on such land; but such dam shall not be erected without the consent of all of the owners of the land which would be flowed by it, unless the person or corporation proposing to erect it shall furnish to such owners as do not consent to the erection security, satisfactory to them or approved by a justice of a court or record or by a master in chancery, for the payment of any damages which may be caused by flowing the land of such owners."

I would suggest: First. That the bed of the brook be brought to an even grade from the base of Turner's dam to the base of Pope's dam, disregarding the metropolitan sewer entirely.

Mr. Smith, chief engineer of the metropolitan sewers, estimates the cost of depressing the top of the metropolitan sewer at Brook Road at \$10,000. An inverted siphon could be built under the sewer at this point but the cost would be practically the same, and I do not consider the advantage gained would justify the expenditure. Second. Clear the stream of all rubbish, grass, trees, etc. Bring the bed to a uniform grade with a uniform cross-section throughout its entire length according to plan of section herewith submitted. This would not prevent altogether the flooding of the lowlands at times of extreme flood, but the flood period would be of very much shorter duration than at present.

The necessity of the town obtaining control of Turner's dam cannot be too strongly urged, as in the final analysis

the dam is the key to the entire situation. It will be necessary to equip the dam with gates so that the volume of discharge may be regulated to suit the changing conditions.

Respectfully submitted,
G. FRANK KEMP.

DEPARTMENTAL REPORTS

REPORT OF THE ASSESSORS OF TAXES FOR THE YEAR 1913

The Assessors of Taxes of the Town of Milton herewith submit their annual report for the year 1913.

In January and February of 1913 the board met several times for transaction of routine business, checked and closed up Abatement Account with the Collector of Taxes, made up report and statistics for Auditors' Report of 1913.

In March the board organized with the choice of Wm. W. Churchill as Chairman and Herbert B. Tucker as Secretary. Wallace C. Tucker was reappointed as for the board for the year ensuing.

The Assessors made the usual house-to-house canvass in April, for the purpose of assessing poll taxes, gathering statistics of taxable tangible personal property and other information as required by law.

In accordance with the laws of the State of Massachusetts, this board caused legal notices to be advertised in the local paper and printed notices to be posted in public places, requesting tax payers to bring in to the Assessors on or before May 15, 1913, a true list of their polls, real and personal property which is liable to taxation here.

About 300 sworn lists from individuals, trustees, executors, etc., were received. The Assessors urge the individuals especially to file their sworn lists with us and thus become to a certain extent their own assessors.

In May, June and July the tax on real estate and intangible personal property was levied; in September the tax rate of \$13 per \$1,000 was calculated, declared

and made public. In October, regularly scheduled hearings to listen to petitioners for abatements of taxes were held weekly and adjourned meetings were held weekly through November and December, clearing up these matters.

During the first two weeks in December, the Assessors spent ten days at the State House, going over the lists of stockholders in national banks and trust companies and public service corporations chartered under the laws of the State of Massachusetts; by so doing corporation taxes were recovered for the Town of Milton which had been wrongfully credited elsewhere, to the amount of about \$4,500.

The latter part of December was spent in taking care of additional tax levy, which in certain cases the law provides for.

For the accommodation of the citizens, one member of the board has regularly attended all advertised meetings of registrars of voters.

There have been 124 regular meetings of the Board of Assessors this year.

Actual day-time work covered a period of 147 days; there were also thirty-two evening sessions of the board.

The Assessors found the population of the Town to be 8,224.

Additional statistics are as follows:

Total number of horses	608
Total number of cows	641
Total number of neat cattle other than cows	0
Total number of swine assessed	15
Total number of fowls	3,700
Total value of fowls	\$2,300
Total number of dogs	492
Total number of dwelling houses	1,608
Total number of acres assessed	6,223
The Town received in corporation and bank taxes the sum of	\$93,493 07

Total tax levied		\$408,035 23

Respectfully submitted,

WILLIAM W. CHURCHILL,

GEORGE W. NICKERSON,

HERBERT B. TUCKER,

Assessors of Milton.

REPORT OF TRUSTEES OF CEMETERY

To the Citizens of Milton:

The Trustees of Cemetery make the following report for 1913. We have made 85 interments, 39 of which are from out of town; 24 lots were taken by citizens; 3 lots sold to non-residents; 4 single graves sold; 9 lots put under perpetual care; 30 lots laid out in 1912 were finished in 1913; 14 cords of wood sold; 11 lots regraded and finished; 10 perpetual care lots were regraded and seeded; 20 graves planted with myrtle and English ivy; 24 foundations to monuments, 24 foundations to head stones and markers; 10 graves evergreened; 5 markers were set; 1 step set; 3 removals from Cemetery, besides the general care of the avenues and paths.

As regards gypsy and brown-tail moths, the Tree Warden has sprayed all the trees once during the summer and some of them as often as three times. Our men have done considerable work in painting with creosote and killing caterpillars. While these insects are holding on most stubbornly in the Cemetery, the Tree Warden feels that the conditions have slightly improved and is hopeful of the conditions for another year.

We respectfully ask for \$2,000.

SAMUEL GANNETT,

J. FRANK POPE,

HENRY E. SHELDON,

C. MINOT WELD,

THOMAS K. CUMMINS,

Trustees of Cemetery.

THOMAS W. POND,

Supt. of Cemetery.

ENGINEERS' REPORT

MILTON, MASS., January 12, 1914.

To the Honorable Board of Selectmen:

The Board of Engineers herewith presents its report for the year ending December 31, 1913.

Chief George F. Choate, the head of this department for many years, died on April 4, 1913. The present efficient state of this department is due almost entirely to his untiring efforts.

E. A. McCue, Ernest E. Choate and Albert R. Whittier, Jr., were appointed Engineers and at the first meeting of the board elected E. A. McCue Chief of this department.

The year 1913 has been an exceptionally quiet one. There was a total of 120 alarms including 43 bell alarms, of which 21 were calls to Boston and 77 still alarms. The Boston department responded to 6 alarms in Milton. The total value of property at risk at all fires was \$59,570. The total loss was \$9,515.83, of which \$6,822.83 was paid by the insurance companies.

The fire fighting equipment of the Town is in good condition and only minor repairs have been necessary. Motor driven apparatus has been purchased largely by other towns and cities during the past year but it is deemed inexpedient to recommend its purchase by this department for the present.

There have been no changes in the permanent force, but two callmen have resigned from the call force. One new horse has been purchased and two old horses have been disposed of.

With special appropriations made at last Town Meeting the following work has been done:

A new fire alarm box 651 has been located on Huntington Road.

Thirteen hundred feet of new 2½-inch hose have been purchased.

The old Pope Hartford Runabout used by the Chief has been exchanged for Pope Hartford Touring Car Model 31.

The permanent men have recently presented a petition to the Engineers requesting one day off in five instead of one day off in eight. This matter is being considered by the board.

The Engineers are of the opinion that fire-alarm boxes should be established in several new locations and recommend a special appropriation for this purpose.

The various buildings of the department are in good condition except considerable painting is necessary both inside and outside, especially the upper part of the Combination House which has recently been vacated for the purposes of the department, and the Engineers request a special appropriation for doing this work.

The Chief's automobile is at present kept in the Central Station although facilities there are entirely inadequate. After a careful consideration of various means of housing, the Engineers are of the opinion that by building an addition to the Combination House sufficient room will be afforded for both the present apparatus located there and the Chief's car, and request a special appropriation for doing this work.

In addition to the above special appropriations the Engineers recommend for the care and maintenance of this department during the ensuing year \$26,515.

Yours very truly,

EDWARD A. McCUE,

ERNEST E. CHOATE,

ALBERT R. WHITTIER, JR.

Board of Engineers.

REPORT OF THE BOARD OF HEALTH

To the Citizens of the Town of Milton:

The Board of Health submits herewith its report for the year ending December 31, 1913.

The following appointments were made: F. G. Kemp, Agent for Issuing Burial Permits; L. E. Young, Inspector of Plumbing; B. F. Murray, Deputy Inspector of Plumbing; C. H. Sanford, Caretaker of Hospital; W. C. Tucker, Inspector of Milk; W. C. Tucker, Inspector of Slaughtering; F. T. Hanna was given the contract to collect ashes and garbage for three years. Peter McIntyre was given a permit to slaughter cattle, sheep and swine for food. John R. Lawrence, to empty vaults and cesspools.

The number of cases of contagious diseases reported to the Board of Health for the past three years has been as follows:

	1913	1912	1911
Diphtheria	10	8	13
Scarlet fever	18	10	19
Measles	23	29	33
Typhoid fever	6	5	5
Tuberculosis	13	15	10
Chicken Pox	21	8	24
Whooping Cough	5	20	31
Mumps	3	3	0
Tonsilitis	10		
Ophthalmia Neonatorum	0	3	0

The whole number of deaths recorded in this Town in 1913 is 101 (males 44, females 57), giving a death rate of 12.28 per thousand inhabitants.

	1913	1912	1911
Number of deaths	101	90	100
Rate per thousand	12.28	11.46	12.67

Every year the work of the Board of Health grows, and becomes of greater importance in this Town, as in all others. Not only is it expected to enforce existing laws governing the cleanliness and healthfulness of the community, but to ascertain the best known methods of preventing disease by proper care in the production and handling of foods and along many other lines. Instead of being wholly corrective, however, its work should be, first of all, largely instructive.

The board has found many conditions which were unsanitary and dangerous, and has had as many of them corrected as was possible under existing circumstances.

SEWER CONNECTIONS

The new additions to the sewer on Maple Street, Canton Avenue and Mattapan were favorably received generally, by owners of houses in these districts, who gladly hastened to connect. Throughout the system there are some who, for one reason or another, are slow to take advantage of this improvement. In some instances where connections were made the old cesspools were allowed to remain as well as the outhouses which are habitually used by the general public. These should be done away with at once.

In certain neighborhoods where, probably, will be no sewer for some time, builders are advised and cautioned that cesspools must be made according to the rules and regulations governing the building of cesspools. Section 19, Page 9, Regulations for 1913.

We hope the Sewer Commissioners will extend the sewers as fast as possible in the Mattapan district especially, as there exists many old fashioned out-houses and cesspools of which there have been many complaints, the latter in some cases overflowing into the streets.

COLLECTION OF ASHES AND GARBAGE

The work of this department shows considerable improvement over that of former years, although we are aware that there is still room for better methods.

Better receptacles have been used and a readiness shown by the householders to comply with the rules laid down to facilitate cleaner and more thorough collections.

Difficulties have been met, as for instance with regard to the disposal of paper which is not yet carried out to our entire satisfaction, but on the whole the system is working well.

Ashes have been used here and there to improve the land, by filling in unsightly spots and hollows containing stagnant water which were the breeding places of flies and mosquitoes. We would here request that private dumps be kept in a more tidy condition, by levelling down and burying the unsightly cans and paper.

The garbage has been moved out of Town. This material is valuable for feeding purposes and for fertilizer. Cities such as Worcester, Fall River and Brockton which maintain their own municipal piggeries report a profit of from 7% to 10% on their investment.

Rubbish such as straw, excelsior, boxes and other combustibles should not be allowed to accumulate as it does sometimes till it becomes too large a quantity for the collectors to take without making extra trips. Attention is called to the Regulation, Section 25, on Rubbish and Filth.

We would respectfully recommend that a day be set apart in the spring for a general cleaning up by the whole Town, to be known as Town Cleaning-up Day.

PINE TREE BROOK

Last year the Board had an article in the Warrant asking that something be done to place this brook in a

sanitary condition. Consequently a committee was appointed to investigate. That committee has held several meetings and a public hearing.

We hope that during the coming year the Town and abutters will arrive at some plan to save the brook from further pollution and make its neighborhood more healthful. Extensions of sewers in that district, as already mentioned, will help to improve the brook.

MILK—ITS PRODUCTION AND CARE. INSPECTION

Milk is one of the best of foods when it can be had pure and clean. Preventing changes in milk is a question of preventing introduction of bacteria into milk and of checking their growth or destroying them when they are present. The production of milk reasonably free from bacteria is a simple question of cleanliness.

There are many simple rules and methods for handling milk, requiring little extra labor and no added expense, which will materially increase the healthfulness and keeping quality of the product.

It has been the endeavor of this Board to have the dairies of Milton kept in a clean and healthy condition. It has not been our aim to tear down, or by expensive methods gain the desired results. Simple commonsense, everyday cleanliness is all that has been asked for. To produce good clean milk the cows must be healthy and in good condition, well brushed, then wiped down with a damp burlap before milking to keep the ever present dust and scale from dropping. The milker must be clean and on no account should he wet his hands. These rules if followed should insure clean milk which should be set in a proper, clean place and cooled immediately to 45° F. It should not be allowed to set around in a dirty stable or in a trough where cows and horses drink.

INSPECTION OF MILK

The work of the Inspector of Milk has been as good as could be expected with the limited appropriation and the large territory to be covered. The work of the inspectors, we claim, should be largely instructive.

In order to obtain the best results, producers should be particular in feeding certain kinds of feed which affect the palatableness of the milk, as well as its keeping qualities; for instance, while green corn, cabbage, turnips and ensilage, when fed before milking taint the milk, if fed after milking leave no disagreeable odor or taste and do not lessen its keeping qualities.

We do not believe in pasteurized milk. It is conceded by the best physicians that clean, raw milk is best. No amount of sterilizing can make dirty and tainted milk good.

Mortality among infants is very great. Mothers should nurse their infants when possible. The next best thing is pure, clean, raw cow's milk when obtainable. Pasteurized milk is a dead milk. To quote an authority: "When you feed a line of babies with pasteurized milk you must follow with a line of doctors treating rickets and scurvy."

Great care should be used by producers and dealers to have all utensils clean and well scalded. Washing in cold water is not enough. Those who refill milk jars before washing are reminded of a regulation of the board that prohibits such a practice. Cases of the kind when known should be reported to the Milk Inspector.

TO THE CONSUMER

Not much is ever said about the duties of the milk consumers. A few words of advice here, as to the care of milk while in their possession. It is not sufficient merely to cool the fresh milk. To insure good results it must be

kept cold until used. The housekeeper who leaves her bottles of milk in the sun or standing in a warm kitchen should not blame the milkman for sour milk.

Following, we give a few simple rules for the care of milk:

Take in milk and cream as soon as possible after being left at your door and place in the refrigerator.

Keep milk and cream cold until ready for use. If convenient keep it next to the ice in your box.

If ice cannot be had, wrap the bottle in a wet cloth and stand it in a dish of water by an open window out of the sun. Evaporation of water will cool milk.

Keep milk and cream covered until wanted and in the bottle in which it is delivered. In open bowls and pitchers it will absorb odors and collect flies and dirt.

Pour from a bottle only what milk or cream is needed for immediate use.

Milk or cream that has become warm should never be poured back into a bottle of cold milk or cream.

Wash and return all milk and cream bottles daily.

Have a separate quart of milk for the baby. What the child does not use others may have.

In mixing the baby's food do not add a warm fluid to the milk until you are ready to give it to the baby.

Do not leave milk, cream or butter standing around on the kitchen table.

Put nothing in milk or cream bottles after bottles are empty. Sterilizing will not kill all odors.

In closing we would offer our services to all of our townspeople who need them, if they will but make their needs known. Copies of the Rules and Regulations of the Board of Health as well as pamphlets upon the feeding of infants, sent out by the State Board, may be had at any time upon application to the secretary of our board.

Board of Public Works, Health Department:

GENTLEMEN:—I hereby submit my report for the year 1913:—

17 vaults cleaned,

76 cesspools, 174 loads from same.

Respectfully yours,

JOHN R. LAWRENCE,
MILTON, MASS.

MILTON, MASS., January 19, 1914.

To the Honorable Board of Health:

GENTLEMEN:—I herewith submit my report of collecting ashes and garbage for the year ending December 31, 1913. There have been collected 111,980 barrels of ashes and 74 cords of garbage. There are also 60 more dwellings that received the service the past year. It has been impossible to have the people in general keep the ashes and paper separate. Also the same trouble is found in the garbage, people throwing paper, tin cans, etc., into the garbage pails. I have tried to have them stop this but have met with poor results so far. It is impossible to try and work a paper wagon until the people will separate the paper from the ashes or garbage.

Yours,

F. T. HANNA.

Signed,

J. S. LINCOLN, *Chairman*.

A. W. DRAPER, *Secretary*.

MILTON, MASS., January 16, 1914.

REPORT OF THE INSPECTOR OF ANIMALS

MILTON, MASS., January 1, 1914.

To the Honorable Board of Selectmen:

GENTLEMEN:—I have the honor to present, as Inspector of Animals, the following report for the year ending December 31, 1913. I inspected ninety-seven (97) stables where cattle are kept, and found them, with but few exceptions, in good sanitary condition; meeting requirements in regard to light, water supply, drainage, ventilation, etc. I gave a physical examination to seven hundred thirty-two (732) cows, seventeen (17) bulls, seventy-three (73) sheep, four (4) goats, and one hundred thirty (130) swine, all of which I found free from tuberculosis or any other contagious disease. I quarantined six (6) cows for tuberculosis symptoms, and one (1) calf and four (4) dogs for rabies, which were turned over to the State.

I have also examined all cattle entering the Town from outside the State and reported on same to the Department of Animal Industry.

Respectfully submitted,

JAMES SPENCER.

REPORT OF THE INSPECTOR OF BUILDINGS

MILTON, MASS., January 1, 1914.

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith submit my annual report for the year ending December 31, 1913.

There have been one hundred seventy eight (178) applications made, and permits issued, for same. I have made seven hundred ten (710) inspections. There have been sixteen (16) buildings examined for permits to move and nine (9) permits issued.

WORK OF THE BUILDING DEPARTMENT BY MONTHLY REPORT

Months	Permits for Wooden Buildings	Permits for Stone, Cement and Brick Buildings	Valuation by Application
January	12	1	\$49,050 00
February	10		9,130 00
March	2		425 00
April	17	7	89,315 00
May	14	3	44,255 00
June	14	2	61,100 00
July	20	4	99,725 00
August	13		31,710 00

	139	39	\$521,215 00

Making the valuation, as per applications, five hundred twenty-one thousand two hundred fifteen dollars (\$521,215.00).

Respectfully submitted,

G. E. BURT,
Inspector of Buildings.

REPORT OF THE INSPECTOR OF MILK

MILTON, MASS., January 1, 1914.

To the Board of Health:

GENTLEMEN:—My report as Inspector of Milk for the year ending December 31, 1913, is as follows:

There have been 51 licenses issued: 8 to stores and 43 to wagons. Of these 37 were residents of Milton and 14 non-residents. In all 343 samples of milk have been taken from wagons, stores and dairies. This year I have made special efforts to investigate and have analysed milk from dairies, since these are the sources of the milk supply.

These samples have been analysed as usual at the Harvard Dental School, Department of Chemistry, and nearly 90% (89.2%) have been found to be up to the standard required by the State Law.

Forty-eight (48) bacteriological examinations of dairy milk have been made and 89.6% of these have passed. Further investigation is always made in those cases not up to the standard, and further analysis obtained.

The whole question of milk supply and inspection is an extremely important one, and I cannot insist too strongly on the care and cleanliness necessary on the part of producers and dealers in the handling of milk.

I am gratified at certain improvements that have been made at my suggestion, and again ask for further co-operation of the consumers in our efforts to obtain pure milk.

Respectfully submitted,

WALLACE C. TUCKER,

Inspector of Milk.

REPORT OF THE INSPECTOR OF PLUMBING

MILTON, MASS., January 1, 1914.

To the Honorable Board of Health:

GENTLEMEN:—I beg leave to submit the following report for the Department of Inspection of Plumbing for the year ending December 31, 1913.

One hundred ninety-four permits to perform plumbing have been issued from this office, the approximate valuation of this work being fifty-one thousand seven hundred thirty-six dollars (\$51,736).

Connections of sixty-two buildings with the Town sewers have been supervised, by your orders, and necessary improvements made in existing conditions.

Thanking you for your co-operation and support, this report is respectfully submitted.

LORENZO E. YOUNG,
Inspector of Plumbing.

REPORT OF THE INSPECTOR OF SLAUGHTERING

MILTON, MASS., January 1, 1914.

To the Honorable Board of Health:

GENTLEMEN:—I herewith submit my report as Inspector of Slaughtering for the year ending December 31, 1913.

I have inspected and stamped at McIntyre's Slaughter House 66 hogs, 1 cow, 2 sheep, and at Cunningham Park 41 sheep, making a total of 110 carcasses.

Respectfully,

WALLACE C. TUCKER,

Inspector.

REPORT OF THE INSPECTOR OF WIRES

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith present the report of the Department of Wires for the year ending December 31, 1913.

This department was under the supervision of the late Geo. F. Choate until April 4, 1913, the time of his death, and I was his assistant.

On May 1, 1913, I was appointed Superintendent of Wires.

This department has the supervision of the Fire Alarm and Police Alarm Systems, also the inspection of all buildings equipped with electric light service and all poles and wires in Town streets.

	1912	1913
For light and power	102	167
Number of inspections	309	473
Number of incandescent lights wired for	2,504	3,153
Number of motors installed	5	10
Total horse-power	14	75
Number of rectifiers installed	3	6
Total watts	18,512	28,200
Number of electric heaters installed		7
Total watts		7,225

OVERHEAD AND UNDERGROUND WIRES

Seven thousand four hundred and seventy-three feet of four-conductor lead cable has been installed in underground conduits on Randolph Avenue between Reedsdale Road and Hillside Street. This cable contains parts of Circuit No. 4 Fire Alarm and Circuit No. 2 Police Alarm Signal Wires. Six miles of overhead No. 9 iron wire have been removed from poles.

As in previous reports I warn all citizens of the extreme

danger to life in touching or handling any wire they may find broken from its supports or lying on the ground. All such wires should be promptly reported to this department that they may receive immediate attention.

A large number of defective poles have been condemned by this department, and have been replaced by the various companies owning same. As I believe the time has come when the overhead wires owned by the different companies in the Town should be placed under ground, I would suggest that the proper steps be taken requiring these companies to do a certain portion of this work each year.

FIRE ALARM AND POLICE ALARM SYSTEMS

As this department was reduced in its equipment and help for the greater part of the year, and the inspection of wires increased largely over the year, it has been impossible to give the Police Alarm and Fire Alarm systems the proper time and care that this branch of the Wire Department should have.

During the past year there has been an exceptionally large number of electrical storms, causing a large amount of trouble on fire and police systems.

In all these cases as well as all other emergency cases, the greatest possible efforts were made by this department to locate the trouble and clear lines.

As the efficiency of the Fire and Police departments depends largely on the effectiveness of the signal systems, the Wire Department should be provided with better equipment and the necessary help to attain the same.

One new box has been added to the Fire Alarm System, Box 651, located on Huntington Road near Warner Road. Nine hundred and sixty-five feet of two-conductor loom cable were used.

New batteries have been placed in all of the police signal boxes this year.

The storage batteries at the Central Fire Station which operate the Fire Alarm System show by test that the plates are nearing the end of their usefulness. These will in the very near future have to be replaced by new plates.

About 800 feet of one pair rubber-covered wires in underground conduits on Brush Hill Road, between Fairmount Avenue and Bradlee Road, are in very bad condition, lightning having done considerable damage to same in storm of June 7, 1913.

It has been repaired temporarily but should be replaced by a two-conductor lead cable.

Fifteen hundred feet of two-conductor lead cable have been purchased to take the place of old rubber-covered wires in conduits between Box 17, Corner of Blue Hill Avenue and Brush Hill Road, and pole 100 feet north on Oakland Street, Mattapan.

RECOMMENDATION

As the duties of the Wire Department in 1913 have increased largely over last year and the work of this department cannot be properly done with present equipment, I ask that this department be supplied with a small auto truck.

For replacing of storage batteries plates, putting wires under ground, the purchase of material for repairs and maintenance of Wire Department, I recommend an appropriation of one thousand one hundred and fifty dollars (\$1,150).

Respectfully submitted,

ERNEST E. CHOATE,

Superintendent of Wires.

REPORT OF THE PARK COMMISSIONERS

MILTON, January 1, 1914.

To the Citizens of the Town of Milton:

For several years past your Park Commission has been giving much thought to the question of playground supervision and development. In this it has been most fortunate in receiving outside co-operation. For two summers there has been furnished part time of two men supervisors, and the past summer a woman supervisor has also been furnished from outside. In other words, the work of directing play at Brook Road Playground has been practically tried out at no expense to the Town. So successful has this been, that the Park Commission now asks that the Town make an appropriation for the continuance of this supervision; this is put under the head of "General Purposes," as it should become a regular appropriation for the conduct of the playground. Then also the care and up-keep of the grounds and apparatus require a good deal of the time of a custodian. The usual hundred dollars for running expenses of the department is included under this head. We ask for \$3,000.

Soon after the last Town Meeting, it was found that the Hinckley lot adjoining Brook Road Playground could be purchased at a fair price. An option was obtained on it and a sufficient sum is assured for its purchase. This land is now offered as a gift to the Town, to be added to and used as a part of the playground under the same management, provided that the title proves satisfactory to the Selectmen. The land consists of almost three acres, and it has certain features of great value as an addition to the playground. The trees furnish the shade

which is at present lacking on the old playground, and a short slope makes a coast which is a desirable acquisition for small children. A goodly amount of last year's appropriation for the development of Brook Road Playground still remains unexpended, because it seemed just as well to go slowly and be sure of each step, and especially as it was seen early in the spring, as has already been stated, that the Hinckley land might be acquired and the development of the enlarged playground might be on different lines from our former plans.

We have prepared for the March Meeting Warrant an article drawn up on the supposition that the Hinckley land will be accepted and that the title will prove satisfactory. This article reads:

"To see if, in the event of the Town's accepting as a part of Brook Road Playground the plot now standing in the name of Nathaniel B. Hinckley, offered as a gift under an article of this Warrant, the Town will vote to appropriate money, and what sum, for the erection of a municipal gymnasium on the Brook Road Playground as thus enlarged, or what action it will take in regard to such municipal gymnasium."

It is not proposed to erect an elaborate gymnasium, but rather to put up such a structure as will furnish dressing and toilet rooms with hot and cold water, the exercising rooms to be but slightly heated in severe weather. We believe that the further development of such gymnasium should be guided by the growth of the demand upon it, and that it could be best worked out with the aid of the supervisors employed. For the construction of such a building we recommend an appropriation of \$25,000.

The future growth of such gymnasium we feel that we cannot pretend to foretell. The present need of some-

thing of the sort has been clearly shown in the makeshift gymnasium at 101 Blue Hills Parkway, known as Kidder Gymnasium. Consultation with the School Committee has convinced us that the time has come for putting this enterprise on a more normal basis, that is, under municipal management, and we believe that the Park Commission, equipped as it is under the Park Acts, is the proper body to have charge of this with the co-operation of the School Committee. Such co-operation we understand that committee is ready to furnish, and we further understand that the School Committee Report includes a recommendation to this effect. Though the details of the division of the responsibility of management are yet to be determined, it seems wise that the appropriation for legal reasons be made wholly in the name of the Park Commissioners.

We have been thoroughly convinced by the use of the playground for the past year that more space is required. This the proposed addition of three acres would furnish, but more important by far than this, is the need of development on a permanent basis, and this we feel would come with the adoption of the policy of municipal management and the erection of a gymnasium.

Without trying to give in detail all the work and play which has been carried out at Brook Road, we would call attention to the following:

(a) A women's locker and sanitary building was built at the southwest corner of the lot. This corner has been set aside as the part devoted to the small children. The building, a part of which is of the nature of a summer house, has several uses, including serving as a shelter from the sun in hot weather. Both of the locker buildings on the ground are of cheap construction, and would be supplanted by the proposed gymnasium; that is, when they are worn out they would not be replaced.

(b) The tussocks of grass were hoed out in the neighborhood of the second diamond and the surface levelled over. This work is not entirely finished nor can it be until spring.

(c) Bleachers have been constructed near the east diamond which are capable of seating about 250 people.

The low land at the east end of the playground was used for children's gardens under the supervisors of the grounds. This work has in the past been only a partial success, and it is expected that it may be done the coming summer in a more systematic way under the management of the schools. This will probably be undertaken through the Home Garden Committee of the Education Society, and though mentioned in this report may be located elsewhere. The row of trees along the street has again died, owing to the drought, but we shall not give up trying for this, though a different species may be planted next time.

The work done under the supervisors, though mentioned so late in our report, is the most important accomplishment of the plant. Nearly three hundred boys and girls were registered, ranging in age from four to twenty-five, and while the majority of these are in the schools, it must not be lost sight of that some are not, and it may be properly stated here that we consider it desirable to encourage those beyond school age to make use of the grounds and of the projected gymnasium. Football, baseball, basketball, running, jumping, and all such vigorous sports, and folk-dancing and other team sports for the smaller children were carried on. Classes in raffia and reed work were conducted with an attendance as high as fifty. Exhibitions of such play and work were held during the season and brought out a goodly attendance of parents and others interested.

Crane Field is now an established part of the Town's holdings in the care of this commission. It was bought last spring in accordance with the vote under Article 50

of the March Meeting Warrant. Though known hitherto as Belcher Circle, this parcel of land was not included in Governor Belcher's holdings, and as Belcher's name is already perpetuated in the street bounding this land on two sides, and in one of the largest schools of the Town, and, on the other hand, as one of the oldest names of East Milton was "Crane's Plain," we have decided to call this park Crane Field. While we do not consider it necessary to spend much money in its development in the immediate future, we have prepared plans for its ultimate development, and believe that the sum of \$750 should now be appropriated for the purpose of making a start, especially in planting trees around its border and in grading over the unsightly scars. Such work would probably be all that would be needed there for a number of years to come.

Nothing new has been done at East Milton Playground. The Street Department has had 305 loads of sand and gravel from the pit on the Squantum Street side.

At Dollar Lane Playground, where we feel that the unsightly dump on Blue Hill Avenue should be graded over, nothing has been done. It is a poor example to our citizens for the Town to maintain such an eyesore as this. It will be recalled that we asked a year ago for an appropriation of \$200 for rectifying this, but that this was not recommended by the Warrant Committee and so was dropped. Again we ask for an appropriation of \$200 for this purpose, having this time prepared a special article for the Warrant to insure its being laid before the townspeople.

Hollingsworth Field has had nothing done to it with the exception of the removal of the back-stop. This was done because though the improvised diamond had been used a little by some of the smaller boys, there seemed to be no reason why they should not use Road Brook Playground, and especially because the field is not as well

fitted for games as for a neighborhood park. The grass here has got very much run out. The seats have been abused but should be replaced.

The appropriation amounting to \$100, to be expended under the joint direction of the School Committee and this commission, has been applied in the planting of a Japanese barberry hedge along a part of the Oak Street boundary of the Tucker School grounds, and the balance now remaining will be applied at the Glover School in preparing for cultivation the lot formerly occupied by one of the portable buildings there.

To sum up, our recommendations are that the Hinckley lot of nearly three acres be accepted and added to Brook Road Playground and that the following appropriations be made:

General purposes (including supervision)	\$ 3,000
For a municipal gymnasium on Brook Road Playground	25,000
For grading and planting at Crane Field	750
For grading the dump at Dollar Lane Playground	200
For improvement of school lots, to be expended by the Park Commission and School Committee	100

Respectfully submitted,

NATHANIEL T. KIDDER,

CHARLES E. ROGERSON,

J. SUMNER DRAPER,

Park Commissioners of the Town of Milton.

POLICE DEPARTMENT

To the Honorable Board of Selectmen:

GENTLEMEN:—I have the honor to submit for your consideration the annual report of the Police Department for the year ending December 31, 1913.

Superintendent.—Maurice Pierce.

Deputy Superintendent.—Timothy McDermott.

STOLEN PROPERTY

Amount reported stolen	\$304 00
Amount recovered	204 00

CRIME

The Town has been quiet, no special disturbance having taken place, nor any serious crime committed, not a single case of breaking and entering having been reported during the year. Critics of the Town's deportment would find it interesting and instructive to compare their home town with other communities.

THE FORCE

To every member of the Force I wish to acknowledge my obligations for very efficient work during the year. All have vigilantly and earnestly performed their duty.

AUTOMOBILE PATROL AND AMBULANCE SERVICE

The auto patrol and ambulance, the purchase of which was authorized by the Town at the Annual Town Meeting in March, was placed in commission on August 23, 1913.

An expert chauffeur came with the car and remained two weeks. During his stay he instructed three officers in operating the car. The car has never been out of commission, has a mileage of thirteen hundred ninety three, and is doing the work of the department in a thoroughly satisfactory manner.

I have made it a practice to personally examine every auto patrol placed in service this year, and have no hesitation in saying that the "White" combination patrol

and ambulance owned by the Town of Milton is the very best vehicle of its kind in service in the State.

A number of fast trips have been made to the hospitals in emergency cases, twelve in all; and one prominent physician of the town has told me that we were the means of saving the life of a patient whom we carried to the hospital for him. In that case alone the car has paid for itself since it has been in commission, and it shows that we have the means to save life when the emergency arises.

It is somewhat amusing to hear some of our citizens attempt to ridicule the Superintendent for asking for things that will benefit his department. The Superintendent knows what is needed for his department better than a blacksmith, carpenter, lawyer or machinist, or any other man who has always followed other business; and any superintendent who has not pluck enough to go before his townspeople and tell them what his department needs is not fit to be at the head of it.

The Stanley steam automobile owned by the department is in very bad condition and is not worth repair, as it would cost more to keep it up than it is worth to the Town. It has a mileage of twenty-seven thousand, and is not fit for the purpose for which it is used; and I hope the Town will accept the proposition made to me by the Stanley Motor Carriage Co., which is as follows:

“Confirming our conversation with you we will agree to sell to you one of our four-passenger 30 H.P. cars, which we list for \$2,500, for \$1,400 and your present Model 73.”

CONCLUSION

I sincerely express my thanks to your Honorable Board for your courtesy, advice and consideration in all

matters pertaining to the welfare of the Police Department, to all members of the Police Department for their fidelity, and to all others who have aided this department by their co-operation.

Respectfully,

MAURICE PIERCE,
Superintendent of Police.

REPORT OF OVERSEERS OF THE POOR

MILTON, December 31, 1913.

To the Citizens of Milton:

The Board of Overseers of the Poor present the following report for the calendar year 1913.

Fourteen meetings of the board have been held during the year, two of which were at the Town Farm.

A change in the membership of the board occurred in March when Parker B. Field and Mrs. Lavinia H. Brackett declined to be re-elected for another term. Each of these members had served continuously on the board since March of 1904, when the Overseers of the Poor were made a separate board, the Selectmen having, previous to that time, served as Overseers. During this service of nine years both Mr. Field and Mrs. Brackett have rendered valuable service to the Town, having each of them unusual qualifications for, and familiarity with, the best methods of handling such problems as are continually arising in the care of the destitute. Mr. Field through his knowledge of the technicalities relating to dependent children and others, has been of great assistance in the work, especially in establishing for the new board, in 1904, orderly and up-to-date methods of conducting its business.

At the Annual Meeting in March, the Town elected two new members to the board, viz., Mrs. Caroline E. Williams and Rev. Albert D. Smith, and on the fifth of March the board organized with Arthur H. Tucker as Chairman and Walter D. Brooks as Secretary.

Mr. and Mrs. Calvin H. Sanford were re-elected by the board, to act as Superintendent and Matron at the Town Farm.

As Mr. Albert Rounseville (for nine years the Agent of the Board) found it impossible longer to devote as much

time as formerly to the duties of Agent, the board has relieved him of a portion of the work by the appointment of Mrs. Lavinia H. Brackett as Visitor. The duties of Visitor include investigating the conditions from month to month of all persons within the Town who are aided by the Board; keeping in touch with the necessities and care of each case; distributing such cash allowances as are given monthly for payment of rent and food, and making periodical visits, as required by law, to persons aided in distant parts of the State or elsewhere. In carrying out these duties Mrs. Brackett's lifelong experience in kindred work has been invaluable, and she has been able to get closely in touch with the daily life and actual needs of those aided. By her attendance at all regular meetings, the board has been able to retain the benefit of her knowledge and advice in any matter.

Mr. Rounseville's services as Agent are retained for the investigation of legal questions involving settlement of all new cases arising within the Town, and of all cases elsewhere notice of which is received from other municipalities. He attends all regular meetings of the board, and is usually to be found at the Town Hall on Thursdays.

The combined salaries paid to Visitor and Agent are the same as that previously paid when all this service was attended to by the Agent.

Some repairs to the roof of the main building at Town Farm were found necessary early last spring, and enough work, of a more or less temporary nature, was done to keep the roof comparatively tight through the year. More extensive repairs are needed, however, than can be taken care of by the usual annual appropriation for the Poor Department. These repairs consist in putting into tight condition the slate roof,—replacing with new the gutters and cornices where rotted, and providing new window sashes wherever the old ones are loose and dropping apart.

For this purpose the board recommends that the Town appropriate the sum of fifteen hundred dollars (\$1,500).

Total	\$1,044 90

The average number of inmates at the Town Farm for the year covered by this report is slightly more than for the preceding year, being 6.35. One permanent inmate has died during the year, and two others have been added to the number at the Town Farm, which at this date contains seven inmates.

The arrangement for housing the inmates all in one building at the Town Farm, which was tried out last year as mentioned in the last annual report, was not attempted this winter, as it was found unsatisfactory—the house not being sufficiently well arranged to house all the inmates within it.

The appropriation of \$5,800 made by the Town at the Annual Meeting of 1912 was found insufficient to meet all the demands of that year for this department, and the board found at the end of February 1913, that the liabilities exceeded the funds available by \$140.52. This deficit the Town provided for at its March Meeting of 1913 by an increase of \$150 in its appropriation,

making a total of \$6,150. Of this sum there remains at this date \$859.90 which it is hoped will be sufficient to meet all necessities for the next two months.

Probably \$5,000 will be necessary in addition to receipts from other municipalities, and sales from the Town Farm, to care for the poor during the months March to December inclusive of 1914, to which must be added the sum of \$1,500 estimated for repairs as before stated and the board recommends that the sum of \$6,500 be appropriated.

The board or any of its members or officers will welcome at any time any suggestion, criticisms or inquiries relating to the work of the department.

Respectfully submitted,

ARTHUR H. TUCKER, *Chairman,*

WALTER D. BROOKS, *Secretary,*

HORACE N. PLUMMER,

ALBERT D. SMITH,

CAROLINE E. WILLIAMS,

Overseers of the Poor.

REPORT OF THE TRUSTEES OF THE MILTON PUBLIC LIBRARY FOR THE YEAR ENDING DECEMBER 31, 1913

MILTON, MASS., January 1, 1914.

To the Citizens of Milton:

The Trustees of the Milton Public Library take much satisfaction in the excellent work done by the Library as described in detail in the report of the Librarian which is herewith submitted.

It will be seen from this report that the circulation for the past year has been the largest in the history of the Library, namely, a total of 75,424 volumes. The Central Library as well as all the branches have made distinct gains, the gains at Mattapan and at the Russell Reading Room at Scott's Woods being, perhaps, the most significant. The wisdom of locating the Central Library at the center of the Town has been justified by the number of citizens who have used it; more than ever has this location been proved to be a wise one by the fact that the circulation this year alone from the Central Library has reached the large number of 39,232 volumes.

The Trustees feel also that the work has been carried on with due economy, for although the circulation and the consequent labor attending it have been much greater, the extra cost to the Town has been but slight. This satisfactory condition could not have been attained without the efficient and cheerful co-operation of the Librarian and her corps of assistants.

An innovation in the effort of the Library to serve the citizens has been the three talks given by Miss Luard of the Central Library before the classes in Economics, Current events, and American history in the High

School. As a result the Librarian reports "that already pupils are using the Library more intelligently."

One of the ways in which the Library attempts to meet the needs of the Town is evidently not appreciated as it might be, that is, the opening of the Central Library on Sundays. The attendance is small and the Librarian suggests that, with increase of the work in other directions, it may not be worth while to continue Sunday opening.

The Trustees would like to put special emphasis upon the fact that the Library is a member of the Boston Co-operative Information Bureau. The Librarian reports that "through this Bureau, anyone desiring expert advice or information outside the scope of the Library, may have his inquiry referred to the proper source." This is an important addition to the educational opportunities which the Library offers.

It is a source of gratification, and an indication of the responsibility the citizens feel for the property of the Town that during the year but 11 books have been missing, 7 from the Children's Room, and 4 from the adult department. Out of a total circulation of 75,424 volumes, this loss is small.

The most notable gift of the year was the sum of \$1,000, given by Mrs. Joseph C. Whitney, May 8, 1913, in memory of her husband. The money has been permanently invested and is to be known as the Joseph C. Whitney fund.

Respectfully submitted,

NATHANIEL T. KIDDER, *Chairman*,
CHARLES E. ROGERSON, *Treasurer*,
RODERICK STEBBINS, *Secretary*,
ORRIN A. ANDREWS,
FRANK E. LANE,
JOHN F. PERKINS,
FREDERIC M. STONE,
ARTHUR H. TUCKER,
HARRY K. WHITE,

Trustees of the Milton Public Library.

REPORT OF THE LIBRARIAN

MILTON, MASS., January 1, 1914.

To the Trustees of the Milton Public Library:

I have the honor to submit my report for the year ending December 31, 1913.

Notwithstanding the fact that the circulation last year reached a high figure—a total of 65,005—there has been a surprisingly large gain during 1913, bringing the total up to 75,424, a per capita circulation of 9.5.* This is a gain over last year of 10,419 and is the largest circulation which the Library has ever had.

The circulation from the Central Library has been 39,232; from East Milton 18,337; from Mattapan 15,226; and from Russell 2,629. This shows an increase over last year at Central of 4,089; at East Milton of 1,562; at Mattapan of 4,269; and at Russell of 499. The gain month by month was as follows:—January, 912, February, 171, March, 396, April, 922, May, 1,071, June, 1,196, July 474, August, 509, September, 1,656, October, 1,661, November, 662, December, 789.

At the Central Library the gain in adult books has been 2,923; in juvenile 1,166, total 4,089; at East Milton the adult gain has been 754, juvenile 808, total 1,562; at Russell the adult gain has been 213, juvenile 286, total 499. The adult gain at Mattapan has been 1,988, the juvenile 2,281, a total of 4,269, but as that Branch has been opened six days a week instead of two as in 1912, it is impossible to tell how much of this increase is a net gain. The weekly exchange from the Central Library to

*Based on census of 1910 (population 7,924). Circulation per capita based on Assessor's census 9.14 (population 8,224).

Mattapan has increased 309, which shows careful personal work on the part of Miss Hills.

The house-to-house delivery service has had a considerable increase. In 1912, 3,691 books were delivered, in 1913, 4,977, a gain of 1,286. For the success of this service credit is due not only to the assistant in charge at the Library, but to Frank M. Farrington, who for twelve years has made the deliveries. Mr. Farrington made the first delivery on January 2, 1902, and during all these twelve years he has missed but two deliveries; moreover he has been faithful and unremitting in his efforts to give the householders on his route the best of service. Milton is indebted to him for helping to build up a kind of service which is unusual in most libraries of the country.

The work of the Children's Room is best summed up by quoting from Miss Allen's report. "The year has been one of unusual activity. A great many small children have registered, the largest percentage of new borrowers having come from the Wadsworth School district, a district which in the past has used the Library very little.

"The children of the first four grades have been constant readers. If this younger element continues to use the room to the same extent during the following year, it will be necessary to increase the collection of primers and easy readers. Not only is the call for such books insistent at the Central Library, but the Branches report a similar demand.

"A few weeks before the summer vacation began, lists with the heading 'A few good books to read during the vacation' were distributed at the various schools. Such lists are apparently worth while, if one can judge by the number of children who brought them back to the Library."

The usual collection of Christmas books was shown

in the Children's Room from November 17 to December 20.

The circulation from the Children's Room has been 13,065, an increase of 1,166 over 1912. 2,815 books have been sent to the schools, against 2,667 in 1912. The number of pictures lent during the year has been 1,213.

Miss Luard has given three talks at the High School before the classes in Economics, Current events, and American history. In these talks Miss Luard has told the pupils about the various periodicals and what each one is used for,—how to use Poole and other indexes, how to use the catalogue, and something of the classification of the Library. That these talks have borne fruit is shown by the fact that already pupils are using the Library more intelligently; they are learning to help themselves, and to rely less on Library assistants.

It has been possible this year to send more new novels to the East Milton and Mattapan Branches. As a result, both Miss Babcock and Miss Hills report better service to their public. In connection with Professor Graham's lecture on Poultry before the Tucker School Association on October 9, sixteen books on poultry were sent to the Mattapan Branch. These books created a new interest which resulted in several registrations, and the books are still in circulation most of the time.

The character of the work at Russell Reading Room is changing. I quote from Miss Kennedy's report. "One who has watched the Russell Branch carefully from its opening, evening after evening, cannot fail to see how gradually it is being used more and more as a reading room. During the earlier years visitors selected a book, sat down at a table and turned a few leaves in the magazines, glancing at the pictures or the advertisements, and then went out. Now nearly everyone stays to read."

At the Central Library the attendance for the year has been 22,664; at East Milton, 16,687; at Mattapan, 18,130, and at Russell, 1,572, a total of 59,053, and a gain of 9,835 over 1912. The attendance of the Children's Room which is included in the total for Central has been 10,523.

The use of the Library on Sunday has continued about the same, with an attendance varying from 16 to 90. Although this attendance compares favorably with that of previous years, it is not as large as it should be; few people use the Library on Sunday who do not come on week days, and it is a question whether, with the increase of work in other directions, it will be worth while to continue Sunday opening unless the privilege is appreciated by more people.

The Library has received as gifts many miscellaneous books, pamphlets, reports, periodicals, etc. Among the more important ones may be mentioned, 24 numbers of the American art review, from Mrs. George H. Chickering; 70 odd volumes from the estate of Miss Joanna Rotch; a copy of The photographic history of the Civil war in 10 volumes, from Mr. William F. Leavitt; 30 volumes from the Columbine Book Club; a copy of The Pilgrims and their monument, from the author, Mr. Edmund Janes Carpenter; a copy of As to polo, by the Hon. William Cameron Forbes, from Mrs. William H. Forbes; Selected readings in English history, from Miss Harriet E. Tuell, one of the compilers; a set of Stoddard's lectures in 10 volumes, from Mrs. Edward M. Cary; 4 copies of Hiesemann, How to attract and protect the wild birds, 4 copies of the Pocket list of birds in Eastern Massachusetts, a copy of Forbush, Game birds, wild fowl and shore birds, a copy of the life of Fabre by Legros, from Dr. Harris Kennedy; 5 sets (3 each) Audubon bird charts, 5 copies of Trafton's book on Methods of

attracting birds, 5 copies of the poster issued by the Fish and Game Protective Association, giving the Federal migratory bird law as well as the State game laws, and one Perry bird box, from the Brush Hill Bird Club; 42 miscellaneous photographs, 23 numbers of the American art review, also a copy of his, *The problem of age, growth, and death*, from Dr. Charles S. Minot; 30 photographs of the Yosemite valley, from Mr. Arthur Wainwright; and from Mrs. Harrison O. Apthorp, a framed photograph of Leonardo da Vinci's *Last Supper*, which has been hung at Russell Reading Room.

One hundred and fifteen meetings of various societies and committees have been held at the Library, with a total attendance of 1,415. On November 6, a class of 40 from the Library School of Simmons College visited the Library.

Although the exhibits have been few, they have been of unusual importance. From January 1 to April 28, etchings by Whistler and Pennell owned by the Library; from May 3 to October 11, paintings by C. Scott White; from November 1 to December 31, samplers, wrought pictures and mourning jewellery made previous to 1825. This last exhibit was arranged by the Committee on Articles of Historic Interest of the Milton Historical Society. The attendance was 466, and included people outside of Milton. Photographs taken during the summer exhibit at the Brook Road Playground were also hung in the Library.

The Library is a member of the Drama League, and receives its bulletins, study lists, etc. The Library is also a member of the Boston Co-operative Information Bureau, established as a general clearing house for special information. Through this Bureau, any one desiring expert advice or information, outside the scope of the Library, may have his inquiry referred to the proper source.

The yearly inventory shows only 11 books missing, 7 from the Children's Room and 4 from the adult department.

There have been several changes in the staff. Miss Lucy M. Eveleth entered the service on March 26, as an assistant at the Central Library; she resigned November 1. Miss Marjorie Talbot, who had been in charge of the Mattapan Branch, resigned on April 18. She was succeeded by Miss Dora W. Hills, who entered the service on March 31. Miss Hills was appointed assistant in charge of the Mattapan Branch on April 28. On December 1, Miss Katharine Wells entered the service as an assistant at the Central Library.

While changes in staff necessarily mean temporary readjustment, the work as a whole has suffered little. The year's record is the best that the Library has ever had, and the Trustees and the members of the staff may well be gratified, for to their unceasing interest such a record is due.

Respectfully submitted,

GERTRUDE E. FORREST,
Librarian.

In Memoriam

Henry H. Barnes

Chairman, Board of Selectmen, Milton, Mass.

Born August 28, 1868

Died January 24, 1914

REPORT OF THE BOARD OF SELECTMEN OF MILTON

The Board of Selectmen of the Town of Milton herewith submits the seventy-seventh annual report.

Bonded debt of the Town as of January 1, 1913	\$349,000
Bonds paid during the year 1913	27,000
Bonds issued during the year	25,000
Bonded debt January 1, 1914	347,000

The general condition of the Town finances is good. Drafts on the Contingent Fund were necessary, on the Miscellaneous and Printing Accounts, also on the Police, Laborers' and Teachers' Pension Accounts. The Miscellaneous Account appeals to so many different wants that it is difficult to confine the charges against it within the appropriation; the Printing Account is increasing annually in view of a larger Auditors' Report and various committee reports, also printing incidental to several of the Town departments; transfers had to be provided for in the Police, Laborers' and Teachers' Pension accounts for the retiring of one member in each of these departments.

On April 4 George F. Choate, who had been connected with the Fire Department of the Town for forty years and its Chief for the past twenty-two years, passed away, the Town losing the services of a trustworthy, reliable and capable man.

On May 15 Edward A. McCue, who had served the Town efficiently in the capacity of Superintendent of Streets for over eleven years, resigned and the vacancy was filled by appointing Ivers M. Low of Weymouth, formerly Superintendent of Streets of that town. Mr.

Low has been very satisfactory and with proper assistance that is necessary in the Highway Department, a material improvement in our streets will be realized. The maintaining of the streets continues to be a serious problem and one of the important questions on the subject is the proper maintenance. In order that the streets may be kept up to the standard that this Town has always maintained previous to the increased automobile traffic, it will be necessary to appropriate a larger amount of money for a few years in order to get the main streets of the Town in proper condition. To do the work that is urgently needed the purchase of road machinery is necessary to meet these conditions and it will require a new steam roller, scarifier and a five-ton auto truck that the work might be hastened and good results accomplished; we feel that delay in the matter will cause greater expense later.

The contract work on Canton Avenue between Blue Hills Parkway and Atherton Street was completed late in the season and the Selectmen hope that it will prove satisfactory to the Town.

This work was done under the supervision of the Massachusetts Highway Commission and it is not only the opinion of their engineers but also the opinion of other reputable road engineers that it is a good form of road construction.

The granolithic side walk on Central Avenue was extended to Brook Road and granolithic walks have been constructed on the westerly side of Canton Avenue from Adams to School Street, Huntington Avenue on both sides, on the northerly side of Granite Place and a small section on Brook Road near Columbia Park.

The committees who were appointed at the March 4, 1913, meeting to report to the Selectmen January 1, 1914, namely—committees on "Precinct Voting," "New

Town Hall," "Pine Tree Brook Improvement" and "School Committee's Report on the Special Committee's School Report" having made their reports as requested, the same will be printed and distributed with the Auditor's annual report.

During the year the perambulation of the Town bounds were made with the officials of the city of Quincy and the towns of Randolph and Canton; all bounds were found in proper places.

Acting under Statute Chapter 692 of the Acts of 1913 the financial year of the Town shall end hereafter on December 31 of each year.

Therefore the Town will at the March Meeting make a ten months' appropriation to December 31, 1914, instead of a twelve months' appropriation to March 1, 1915; from January 1, 1915, to March 1, 1915, the Town can make expenditures in anticipation of the March Meeting of 1915.

The income from the \$5,000 bequest from the Mary L. Peabody was disbursed at Christmas time according to the terms of the will.

We regret exceedingly the death of our chairman, Mr. Henry H. Barnes. His absence from the board we dearly miss, for his good advice and genial disposition always made our meetings most pleasant.

The Town loses a worthy citizen and a good official.

We thank all Town officials and others for their assistance and good advice in helping us to discharge the duties of the Town.

MAURICE A. DUFFY,
GEORGE R. EATON,
Selectmen of Milton.

REPORT OF THE SEWER COMMISSIONERS

The Board of Sewer Commissioners makes the following report of the operations of the Sewer Department during the year ending December 31, 1913:

General		
Population by census of 1910		7,924
Estimated length of streets of town (miles)		50
Percentage of length provided with sewers		23½%
Method of disposal	Metropolitan system	
Collection Mains	For Sewage Only	For Sewage & Surface Water
Lineal feet pipe (measured)	63,221.43	700 (storm overflow)
Lineal feet extended during year*	6,607.23	
Number of inverted siphons	1	
Number of manholes	270	
Number of storm overflows	1	
House Connections		
Number made during year	56	
Number of stoppages coming to notice of department	6	
Discharge of Sewer		
Estimated population using sewer system	4,000	
Number of buildings connected	678	
Financial		
Total cost collection mains to December 31, 1913		\$134,717 23
Bonded debt at date		28,000 00
Average rate of interest on bonds		4½%

For details of sewer construction and maintenance account reference is made to the Financial Reports compiled by the Auditors as shown elsewhere.

Respectfully submitted,

JOHN BALCH,
ASAPH CHURCHILL,
CHARLES G. WAITT,

Board of Sewer Commissioners.

*The extensions made during the year were in Maple Street, 901 feet; Centre Street, 1,244.98 feet; Canton Avenue, 1,961 feet; Whitelawn Avenue, 354.85 feet; Oak Road, 293 feet; Grafton Avenue, 776 feet; Dyer Avenue, 1,076.40 feet.

REPORT OF THE SUPERINTENDENT OF STREETS

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith submit the report of the Street Department for the year 1913. As I have had charge of the department for only part of the year, this report must necessarily be concise. Assuming my duties in July, found the department to be well organized and have retained all the permanent employees. The former Superintendent has given me the benefit of his long experience and knowledge of local conditions, which has been of great assistance to me and for which I wish to convey to him my sincere thanks.

As to the condition of the highways, while the side or local roads are in a very fair condition, the surfaces of the main, heavy traveled thoroughfares are rapidly wearing out. Not in a few places, but all over the whole surface, due to the rapidly increasing automobile traffic and its destructive action on the roads. This increase of travel has so multiplied, that roads that were a few years ago good enough, are no longer adequate. They are so constructed and of such materials, that it is no longer possible to properly maintain them. This is not a local condition but a serious problem that confronts the road builder the world over. To show the great increase in the cost of maintenance in the past few years on our State roads: in 1907 it cost \$162 per mile, in 1912 \$676, and even the latter sum is found to be insufficient and the fact must not be lost sight of, that these are on new roads recently constructed and under supervision. To meet these conditions, all civilized countries are experimenting, trying to find a more durable road surface, although a

perfect solution of the problem has not been made. The most satisfactory method for macadam roads seems to be the covering of the surface with a coating of some bituminous or tar compound and when the traffic is very heavy, to mix the stone and bitumen, making a sort of concrete, for the wearing surface.

While this form of construction may ultimately be improved on, or superseded by other methods, at the present time it meets many of the requirements of modern traffic. It seems to me that we must adopt this form of construction on the main roads, building as much as possible each year and as far as possible making the work continuous. This will require the expenditure of a large amount of money, a substantial increase in the appropriations both for reconstruction and maintenance. To do the work economically, a good equipment is needed, another steam roller, auto truck and other machinery should be purchased; this must be done to bring the roads up to the proper standard.

In regard to work during the past year, I have given the work my personal attention. The different appropriations were spent as wisely and economically as possible and an honest endeavor has been made to distribute the work where most needed and to divide the labor amongst the citizens as fairly as possible.

The highway appropriations are expended in many and various ways and include such items as cleaning streets, catch basins, gutters, removal of snow, repairing of bridges, fences, street signs and many other small things, absolutely necessary to keep over fifty miles of streets, scattered over fifteen square miles of territory, in safe condition. As can be seen, much of the work is in things that are but indirectly concerned in the road surface itself and the cost of this general maintenance leaves little for new construction or extraor-

dinary repairs, consequently, most of the work of the past year was resurfacing, patching, etc. This class of work was done all over Town and on nearly every street, and I will not attempt to give a detailed statement of each job.

Considerable attention was given to the sidewalks, but there are many of them now in a disgraceful condition and I believe that the needs of the pedestrian should receive equal attention with roads.

In the following please find a brief synopsis of some of the most important jobs: Central Avenue, resurfaced with crushed stone from School Street to first private way. South Randolph Avenue rebuilt with gravel on Tucker's Hill and various places, where most needed to Quincy line; Grafton Avenue, rebuilt with gravel, east side, just recently accepted. Resurfacing with gravel was done on Bryant Avenue, Mechanic Street, Granite Place and Washington Street. Sidewalks were repaired at the same time. Other gravel repairs were made on Austin Street, Smith Road and parts of Brush Hill. Clapp Street was improved and drained by a tile drain. A short drain and two basins were installed on Columbine Street, also basin on Eaton and Washington streets. These connected with existing drains. Gravel sidewalks were repaired from Thacher Street to Robbins Street, Brook Road from Central Avenue to Canton Avenue, School Street from Canton Avenue to Pine Tree Brook and various other short sections.

New granolithic walks were built as follows:

Central Avenue, extending walk previously laid to Brook Road; Canton Avenue from School Street to Randolph Avenue, north side; about 160 lineal feet on Brook Road near Thacher Street; Huntington Road, entire length, both sides; Granite Place, north side entire length. This work was done under the appropriation for

the construction of new sidewalks. Streets, signs and fences received their usual attention.

At the close, I desire to thank the Board of Selectmen for their kindness, advice and ready co-operation; also the employees for their assistance and zeal in serving the interests of the Town.

**INVENTORY OF STOCK AND TOOLS OF THE HIGHWAY
DEPARTMENT, DECEMBER, 1913**

Stable and sheds	\$4,500 00
Stone crusher	1,500 00
Steam roller	2,250 00

4 pungs	250 00
Gutter plows	200 00

\$1,100 00

Respectfully submitted,
IVERS M. Low,
Superintendent of Streets.

REPORT OF THE TREE WARDEN

MILTON, January 1, 1914.

To the Citizens of Milton:

For the first time since the gypsy moth work began I am able to say that I see encouragement in conditions. Undoubtedly there are parts of the Town where the pest reigns still, but there are so many tracts where it has lost its hold that I say with assurance that the average condition is improved. This improvement is brought about by at least two distinct influences: the cleaning, clearing, spraying and creosoting, all classed under the head of "hand suppression," and the increase and spread of the parasites imported and multiplied by the government. Mr. Burgess, Agent and Expert of the Bureau of Entomology, under date of December 23, 1913, writes me that the Calosoma beetle and two of the smaller parasites "are all present in Milton, and (that) good work was accomplished by them the past season. All of these insects attack the brown-tail moth as well as the gypsy moth, and (two of them) feed . . . on native caterpillars." Another parasite has recently been planted in Milton, and Mr. Burgess says that judging from plantings in other towns we may safely say that it will survive, increase and do good work.

"The wilt disease" was found the past season throughout the entire moth-infested districts of this and neighboring States, but its success seems always dependent on climatic conditions. Thus I am convinced that it would not be safe to let up on the methods of "hand suppression," and yet so much territory has now been cleared of brush and of trees especially attractive to gypsy and brown-tail moths, that I am led to ask for a somewhat

smaller appropriation for carrying on the work. It will not do to relax our vigilance; all the apparent gain we have made might be lost in a single year were we to lay down our arms too soon.

Many new conditions within the department have resulted in the accomplishment of more work this year. My field superintendent, who began work on the first of April, brought new ideas and suggestions, many of which have been adopted. On the whole the public has co-operated well with the department, and the State Forester has given me more aid than ever. In this connection I must mention that though I try to give every individual who wants to do his own work on the gypsies a chance to do so, I do not understand that the law allows me to leave anyone to do his work entirely without supervision. It appears that I must follow up every square foot of land near residences and see that everything is done according to the directions of the State Forester.

Early in the season I bought a small motor car for the use of the field superintendent. Later this was replaced by a larger machine. As I paid for them both myself I will not stop to explain the reasons for this replacement. Maintenance was charged to the Town's appropriation. The uses of a motor car in this department are much the same as elsewhere, yet as these may not all be obvious, I would mention that the supply wagon was thus done away with, that much carrying of the men to and from work was done, that the crews are frequently visited three or four times during the day's work, and that I kept in touch with the work in neighboring towns.

Observation by the experts of the federal and state governments has led to the adoption of a system of "resistive thinning" as a means of combatting the moths. The trees which are especially attractive to the caterpillars are cut out, leaving only such as are comparatively

immune. As this means cutting white oaks, it is rather heroic, but gray birches and willows come under the same ban for removal and are of little real importance. It is, after all, better thus to cut and use while good, certain trees, than to leave them to be destroyed by defoliation and so become worthless, and also serve as breeding places for hordes which destroy the other trees, evergreens included. It is discouraging to note that many persons presumably not aware of these conditions, are planting willows in various places.

The first designation of a public officer to suppress the gypsy and brown-tail moths in Milton was under the act which read: "Cities and towns by such public officer or board as they shall designate or appoint . . . shall destroy the eggs. . . ." (Acts 1905, 381-384), whereas this point is now covered by the following: ". . . the Selectmen in towns shall annually in the month of January appoint a local superintendent for the suppression of gypsy and brown-tail moths. . . ." (Acts 1913, 600-602.) It will be seen that the two offices are not so intimately associated as at first, and for this reason the article for the Warrant has been altered to conform to the change of conditions. Notwithstanding this Act of the Legislature, the work of the Tree Warden and that of the Local Superintendent are very closely allied, and even in the event of the offices being held by different men, as is the case in many towns, they should be kept closely in touch.

The most evident need in carrying on the tree work at present is a proper place for housing the tools and apparatus. At first a small locker at the town barns was sufficient for all the supplies, but as sprayers have been bought and much apparatus accumulated, it has become necessary to rent space. The inventory shows a valuation of nearly \$5,000 of supplies. Rented quarters are

most unsatisfactory, especially as we have not the use of the entire building, and I have had plans prepared for a shed on the Town Land on Randolph Avenue in a location decided on after consultation with the Selectmen and the Superintendent of Streets. Estimates on this have been obtained, and based on these I recommend an appropriation of \$1,200 which will provide a building large enough for all needs which can be foreseen, and yet not so large as to be wasteful in the event of the gypsy spraying becoming less necessary. A tank for gasoline has been installed near this spot, with a small shed for the pump, and facilities for storage of some of the materials used, such as tar, oil and creosote.

It is probable that for years to come some spraying will be necessary for gypsies, brown-tails, elm-leaf beetles, canker worms, or other caterpillars, for the Town, and it seems reasonable that the department continue to do much of this work for private places.

The financial position of the department is better than in other years as regards the question of reimbursement from the State. No cash receipts are shown, but the Town has had considerable help in the way of tools, and the debt due the State is small, and it will, I think, be possible to cancel this before the first of March.

Your Tree Warden is not satisfied with the amount of tree planting which he has accomplished; this year some fifty trees were put out, but the old trees are going fast. This year's planting has all been done from the nursery established last year at the Town Farm. The remaining trees will all need transplanting in the spring, and this will be done in the present location. Some new small trees should be bought and put in nursery rows, and it is proposed to do this at East Milton Playground where a small area has been plowed up with this in view. I recommend an appropriation of \$2,000 for the

care and planting of shade trees and the destruction of insect pests injurious to trees, and ask the co-operation of land owners in planting along our roadways in some of the numerous streets where shade is coming to be so scarce. Under this appropriation too, would come the destruction of any or all of the insect pests other than the gypsy and brown-tail moths; canker worms, not now much in evidence; elm-leaf beetles, apparently on the decrease; tent caterpillars, which we have in overwhelming numbers wherever wild cherries or apples are left to their own devices. Numerous other kinds of insects are at work on our trees and need study and care lest they multiply in excess.

Present-day conditions of wires overhead, oiled roads, and sewers with the necessary digging and cutting off of roots are killing all our old roadside trees and something must be done to replace them. The only way to do this successfully is to plant away from under the wires, away from the reach of horses or wheel hubs. In most instances this would mean on the private land, but in some cases it might answer to plant between the sidewalk and the private land. This is sometimes done, and excepting where the street is very broad (or where the sidewalk is very narrow) is not a bad solution of the problem.

By law Tree Wardens are allowed to plant on private land within twenty feet of the public way on written permission of the land owner. The few applications which I have had for this plan of planting I have tried to grant, but it will be seen that unless all the owners on a street agree to this plan the results are scrappy and unsatisfactory. Are there not land owners in Milton who could work this up in their own streets? I am willing to develop the plan and later plant the trees, but is it a duty of the Tree Warden to go from door to door and ask if the owner wants a tree for every forty feet of his frontage?

Something must be said of the chestnut blight, as it is very generally disseminated in Milton. We must, I suppose, make up our minds to see the chestnut trees go, as there is at present no provision in the law for fighting this fungus. It is very hard in winter to recognize affected trees, and even when the presence of the fungus is realized, only a few land owners seem ready to make the sacrifice of cutting the diseased trees and burning the bark, the only practical means of choking its spread at present known.

Summing up, I recommend the same gross amount for all the tree work as last year, based on a twelve months year, but as I understand that the appropriations are to be made for ten months only, these will be reduced to ten-twelfths of the amount, excepting the sum for a shed.

Gypsy and brown-tail work	\$10,300
Care and planting of trees and suppression of insect pests injurious to trees	2,000
Shed	1,200

Respectfully submitted,

NATHANIEL T. KIDDER,

Tree Warden.

REPORT OF THE WATER COMMISSIONERS

To the Citizens of the Town of Milton:

The Board of Water Commissioners respectfully submits the following report for the year 1913.

At the annual March meeting Mr. Theodore T. Whitney, Jr. succeeded Mr. Reginald M. Johnson for a term of three years.

The Town appropriated \$2,500 for the extension of mains—a reduction of \$500 from the previous year and the usual amount of \$9,000 for hydrant rentals.

At the February meeting the Commissioners voted to change the policy of the board regarding the installation of mains in accepted streets only, and notified the Town that in the future, under conditions tending to secure the Town from loss, they were prepared to install water pipes in private ways. The result seems to show that this was probably a wise decision, as the number of new water takers, ninety-one in number, many of whom are on private ways, is the largest increase, with one exception, in the history of the department. The total number of services at present is 1,678.

The total amount expended for new construction in public and private ways was \$8,390.35, apportioned as follows:

PUBLIC WAYS

Valley Road, 725 feet of 6-inch pipe	\$ 928 90
School Street, 840 feet of 6-inch pipe	1,232 21
Blue Hills Parkway, Houston Avenue, 235 feet of 6-inch pipe	314 77
Belcher Circle Extension, 110 feet of 4-inch pipe . .	147 58
Canton Avenue, connection at new street of E. P. Whitney, 36 feet of 6-inch pipe	88 54
Fairmount Avenue, 72 feet of 6-inch pipe	148 59
Pleasant Street, 654 feet of 6-inch pipe	943 49
Houghton Pond to Hillside Street, 456 feet of 6-inch pipe	475 89
	<hr/> \$4,279 97

PRIVATE WAYS

Horton Place, 840 feet of 6-inch pipe	\$1,183 87	
Clifton Road, 222 feet of 6-inch pipe	380 37	
Cypress Road, 490 feet of 4-inch pipe	617 95	
Columbia and Pagoda Streets, 516 feet of 6-inch pipe	826 92	
Sassamon Avenue, 264 feet of 6-inch pipe	287 81	
Mathaurs Street, 312 feet of 6-inch pipe	469 95	
"Off Canton Avenue," private way to Milton Hill House, 184 feet of 6-inch pipe	343 51	
	<hr/>	\$4,110 38
		<hr/>
		\$8,390 35

The number of hydrants in public ways is 361 and in private property 27, making a total of 388, an increase of ten (10) during the year.

The department has added to its equipment a Ford automobile of the runabout type, replacing one driving horse which was sold. The machine has demonstrated its usefulness in the case of several accidents and breaks in various parts of the Town where it was necessary to shut off the water with the least possible delay.

The problem of so-called "dead ends" has been carefully considered and they are being eliminated gradually.

During the year it was deemed advisable to secure the services of Metcalf & Eddy, consulting engineers, for the purpose of studying the water supply with particular reference to the arrangement of the pipes to insure the greatest safety in operation.

It was also hoped that it might be found feasible to install reducing valves so that the high pressure system might be turned into the low pressure system in case of an emergency.

A few extracts from their report follow:

". . . The distribution pipe system has been intelligently laid out and the number of dead ends for a system of such extent is unusually small. The pipe sizes are adequate. . . ."

“ . . . It is suggested that a more satisfactory division of the Town between the high service and low service districts would result if a high service pipe could be laid through Harland Street from Canton Avenue to Hillside Street, and the greater portion of the high service pipes lying to the north and east of Harland Street be transferred to the low service. . . .”

“ . . . By partially opening the valve between high and low service pipes in Brush Hill Road, water could be furnished from the high service to the low service. It would, of course, be necessary to adjust the valve opening so as to avoid putting an excessive pressure upon the low service pipes. If this were to be done for any considerable period a pressure-reducing valve could be installed but the installation of such a valve for possible emergency use only is not to be recommended since when disused for a long period it would be likely not to be in proper condition when wanted. . . .”

“ . . . The Milton low service district is apparently assured of a supply of water as far as is reasonably possible to make such provision. . . .”

The amount of water unaccounted for during the past year because of under registration of meters, blowing off dead ends, accidents, breaks, leakage, etc., is much less than the average in other towns, which show the pipes to be reasonably tight,

During the year there has been some criticism of the cost of service connections. On the other hand favorable comments have been made as well. It has been the policy of the department to install all work from the main to the meter in order to insure proper laying of pipe, tight connections, and a satisfactory digging and filling of trenches. The laborers employed have been citizens of the Town and no work has been let by contract. We feel sure that the quality of work has been of high standard.

The question of construction costs without endangering the grade of work is continually being given careful attention and will be the subject of added study the coming year.

We wish to state that we invite frank and honest criticism as it is by such means that the efficiency of the department can be increased.

Respectfully submitted,

JESSE B. BAXTER,

THOMAS B. GORDON,

THEODORE T. WHITNEY, JR.,

Water Commissioners.

Payable to Milton Savings Bank
\$12,000 Outstanding Dec. 31, 1913

FUNDS HELD BY THE TOWN

PERPETUAL CARE FUND

Amount held December 31, 1913 \$29,761 00

This fund is held by the Town Treasurer in accordance with Chapter 82, Sections 15-18, of the Public Statutes, interest at the rate of 6 per cent per annum being allowed on it and paid over to the Trustees of the Cemetery.

JASON REED CEMETERY FUND

Amount held December 31, 1913 \$2,626 67

The interest on this at the rate of 4 per cent per annum is paid over to the Trustees of the Cemetery.

E. T. L. REED PUBLIC PARK FUND

Amount held December 31, 1913 \$4,495.32

EXTRACT FROM THE WILL OF ELIZABETH T. L. REED

"All the rest, residue and remainder of all the moneys remaining in the hands of said Executor or Administrator, I direct shall be divided into three equal parts.

"The second of said parts shall be paid to and deposited with the Treasurer for the time being of said Town of Milton, the same to be received, held and invested by said town as a fund to be known as the 'Jason Reed Fund,' and the income thereof shall be applied to the preservation, care, improvement or embellishment of the said Milton Cemetery.

"And the third of said parts shall be paid to said Town of Milton, and the same shall be applied by the proper legal authorities to or towards laying out, improvement or ornamentation of a Public Park or Parks in said town, in such manner as said authorities may deem advisable.

"I make the foregoing bequests in favor of First Parish, the Cemetery and the Parks in said Milton, both on account of the deep interest taken by my father, the late Jason Reed, deceased, in the affairs of said town, and of my own profound desire for the welfare of said town and of the citizens thereof."

MARY L. PEABODY FUND

Amount held December 31, 1913 \$5,000 00

The clause under which this bequest is given reads as follows: "To the Selectmen of the Town of Milton, Massachusetts, \$5,000, to be invested and the income thereof to be distributed annually to the poor at Christmas."

ANNUAL REPORT
OF THE
SCHOOL COMMITTEE

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of the Town of Milton:

The School Committee submits herewith its Report for the year ending December 31, 1913.

THE PROPOSED MUNICIPAL GYMNASIUM

The Park Commission in its report this year recommends the erection of a municipal gymnasium on the Brook Road Playground, or on the Hinkley land adjoining the playground, if the gift of that land is accepted by the Town,—and that an appropriation of twenty-five thousand dollars (\$25,000), be made for the purpose.

The Park Commission's plan contemplates that the gymnasium be used by the schools as well as the citizens.

We are heartily in favor of the recommendation.

At present our schools have no facilities worth naming for teaching or encouraging physical training. Under Miss Carret the girls of the High School and of the upper grades receive some instruction in physical exercises.

The small gymnasium at the High School is entirely inadequate for general work, and at the grade schools there are none. At the Belcher School a few years ago, it became necessary to stop wand drills by the girls in the assembly room on account of the weakness of the floor. Nowhere in the schools are there shower baths, bath tubs, or dressing rooms.

On account of the lack of proper accommodations, no attempt has been made to give the boys physical instruction. We do not forget the good work done by one of the High School teachers, Mr. Hazelton, in training the High School football and baseball teams. But this in-

struction reaches only a few—it is not regular—it necessarily passes by the boys who most need building up physically.

We believe that the desultory games which many boys play, do not, in many cases, supply the need of regular attention to their physical requirements.

The lack of a gymnasium has long been felt by the School Department—but the matter of remedying the deficiency has not been pressed upon the Town, partly because it seemed too large an expense to incur for the benefit of the schools alone.

The plan of the Park Commission, however, presents an opportunity to meet the needs of the schools as part of the general project of meeting the needs of the Town.

A proper gymnasium on the Brook Road Playground will serve the needs of the High School and the upper grades of the Tucker School and Vose School—(it is not feasible or desirable, we are informed, to attempt to include physical training in the lower grades).

Such a building, however, will not serve the upper grades of the Belcher School. But with a male physical director in the employment of the School Department it should not be a difficult matter to make some arrangement with the Cunningham Gymnasium authorities for the use of their building in a way which will be satisfactory to them and to the School Department.

It may be said to be unnatural for a boy to get physical well-being under the eye of a trained instructor by regular attendance at a gymnasium. It may be better for boys to acquire their strength and health by sawing wood and the many other regular tasks which can be done at a country home. But for most of our children such opportunities are no longer open,—and even the time which might well be spent in out-of-door play and games is now too often curtailed by the allurements of

the neighboring city and the moving picture shows at our very doors. In several of our localities, notably at East Milton and Mattapan, country conditions no longer prevail. We must all recognize that new conditions create new problems to be solved. It is to be hoped that those of us who are so fortunate as to be able to look back upon a healthy youth passed in the country, will not, on that account, be impatient, but will look with favor upon the present recommendation which offers some solution of the problem. This report was prepared and filed as directed.

THE REPORT OF THE COMMITTEE ON PUBLIC EDUCATION

At the time when our last report was being prepared, we had received the report of the Committee on Public Education. We made no special comments on that report at that time. At the March meeting, however, the Town voted that the School Committee should report to the Selectmen and Warrant Committee before January 1, 1914, upon the report of the Committee on Public Education. This report was prepared and filed as directed.

SCHOOL BUILDINGS

In our remarks regarding the proposed municipal gymnasium we refer to the fact that the Town is growing—particularly at East Milton and Mattapan. We foresee that before long it will be necessary for the School Committee to come to the Town to ask for better and larger accommodations for the schools in these districts—whether it is wise to temporize with the situation by adding to the present wooden buildings, or whether it is better to build new buildings, we believe can be better determined in the future. In this connection we must also call attention to the fact that the High School building is fast becoming inadequate.

SCHOOL LUNCHESES

With the opening of the present Fall term (September, 1913), the management of the lunch rooms at the High School and the Vose School has been undertaken by the School Department. We mention this fact especially as we wish to express the deep gratitude which we feel toward the Woman's Club for the time, thought, and money which it has devoted to organizing and carrying on these lunch rooms. The Woman's Club undertook a difficult task, and its successful beginnings are now being pursued by the School Department. But the troubles of the lunch rooms are not over, and the School Committee would much appreciate it, if even more parents could see the wisdom, as a matter of health, of having their children patronize the lunch rooms.

GIFTS TO THE SCHOOLS

The Committee desires to gratefully acknowledge the following gifts which have been made to the schools during the year:

HIGH SCHOOL:

Picture—"The Cairn, from class of 1913.
Encyclopedia of Music and Musicians.

VOSE SCHOOL:

Pictures—Peter Fischer's Painting of King Arthur from the statue at Innsbruck, from class of 1913. Photographic copy of Gilbert Stuart's Painting of Washington, from Lee Turner.

TUCKER SCHOOL:

Picture—"Canterbury Tales," from class of 1913.

BELCHER SCHOOL:

Picture—"Autumn" by Mauve, from class of 1913.

GLOVER SCHOOL:

Silk Flag, from Felix Turner.

WADSWORTH SCHOOL:

Picture—Abraham Lincoln, from Col. Oliver W. Peabody, Camp 74, Sons of Veterans.

FOR ALL SCHOOLS:

Books and Charts regarding Birds from the Brush Hill Bird Club.

REQUIREMENTS FOR 1914

Your Committee has made careful estimates for the ensuing year and is of the unanimous opinion that the following amounts should be appropriated:

The estimates for the full year are—

General school expenses	\$89,360 00
Transportation of pupils	1,900 00
Medical services and nurse	1,000 00
Special appropriation for pianos	2,000 00

As the recent change by the Legislature in the fiscal year of towns from March to March to January to January permits appropriation for ten months only, we ask for five-sixths of the above amounts:—

	(Approximate)
General school expenses	\$74,500 00
Transportation of pupils	1,575 00
Medical services and nurse	825 00
Special appropriation for pianos	2,000 00

REGINALD L. ROBBINS, *Chairman*,

PERCY E. SHELDON, *Secretary*,

ANNE R. CUNNINGHAM,

J. ERICSSON HARVEY,

STEPHEN C. MITCHELL,

PART I
EDUCATIONAL SURVEY

REPORT OF THE SUPERINTENDENT

To the School Committee:

I have the honor to present at this time my second annual report, which is the thirty-fourth in the series of Superintendent's Reports. I have put in as brief compass as possible some of the needs of the immediate future and a general survey of the important changes in plant and equipment, and some mention of the chief activities of the Department.

HIGH SCHOOL GROWTH

The most phenomenal feature connected with Public Schools in the United States in the last twenty-five years has been the development and growth of Public High Schools. The situation in Milton is typical. The Milton figures show that there were forty-three (43) pupils in the High School in 1885. In 1895, when the present building was built, there were seventy-six (76) pupils, (a seventy-seven (77) per cent increase). In the ten years following the construction of the present building the numbers increased from seventy-six (76) to one hundred and eighty-eight (188), (a one hundred and forty-seven (147) per cent increase). From the year 1905 to 1912, the numbers increased to two hundred and seventy-eight (278), (a forty-eight (48) per cent increase in seven years).

PRESENT BUILDING

During the past ten years, to meet this increasing enrollment every nook and cranny of the present building, even to the roof space over the assembly hall, has

been converted into rooms to meet the demands. Many of these temporary provisions are highly unsatisfactory, as to light, air, and space. This condition was mentioned in a general way in our report of last year. The present assembly hall is entirely inadequate for general exercises, the facilities for chemical, physical, and botanical laboratories are not at all adequate or satisfactory. Although the changes in subject matter and method of teaching the sciences have been great and varied in the past fifteen years and although the demands of both the colleges and the technical schools for a wider and more complete training in sciences have been felt, the provisions made for the teaching of these subjects when the present High School building was built have remained as originally installed. The absence of a proper science demonstration room involves a waste of time and effort in repeating exercises for different sections. The lack of recitation rooms of sufficient size in other departments as well oftentimes makes two divisions of a class necessary where one should suffice. There is no room for a library or reading room. When one considers the demands put upon a building by an enrollment which has increased from seventy-six (76) to two hundred and seventy-eight (278), (two hundred and sixty-six (266) per cent), it is not surprising that the character or size of the provisions then made should be insufficient for the present needs. My own observation, together with the report of the principal, as to the manner in which the work of the school is handicapped makes it seem necessary that I should call to the attention of your Board anew the advisability of immediate consideration of these needs.

PHYSICAL EDUCATION

A further and most fundamental need involves a broad and definite provision for sensible, well-organized, well-

directed, physical education, with good health and proper hygiene as the ultimate end. Your Board has long been aware not only of this great need, but also of the inadequate facilities to meet it. An opportunity now seems to be presenting itself for a judicious and helpful combination of effort between your Board and the Park Commission with a view to providing a suitable gymnasium on or near the Brook Road Playground. Such a gymnasium, with a trained director, would, without doubt, serve as a place in which would center and from which would radiate wholesome activities for the better physical development and education of the school children and at the same time meet the requirements of a municipal gymnasium. While we thoroughly appreciate the benefit derived by the few who engaged in contests in different sports with victory and victory alone in view, we appreciate more keenly the need for that type of physical education and development which comes from a variety of sports and contests which are engaged in by each and every one for their recreational and health giving ends.

My own observation, supplemented by reports from the many places where careful and regular attention has been given to the laying of sure foundations for vigorous and robust health, has brought the conviction that the duty of the Public School in this direction is quite as plain and more fundamental than the duty of providing intellectual training.

It is an unfortunate fact that many of the old time opportunities for vigorous and healthful physical development have vanished. The modern temptations are towards indoor entertainment, or mere observation of open air sports and games. It is neither good sense nor good business to expend time and money on purely intellectual, or even moral training, without providing

also such training in the laws of hygiene as will develop a foundation of physical health and robustness, which will enable one to endure the strain and stress of modern business or professional life.

Such places as Brookline, North Easton, Winthrop, Winchester, Newton, Springfield, Watertown, Waltham, have long maintained gymnasiums with trained directors.

ALTERATIONS AND IMPROVEMENTS

At the Belcher School, to accommodate the Manual Training classes which had completely outgrown the small and unsuitable room over the entrance porch, one of the unused portable buildings at the Glover School was moved to the Belcher School yard. This building furnishes relief for a very troublesome situation in the Manual Training accommodations. The room formerly occupied by the Manual Training classes was converted into a very satisfactory room for the Sewing classes, which had been occupying improvised quarters in one corner of the assembly hall. At this school, also, the resurfacing and regrading of the driveways, the building of dry wells and suitable concrete gutters have remedied most of the difficulties experienced on the occasion of every storm. New lavatories and drinking fountains have been installed.

At the Wadsworth School, new window shades were needed throughout the building, as well as painting and calsomining in several of the rooms, and other minor repairs.

The interior of the Sumner School was renewed with paint, varnish, and calsomine.

At the Tucker School, new lavatories and drinking fountains were provided in the basement, a new fence was built on the south side of the yard, and through the co-operation of the Park Commissioners a new barberry

hedge was planted on this same side of the yard. Many repairs are needed yearly upon this building and very soon the entire roof will need reshingling.

At the Vose School, the heating and ventilating system has been rearranged. The steam engine used to run the ventilating fan, which depended upon a high pressure boiler with at least thirty pounds of steam, has been displaced by an electric motor, which now furnishes power for the fan in a very immediate and convenient way and makes it possible to heat the building with a very low pressure and in the mild weather of Spring and Fall with practically no pressure. The boilers here and at the Tucker School have been equipped with State Police safety valves in accordance with the low pressure needs. The Department was convinced by careful advice, and experience thus far has shown that this will mean not only a reduction in the cost, but in a more convenient method of operating the system.

At the High School building, the dry wells and general drainage about the building had become so clogged and inadequate that for several years the basement and boiler rooms were frequently flooded. To overcome this difficulty new dry wells and adequate drain pipes were provided around the building, so that the surface water and roof water from the High School building, as well as from one side of the engine house, is properly taken care of.

It seemed necessary to provide some room which could be used by the boys as a lunch room. The only place convenient and available was the room formerly used by the Sewing classes. This room at other times is available as a recitation room.

The Sewing classes were removed to one of the rooms of the Thacher School building, which is being fitted up with suitable cabinets and tables by the Manual Training pupils.

Further temporary relief from the inadequate accommodations at the High School has been provided by the removing of some of the work in the Manual Training classes to another room in the Thacher School building. This room has been provided with a saw table, having a mortising and boring attachment, and also a small jointer. This installation of a circular saw and plane, with room enough to prepare some of the stock and assemble some of the larger pieces of cabinet work, not only provides for a very reasonable and necessary extension of the Manual Training opportunities for the High School boys, but makes it possible for the efforts of the boys in these classes to be devoted to the practical work of constructing cabinets, cases, furniture, etc., actually required by the School Department in the various buildings. Considerable has already been accomplished this year in this direction of practical productive effort to the advantage of the pupil and in saving of expense to the Department.

CHANGES IN ORGANIZATION

The responsibilities of the Department were increased by assuming the care and management of the Lunch Departments at the Vose School and at the High School. After these lunch counters had been organized and carried on by the Woman's Club for so many years, the School Committee agreed that this enterprise, necessary in any one session school, should be assumed by the School Department. Any one who has known about or benefited by the enterprise of the Woman's Club in this direction appreciates the distinct service which has been rendered.

The School Department has met this responsibility by placing the lunch arrangements under the direction of the Domestic Science Department, who, together

with necessary assistants at the Vose School and High School, has since September been providing the lunches. When possible, the classes in cooking are co-operating in providing some of the dishes for the lunch and are thereby getting a more practical kind of instruction than is sometimes possible with smaller quantities. Thus far these lunch rooms have been conducted without expense to the School Department. Every effort is being made to make this department self-supporting and at the same time give a generous and wholesome variety of food. The lunch at the High School is conducted on the cafeteria plan, so that pupils file past the lunch counter helping themselves to trays and napkins and such food as they desire, paying the inspector, before whom they pass, with the requisite number of penny checks previously purchased.

TEACHERS

Since our last report was prepared there have been eleven (11) resignations of teachers and two have been granted leave of absence. Of these thirteen (13) positions thus made vacant, three were principals' assistants, three, directors of departments, three, High School teachers, three, teachers of special subjects, and one, grade teacher. The discovery and securing of candidates of the right calibre and adaptability for these very important positions and the adjustment to the respective positions, many of which have widely different demands and needs, has involved not a little time and thought.

ORGANIZATION

Since entering upon the work at Milton much study has been given not only to the administration, but to the organization of the Department on its educational side. For many reasons it has seemed best to begin any changes

or revisions at the High School. After a careful study of the existing courses, arrangement of subjects and program upon which the High School was organized, and after many conferences with Mr. Curtis, principal of the High School, a conservative revision and in some cases a reorganization of the courses of study was agreed upon.

The so-called two year and four year vocational courses adopted three years ago experimentally were abolished. To meet the needs of those pupils for whom these courses had been provided, it seemed that a more practical and economical and acceptable organization of courses could be made. To cover the legitimate demands of pupils for training in some of these special lines of educational activity and for pupils who had neither inclination nor adaptability to the work of either Commercial, Collegiate, or Technical courses, four courses were planned as Practical Arts courses. These four courses have been so arranged that with the exception of the main subject, which differentiates one course from another, the remaining subjects are practically the same and are parallel throughout the four courses. The subjects which differentiate these courses and give them their names are Manual Training, Printing, Household Arts, Sewing and Dress-making. These courses are planned to be completed in three years, providing pupils are anxious to concentrate and take one or two afternoon classes per week, otherwise they will require four years' study to obtain the regular diploma of graduation.

The four traditional courses, College, Technical, General, and Commercial, have been revised in the direction of fewer individual electives and with no "optional" courses. Here also subjects have been paralleled so that pupils taking different courses often may be combined into one class in any particular subject. This simplifica-

tion and rearrangement has facilitated the making of the High School daily program and has enabled us to dispense with one High School teacher.

GRAMMAR SCHOOL GRADUATES

Meetings were arranged at the Belcher, Tucker, and Vose Schools in June, at which time these courses and the opportunities offered at the High School were presented to the parents and to the members of the graduating classes. Brief addresses were made by the superintendent and principal of the High School.

To aid in a more accurate and helpful choice of courses, Mr. Curtis consented to hold personal conferences not only on these occasions, but on subsequent afternoons, with the graduates, their parents, and the Grammar School principals. This plan, we feel sure, has resulted in a better fitting of the members of the entering class into the proper courses in the High School, since there has been much less desire to change about from one course to another. While this reorganization may be tentative and incomplete, we feel that it has been in the right direction and that the High School is so organized that it will be able to serve the various demands made upon it by the very diverse needs of the boys and girls of secondary school age.

In June the Grammar Schools graduated one hundred and five pupils, twenty-nine from the Belcher, thirty-four from the Tucker, and forty-two from the Vose. Eighty-three (83) of these graduates plus thirteen (13) new residents entered the High School in September. This is a large percentage of pupils to enter High School, as is usually the case in Milton. There are at the present time 148 pupils in the eight grades which means a very large class entering High School next September.

KINDERGARTENS

Another change in organization seemed advisable on account of the small number of pupils of kindergarten age in the Glover and Thacher districts. After careful consideration it seemed advisable to discontinue the transporting of eight or ten kindergarten children from the Thacher district to the Glover district. This group in the Thacher district was united with the small first grade as a sub-primary class at the Vose School. In like manner, the small group of children of kindergarten age, at the Glover district, was united with a small first grade in the Glover School. In both these rooms, as at the Wadsworth, Sumner, and Houghton, the kindergarten or sub-primary children receive especial attention in the morning session, which ends at twelve o'clock. The first grade divisions then receive especial attention in the afternoon session. Until the number of children of kindergarten age in each of these districts increases this seems to be the most economical and satisfactory method of organization. The numbers in the kindergartens at the Tucker and Belcher are large and increasing each year.

PRIMARY READING

An arrangement, which is already proving to be very effective, was made so that Mrs. Gordon, one of the regular teachers in the Wadsworth School, the author of the widely used Gordon method of reading, is released two days per week from her regular school room duties to supervise the reading of the first three grades throughout the Town. There are indications already that the schools will secure much more effective results in this most important subject of the primary grades.

SPECIAL SUBJECTS

I feel that the Department has been exceedingly fortunate in persuading Miss Whittier to assume the position of director of music. In this branch there is every indication of the very great strengthening and broadening of the work. The children of any school system are fortunate indeed if the proper facilities and inspiration are furnished so that they may acquire the musical inheritance, which rightfully belongs to them.

The Department of Household Arts, or Cookery, has been greatly strengthened and extended, so that many more pupils are electing the course in cooking this year. We shall not be satisfied until every girl in the High School has had at least one full year's instruction in this subject.

In the Printing classes, besides those who are taking printing as their particular course, pupils in the freshman year of the Commercial course are taking four hours a week in typesetting, purely as a cultural subject, to develop accuracy in spelling, punctuation, paragraphing, etc. We are confident of the valuable results from this training.

We have already alluded to the extension of the Manual Training work made possible by the introduction of two simple woodworking machines. This Department has been further strengthened by the appointment of a man, instead of Miss Tucker, resigned, to teach the upper grammar grade classes in woodworking and also to assist in the direction of groups who are doing practical jobs.

PRACTICAL ARTS

There has been and still is much confusion and variation both among laymen and school men in regard to the use of the words vocational, trade, pre-vocational,

continuation, and co-operative. In the strict use of these words Milton has no courses that come under either of these classifications.

Such subjects as Bookkeeping, Stenography, Type-writing, in the so-called Commercial course, are doubtless vocational subjects. Much of the work that is done in such subjects as Printing, Manual Training, Sewing, and Cookery, has a pre-vocational aspect, or even vocational, regardless of whether these subjects are offered in the upper grammar grades, or in the High School.

Until such time as there comes to be a more general agreement as to the classification and naming of such courses as cannot be sharply defined under any of the general heads mentioned above, we prefer to consider these subjects as Practical Arts subjects, in contrast to the traditional Academic subjects.

There is no question about the place of subjects of this type in the curriculum of a general High School. Pupils who desire these forms of training, and who are at the same time getting liberal culture in Academic subjects, may be attracted toward certain vocations, or even repelled from them. The latter result, in some cases, may be as valuable as the former.

The opportunities offered by a limited variety of subjects of this type, we feel sure, help to open up and extend the vocational horizon of the boy or girl who cannot, perchance, anticipate more extended training in advanced schools. The diversity of both the demands and the opportunities in the present day makes it more than ever incumbent upon the school not only to furnish every opportunity possible for the wisest training in the school, but to exert a wholesome influence as to the choices after the school.

VOCATIONAL GUIDANCE

In this connection I hope there may be developed a more or less scientifically organized scheme which will not only aid in giving vocational advice and direction while pupils are in school, but which will continue to maintain a knowledge and interest in the subsequent success or failure of all the young people of the Town. The organization of a Committee made up of representatives of the different professions, business, trade, and manufacturing activities might do much to help Milton boys and girls to find spheres of usefulness best adapted to them.

The next task and most immediate work appears to be the gradual and conservative revision of some of the courses outlined for the elementary schools. Considerable study has already been given not only to the content of the present courses, but to the equipment and means of carrying out the instruction. Your Board will be called upon from time to time to consider recommendations with reference to this Department of the system.

Respectfully submitted,

FRANK MONROE MARSH,
Superintendent.

January 20, 1914.

CLASS SONG

Words by Catherine R. Courtney
Tune: "Love's Star"

I

His flaring car Apollo drives,
 Beyond the ocean deep to sink;
 And now a star in heaven rides,
 To guide us to the Future's brink.

II

O Ev'ning Star, pure ray of light,
 Thy brilliant beams upon us rest;
 Point out our path, since dark the night;
 Help us to do our level best.

III

Before our view the Future lies;
 Its gloomy shades fill us with fear:
 But if we toil, then ours the prize;
 Light thou our steps as we draw near.

IV

There Iris waits with outstretched wings
 To grant rewards with heav'nly grace.
 All round Jove's court acclaims will ring,
 When we have tried and won the race.

MEDICAL INSPECTION REGULATIONS

SCHOOL PHYSICIAN

1. The school physician is to visit the schools whenever he is directed to do so by the superintendent of schools.

2. The school physician shall make a prompt examination and diagnosis of all children referred to him as hereinafter provided, and such further examination of teachers, janitors, and school buildings, as in his opinion the protection of the health of the pupils may require. The school physician shall make a prompt examination of every child who wishes to obtain an age and schooling certificate, as provided in Section 60 of Chapter 514 of the Acts of the year 1909, and who presents to said physician an employment ticket, as provided in said section, and the physician shall certify in writing whether or not in his opinion such child is in sufficiently sound health and physically able to perform the work which the child intends to do.

3. There shall be referred to the school physician for examination and diagnosis every child returning to school without a certificate from the Board of Health, after absence on account of illness or from an unknown cause.

4. The school physician may be consulted by the superintendent of schools on any matter pertaining to the health of the children.

5. Principals shall promptly notify the superintendent by telephone, whenever in their judgment the services of the school physician are needed.

SCHOOL NURSE

1. The school nurse shall assist the school physician, follow up his recommendations, and so far as possible see that his directions are carried out,

2. She shall visit each school at such times as she may be directed by the superintendent of schools, observe the general health conditions, inspect the children as to cleanliness and obvious defects, and help the teachers by advising them on matters of health.

3. She shall report in person to the principal of the school or the teacher in charge, immediately upon her arrival each day and before her departure.

4. She shall keep such records in such form as the superintendent may determine.

5. She may visit excluded pupils at their homes; provided that such visits shall not be made in cases of smallpox, scarlet fever, diphtheria, measles, whooping cough, or mumps, and keep a record of all her visits, and the results of all her visits. She shall revisit from time to time as may be necessary.

6. She may visit the homes where there are flagrant cases of pediculosis and show the mothers how to treat the condition and encourage persistence.

7. She shall not treat cases of trachoma, but shall urge upon parents where necessary the need of treatment, and if advisable take the child to a dispensary.

8. She shall under the direction of the school physician give first aid in cases of minor cuts and bruises.

9. She shall check up vaccination records.

10. She shall make the sight and hearing tests of the children.

11. She shall urge upon parents, where necessary, the importance and value of a proper care of the teeth.

12. In general, under the direction of the superintendent of schools, she shall perform such other professional duties, consistent with the nature of her work, which will promote better hygienic living in school and home.

DISEASES

1. No child shall be admitted to school who has not been vaccinated, except upon presentation of a certificate granted for cause stated therein, signed by a regular practicing physician, that he is not a fit subject for vaccination.

2. A child who is a member of a household in which a person is ill with smallpox, diphtheria, scarlet fever, measles, or any other infectious or contagious disease, or of a household exposed to such contagion from another household as aforesaid, shall not attend any public school during such illness until the teacher of the school has been furnished with a certificate from the Board of Health, or from the attending physician of such person, stating that danger of conveying such disease by such child has passed, and that in the case of smallpox, diphtheria, and scarlet fever, at least two weeks, and in case of measles, at least three days, have elapsed since the recovery, removal, or death of such person.

3. A child sick with either smallpox, scarlet fever, measles, chicken pox, tuberculosis, diphtheria, or influenza, tonsilitis, whooping cough, mumps, scabies, trachoma, or other infectious disease, shall be excluded from school, and shall not be allowed to return until the teacher of the school has been furnished with a certificate from the Board of Health or from the attending physician of such person, stating that danger of conveying such disease by such child has passed; and that in case of small pox, diphtheria, and scarlet fever, at least two weeks, and in case of measles, at least three days, have elapsed since the recovery, removal, or death of such person.

4. Notice of the disease or defects, if any, from which any child is found to be suffering, shall be sent to his parent or guardian. A child showing symptoms of smallpox, scarlet fever, measles, chicken pox, tuberculosis, diphtheria, or influenza, tonsilitis, whooping cough, mumps,

scabies, or trachoma, is to be sent home immediately, or as soon as safe and proper conveyance can be found, and the Board of Health shall at once be notified.

5. Children showing symptoms of pediculosis, ring worm, or impetigo, shall be excluded until danger of contagion has passed, and the parent or guardian shall be notified at once of the exclusion.

6. Whenever it is found advisable, a child who is a member of a household in which a person is ill with any infectious or contagious disease other than the foregoing, may be excluded until the teacher has been furnished with a certificate from the Board of Health of the town, or from the attending physician of such person, stating that danger of conveying such disease by such child has passed.

7. Each child in the public schools shall be separately and carefully tested and examined at least once in each year to ascertain whether he is suffering from defective sight or hearing, or from any other disability or defect tending to prevent his receiving the full benefit of his school work, or requiring a modification of the school work in order to prevent injury to the child or to secure the best educational results. Notice of any defect or disability requiring treatment shall be sent to the parent or guardian of the child, and a physical record of each child shall be kept in such form as the State Board of Education shall prescribe.

8. A household includes all persons occupying the same rooms and using the same entries.

If two or more families occupy the same house, but with separate entrances, and they use no rooms in common, such families are considered to be separate and distinct households. All doubtful cases shall be referred by the superintendent to the Board of Health for decision.

9. A monthly report of medical inspection shall be sent to the superintendent by the principal on blanks furnished for the purpose.
